Additional Information: The current OMB project to completely rewrite its Circular A-87, "Cost Principles for State and Local Governments" includes proposed revisions of the interest allowability provision. OMB is considering the possibility of adopting uniform provisions on interest in each of its Circulars on Cost Principles, A-87, A-21 for Educational Institutions and A-122 for Nonprofit Organizations. If this occurs, HHS will consider adopting the same provisions for interest costs incurred by hospitals under Federal research and training awards.

Abstract: This rulemaking would standardize the procedures for imposing civil money penalties and related sanctions authorized by statutes incorporating provisions of section 1128A of the Social Security Act. In addition to standardizing OIG's existing CMP procedures, this rule would include provision for CMPs and related exclusions for various Medicare Part B violations resulting from OBRA '86, OBRA '87, OBRA '90 and PL 100-360, including (1) those who bill Medicare beneficiaries on a non-assigned basis for services of a certified nurse anesthetist or a physician assistant; (2) non-participating physicians billing for actual charges above permitted charges; (3) certain instances of failure to provide appropriate diagnostic codes with a request for payment for an item or service provided by a physician; and (4) the misrepresentation of claims submitted by covered nurse practitioners in rural areas.

890. ● TITLE VI OF THE CRA OF 1964, SUBPART B-NATIONAL ORIGIN DISCRIMINATION IN PROGRAMS RECEIVING FED. FINANCIAL ASSISTANCE FROM THE DHHS AGAINST PERSONS OF LIMITED ENGLISH PROFICIENCY

Legal Authority: 42 USC 2000d-1

HHS—OS

Proposed Rule Stage

CFR Citation: 45 CFR 80

Legal Deadline: None

Abstract: Title VI of the Civil Rights Act of 1964 prohibits discrimination based on race, color, or national origin in programs and activities that receive Federal financial assistance. This addition as Subpart B to the Department's Title VI regulation will address a serious barrier to equal access to health and human services--the denial of services and other unequal or discriminatory treatment to persons of limited English Proficiency (LEP). Persons of LEP tend to be disproportionately represented in certain national origin groups. The inability to communicate with persons of LEP therefore may have the effect of discriminating against certain persons on the basis of national origin. This regulation will establish standards for compliance by recipients and provide guidance to OCR Regional Offices in conducting complaint investigations and compliance reviews. Compliance with these regulations would improve access to services for persons regardless of national origin. The alternative would be to do nothing about the identified problem, which would be detrimental to LEP persons.

891. AUDITS OF NONGOVERNMENTAL GRANTEES

Significance: Agency Priority

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74.62

Legal Deadline: None

Abstract: This action will implement OMB Circular A-133 which was issued on March 8, 1990. The Circular provides governmentwide standards for non-Federal audits of colleges and universities and other nonprofit recipients of Federal grants and contracts and requires such audits for fiscal periods beginning on or after January 1, 1990. The Circular exempts hospitals not affiliated with institutions of higher education. The HHS implementation of the Circular will contain a definition of affiliation on which the public will be afforded an opportunity to provide comments. The Circular and these amendments replace the audit requirements currently contained in OMB Circular A-110.

Additional Information: Only a small number of public comments on the interim final rule's definition of affiliation were received. However, they contained some misunderstandings about the HHS definition and its effects, as well as a number of suggestions for possible changes thereto. We are carefully considering those comments and expect to issue a final rule responding to misunderstandings and making some minor changes to the definition.

895. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74; 45 CFR 92

Legal Deadline: None

Abstract: OMB is in the process of issuing updated fiscal and administrative guidance on requirements governing grants (including cooperative agreements). Separate guidance will be provided for grants awarded to governments and those awarded to colleges and universities and other nonprofit organizations. In separating grant rules for governments from those of other recipients, OMB recognizes the unique competence of States to administer grants and embraces the concept of Federalism. HHS regulations governing grants to these entities will have to be updated to accommodate these changes. HHS regulations governing grants to governments which implement OMB Circular A-102 are codified in 45 CFR Part 92. Those governing grants to colleges and universities and other nonprofit organizations which implement OMB Circular A-110 are codified in 45 CFR Part 74.

903. IMPLEMENTATION OF THE EQUAL ACCESS TO JUSTICE ACT IN AGENCY PROCEEDINGS

Legal Authority: 5 USC 504(c)(1)

CFR Citation: 45 CFR 13

Legal Deadline: None

Abstract: The Equal Access to Justice Act requires agencies to pay attorney fees to parties prevailing against the Government in certain types of administrative proceedings. It requires each agency to issue rules implementing the Act as it applies to these proceedings. As originally enacted, the Act had a sunset clause. A recent statutory amendment eliminated the sunset provision and made other changes in the Act. The instant regulation would amend 45 CFR Part 13 (HHS's regulation implementing the Act) to eliminate the corresponding sunset provision and to make other changes conforming with the statutory changes.

Significance: Regulatory Program

Legal Authority: 42 USC 1302; 42 USC 1383; 42 USC 405

CFR Citation: 20 CFR 404.1500ff, Appendix 1

Legal Deadline: None

Abstract: Sections 3.00 and 103.00 of Appendix 1 to the Disability Regulations (404.1501 through 404.1599) describe those respiratory impairments which are considered severe enough to prevent a person from engaging in any gainful activity or, in the case of a child under age 18, age-appropriate activities. We are proposing revisions to require consideration of the nature and clinical manifestations of respiratory disorders and the limitations such disorders impose on the individual's ability to function. The Supplemental Security Income program incorporates by reference and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance programs.

Abstract: Sections 1.00 and 101.00 of Appendix 1 to the Disability Regulations (404.1501 through 404.1599) describe those musculoskeletal impairments which are considered severe enough to prevent a person from doing any gainful activity or, in the case of a child under age 18, age-appropriate activities. We are proposing comprehensive revisions to these sections to ensure that the medical evaluation criteria are up to date and consistent with the latest advances in medicine. Legal Deadline: None

Abstract: Sec. 2615 of Pub. L. 98-369 amended sec. 1127 of the Social Security Act to eliminate windfalls that permitted some people who were paid Old-Age, Survivors and Disability Insurance (OASDI) and Supplemental Security Income (SSI) benefits retroactively to receive more in total benefits for the same period than if they had been paid the benefits when regularly due. The two main changes are: (1) SSI benefits will be reduced where retroactive OASDI benefits have been paid before the SSI benefits. Under prior law, reductions could be made only in retroactive OASDI benefits and only when the retroactive SSI had been paid first. (2) OASDI or SSI benefits payable upon reinstatement following a period of suspension or termination will be reduced by the amount of SSI benefits that would not have been paid if the OASDI benefits had been paid when regularly due. We will amend our regulations to conform to the statutory changes. The program savings to SSA are estimated as $5 million a year.

Abstract: The proposed regulation reflects the provisions of the following statutes: (1) Pub. L. 97-458, enacted January 12, 1983, which provides that Indian judgment funds held in trust or distributed per capita pursuant to a plan approved by Congress or the Secretary of the Interior are excluded from income and resources under the Supplemental Security Income program (2) Pub. L. 98-64, enacted August 2, 1983, which provides for the exclusion of all funds held in trust by the Secretary of the Interior for an Indian tribe and distributed per capita to a member of that tribe and (3) Pub. L. 100-241, enacted February 3, 1988, which provides for the exclusion from income and resources of certain items received by an individual Alaska native or descendent of an Alaska native from a native corporation.

Significance: Agency Priority

Legal Authority: 42 USC 402(x)(1); 42 USC 405

CFR Citation: 20 CFR 404D

Legal Deadline: None

Abstract: Existing regulations at 20 CFR 404.468(d) provide a vocational rehabilitation exception to the nonpayment of benefits to prisoners provision described at 20 CFR 404.468(a). Under the exception, the nonpayment provision does not apply if a prisoner who is entitled to benefits on the basis of disability is actively and satisfactorily participating in a rehabilitation program which has been specifically approved for the individual by a court of law. In addition, the Secretary must determine that the program is expected to result in the individual being able to do substantial gainful activity upon release and within a reasonable time. No benefits will be paid to the prisoner for any month prior to the approval of the program. The proposed regulations would set out more definitive criteria for applying the exception and would define terms, such as "rehabilitation program," "court of law," and "reasonable time," for purposes of applying the exception.

Abstract: These proposed regulations will implement statutory changes contained in sections 2 and 4 of PL 99-643. These provisions: (1) make section 1619 of the Social Security Act permanent; and (2) simplify the transitions among regular SSI status, special benefit status, and special Supplemental Security Income status for Medicaid purposes. The proposed regulations also will involve the statutory change contained in section 5032 of Pub. Abstract: These proposed regulations would place a limitation on the rates of payment a State may pay for laboratory tests purchased by State agencies. Under these proposed regulations a State agency would be required to limit the amounts it pays for laboratory tests to the maximum payment level contained in the Health Care Financing Administration's (HCFA) National Limitation Amounts for Laboratory Fee Schedules. Currently the only payment requirement is that the rates of payment not exceed the highest rates paid by Federal or other agencies in the State for the same or similar types of services.

Significance: Agency Priority

Legal Authority: 42 USC 1302

CFR Citation: 20 CFR 404.366(a)

Abstract: This proposed rule would change one of the requirements for determining whether an insured person is contributing to the support of a child at a specific time. The requirements that contributions be made regularly and be large enough to meet an important part of a child's living expenses would be replaced by a requirement that consideration be given to the economic circumstances of both the insured person and the child and that recognition also be given to the child's needs. Because of the minimal number of persons who would be affected by these proposed changes any additional program costs would be negligible.

Abstract: We propose to amend our regulations on redeterminations of Supplementary Security Income eligibility. Our current policy does not include in the redetermination period the month of eligibility, the month of application, or the month of the last redetermination or eligibility update. The redeterminations omit these months and, as a result, we do not have an accounting of all living arrangements, income, and resources for the period of eligibility. We propose to change our policy to include in the redetermination period all months from the first day of the month of eligibility, month of application, or month of eligibility update for the first redetermination and all months from the first day of the month of the last at redetermination for subsequent redeterminations. However, for redeterminations which cannot be reopened within the rules of administrative finality, we propose to limit the verification of retroactive information on factors of eligibility to no more than what the rules of administrative finality allow.

938. SUPPLEMENTAL SECURITY INCOME PROGRAM; ELIGIBILITY FOR SSI BENEFITS OF CHILDREN OF ARMED FORCES PERSONNEL RESIDING OVERSEAS

Legal Authority: 42 USC 1382c; 42 USC 1383

CFR Citation: 20 CFR 416.202; 20 CFR 416.215 (New)

Legal Deadline: Other, Statutory, April 1, 1990.
Statutory Effective Date

Abstract: These proposed regulations extend eligibility for SSI benefits to blind or disabled children who are United States (U.S.) citizens and who reside with a parent who is a member of the U.S. Armed Forces assigned to permanent duty ashore outside the U.S., the District of Columbia, Puerto Rico, and certain territories and possessions of the U.S., and who, during the month prior to the parent's assignment abroad, were eligible for SSI benefits based on disability or blindness benefits. This provision will apply to benefits after March 1990.

939. SUPPLEMENTAL SECURITY INCOME PROGRAM; WAIVER OF SSI RULE FOR DEEMING TO CHILDREN THE INCOME AND RESOURCES OF THEIR PARENTS FOR CERTAIN DISABLED CHILDREN

Legal Authority: 42 USC 1382c(f)(2)

CFR Citation: 20 CFR 416.415; 20 CFR 416.1148; 20 CFR 416.1165; 20 CFR 416.1202

Legal Deadline: None

Abstract: These proposed regulations reflect the provisions of section 8010 of Pub. L. 101-239 which waive the SSI income and resource deeming rules (which deem the income and resources of a disabled child's parents to the child if the child is living at home) for severely disabled children who were eligible for SSI benefits while in a medical institution and who qualify for Medicaid under a State home care plan authorized under title XIX when deeming parental income and resources would make the disabled child ineligible for SSI benefits or eligible for a payment of less than the personal needs allowance (plus any applicable optional State supplementation payment). This was effective June 1, 1990.

Abstract: These proposed regulations require HHS to determine that an applicant for Social Security or SSI has applied for benefits (deemed filing date) when those individuals have been provided misinformation by an employee of SSA on the later of (1) the date the incorrect information was provided, or (2) the date the individual met all the requirements for entitlement. These proposed regulations apply to misinformation provided after 12/82 with respect to Social Security claims. With respect to SSI claims, the proposed regulations apply to misinformation furnished on or after the date of enactment of the Omnibus Budget Reconciliation Act of 1989 (OBRA), i.e., December 19, 1989, and to benefits for months after the date of enactment of OBRA.

Abstract: This proposed regulation implements the requirement that HHS, beginning not later than 10/1/90, provide individuals aged 25 or older, who have a social security number and have wages or net self-employment income, with a social security account statement upon request of the individual. PL 101-239, Sec 10308 also provides that by September 30, 1995, statements would be automatically provided to all such individuals who attain age 60 (but are not yet receiving benefits) before October 1, of the previous year and for whom HHS can determine a current address. Starting in October 1999, statements would be automatically provided on an annual basis to those under age 60 as well. (Retirement benefit estimates would not be required in the case of persons under age 50 although a general description of benefits available upon retirement would be required.) Regulations implementing these latter two provisions are to be issued at a later date.

Abstract: Sections 4.00 and 104.00 of Appendix 1 of the Disability regulations (404.1501 through 404.1599) describe cardiovascular impairments considered severe enough to prevent an individual from doing any gainful activity or, in the case of a child under age 18, age-appropriate activities. Because of the advances in medical technologies and practice in this area we are revising the criteria in the Listing of Impairments to bring these sections up to date. The Supplemental Security Income program incorporates by reference and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance program.

Abstract: This change permits the continued payment of disability benefits to persons who medically recover while participating in a vocational rehabilitation (VR) program, without regard to whether the person was expected at the onset of the VR program to medically recover before the scheduled completion date of the program and without regard to whether the person has any residual functional limitation. Abstract: Section 8 of Pub. L. 99-643 provides that effective for benefits payable for months after May 1986, an underpayment shall be paid to any surviving spouse of a deceased SSI recipient whether or not the spouse was eligible for SSI, if such spouse was living in the same household with the recipient at the time of death, or within the 6 months immediately preceding the month of death, or to the parent(s) of a deceased disabled or blind child who was an SSI recipient if the child was living with the parent(s) at the time of death or within the 6 months immediately preceding the month of death. These proposed regulations would also reflect a policy change that would continue the appeals process (versus automatic dismissal), at the Administrative Law Judge or Appeals Council level, for the survivors' entitlement to an underpayment if they meet certain conditions. The cost estimate for these provisions is estimated to be $2 million per year in program costs and less than $1 million and 30 workyears in administrative expenses.

Abstract: Under the current SSI rules, three different formulas are used to calculate the amount of income deemed to an eligible child from his or her ineligible parent(s) when they are living together. The formulas produce different results depending on the type of income (earned versus unearned) and the number of children in the household. This sometimes creates anomalies. The rule would resolve the anomalies by providing that one formula be used regardless of the type of parental income. The formula to be used is the formula now used when the parent(s) has both earned and unearned income.

Abstract: We are considering the development of a final rule to provide that we will no longer pay for consultative examinations when services are not rendered because the scheduled appointment was broken or otherwise not kept. Presently, the States decide whether to pay for these canceled examinations and such payments have already been abolished in 22 States. Significance: Agency Priority

Legal Authority: 42 USC 1302

CFR Citation: 20 CFR 416.1103; 20 CFR 416.1133

Abstract: It is our policy that money borrowed (a loan) is not income for SSI purposes and therefore has no effect on a person's SSI benefits. These proposed regulations will state that only cash transactions may be considered loans. These proposed regulations will also provide that the one-third reduction rule which applies when a person who lives in another's household and receives in-kind support and maintenance will not apply if the SSI recipient pays his or her pro rata share in cash and no later than the month under consideration. No additional costs or savings are anticipated.

Abstract: These regulations would reflect statutory changes that extend social security coverage to work situations not previously covered. These newly covered work situations include: (1) Inactive duty training in the uniformed services; (2) Certain agricultural labor situations; and (3) Work for a spouse or parent. Additionally, the year for reporting corporate directors' income has been changed, and Medicare coverage is provided to many previously uncovered State and local government employees. Also, a provision of PL 100-647 further revised our coverage provisions relating to agricultural wages.

Abstract: We are proposing to revise our rules on reducing the Social Security spouse's benefits of a person who is also receiving a Government pension based on noncovered employment. The Omnibus Budget Reconciliation Act of 1987 (PL 100-203, sec 9007) requires that a Federal Government employee who elects to be covered under Social Security after December 31, 1987 must work for at least 60 months after that date in order to avoid the reduction after he or she becomes entitled to Social Security spouse's benefits. That requirement is extended to the foreign service pension system by the Technical and Miscellaneous Revenue Act of 1988 (PL 100-647), which also provides that under certain circumstances the reduction does not apply to an individual who retires before his or her coverage election becomes effective.

Abstract: The proposed rules contain procedures for determining when a State agency has substantially failed to make disability determinations in accordance with applicable Federal law. If it is determined that a State agency has substantially failed to make disability determinations in a manner consistent with Federal regulations or other written guidelines, the Social Security Administration, in accordance with section 221 of the Social Security Act (42 USC 421), must assume the responsibility for making the disability determinations. The costs or savings likely to result from implementation of these regulations are not predictable.

Legal Authority: 42 USC 1302; 42 USC 1383

CFR Citation: 20 CFR 416.1201

Abstract: This proposed change would exclude from the definition of resources, in the Supplemental Security Income program, for one calendar month following the month of receipt, certain cash payments made to an ineligible spouse or parent for providing medical or social services to the eligible individual. Current rules exclude such amounts paid to the eligible individual for one calendar month following the month of receipt. This proposal would broaden the exclusion to include similar payments made to certain other individuals whose income and resources are deemed available to the SSI recipient.

Abstract: This regulation reflects the provisions of two sections in PL 100-647. The first provision requires the Social Security Administration to deny or terminate benefits if the beneficiary is deported (or ordered deported) because of certain actions performed while associated with the Nazi government of Germany or one of its allies. The second provision extends the current law treatment of self-employed workers who may claim an exemption from Social Security coverage if they are members of a religious faith that is opposed to participation in Social Security programs to their employees in cases where both the employee and the employer are members of a qualifying religious faith.

Abstract: These proposed amendments revise the medical evaluation criteria for mental disorders for the Social Security and Supplemental Security Income disability programs. The proposed revisions will reflect advances in medical treatment and in methods of evaluating certain mental impairments and will provide up-to-date medical criteria for use in the evaluation of disability claims based on mental disorders. (The present medical criteria used to evaluate disability claims based on mental disorders was extended to August 20, 1992, by a final regulation published on August 16, 1991.)

Abstract: We are issuing these rules to govern the Blood Donor Locator Service, which we will establish and conduct, as required by section 8008 of P.L. 100-647. Under these rules, we will furnish to participating States, at their request, the last known personal mailing address (residence or post office box) of blood donors whose blood donation shows that they are or may be infected with the human immunodeficiency virus which causes acquired immune deficiency syndrome, if the State or an authorized blood donation facility has been unable to locate the donors. If our records or those of the Internal Revenue Service contain an adequate personal mailing address for the donor, we will provide it to the State so that the State or the blood donation facility can inform the donor of the possible need for medical care and treatment. The law provides stringent safeguards to protect the confidentiality of the records that State and blood donation facilities establish when using the locator service.

985. SUPPLEMENTAL SECURITY INCOME PROGRAM; TECHNICAL CHANGES TO SUBPARTS K AND L

Legal Authority: PL 93-66, Sec 211; PL 98-369, Sec 2639; PL 101-239, Sec 10405

CFR Citation: 20 CFR 416.1103; 20 CFR 416.1124; 20 CFR 416.1142; 20 CFR 416.1150; 20 CFR 416.1170; 20 CFR Subpart K, Appendix; 20 CFR 416.1236; 20 CFR 416.1237

Legal Deadline: None

Abstract: These regulations make technical changes to the Supplemental Security Income regulations that include a statutory change to a title of a public law, adding a statutory change redesignating the Veterans Administration as the Department of Veterans Affairs, adding a reference heading, updating the appendix to Subpart K, and updating lists of statutory exclusions from resources. These technical changes update the regulations and improve referencing.

986. SUPPLEMENTAL SECURITY INCOME PROGRAM; EXCLUSION OF ACCRUED INCOME WITH RESPECT TO PURCHASE OF CERTAIN BURIAL SPACES FOR PURPOSES OF SSI ELIGIBILITY

Significance: Agency Priority

Legal Authority: PL 101-239, Sec 8013

CFR Citation: 20 CFR 416.1124; 20 CFR 416.1231

Legal Deadline: None

Abstract: These final regulations reflect a statutory provision that provides an SSI program exclusion from countable income of the interest accrued and left to accumulate on the value of an excluded burial space purchase agreement entered into by an individual or the individual's spouse; and excludes from resources the value of a burial space purchase agreement representing the purchase of a burial space and any interest accrued. These changes are effective April 1, 1990.

987. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAMS; INCLUSION OF CERTAIN DEFERRED COMPENSATION IN DETERMINATION OF WAGE-BASED ADJUSTMENTS

Legal Authority: 42 USC 405(a); 42 USC 412; 42 USC 413; 42 USC 414; 42 USC 416; 42 USC 417; 42 USC 423; 42 USC 1302

CFR Citation: 20 CFR 404.143; 20 CFR 404.211; 20 CFR 404.272; 20 CFR 404.1048

Legal Deadline: None

Abstract: This final regulation requires that an estimate of deferred compensation for determining the taxable earnings base be included in average wages for 1988 and 1989, so that the 1990 taxable earnings base would reflect the inclusion of deferred compensation in average total wages. Actual deferred compensation amounts would be used beginning with the year 1990 wages. With respect to benefit computations and other program amounts, actual deferred compensation amounts would be included beginning with 1990 wages, and would be reflected in benefit computations and other program amounts beginning in 1993.

Abstract: The Department of Health and Human Services proposes to exempt a new system of records, 09-37-0021, "Public Health Services Records Related to Inquiries and Investigations" from certain requirements of the Privacy Act. The purpose of this exemption is to protect records compiled in the course of an inquiry and/or investigation and to protect the identity of the confidential source of information. There are no known costs associated with the NPRM. The benefits will be that the investigative files will not be disclosed inappropriately and promises to withhold identities of individuals will be honored.

Significance: Regulatory Program

Legal Authority: PL 100-690

CFR Citation: 45 CFR 96

Legal Deadline: None

Abstract: Section 2027 of Public Law 100-690 amends Section 1916 of the PHS Act to require States to spend at least 55 percent of their mental health allotment under the Alcohol, Drug Abuse, and Mental Health Block Grant for FY 1991 for new mental health programs and services. The Secretary may grant a waiver to any State, under certain circumstances, including a State being in financial crises, and providing certain criteria are met by States prior to their requesting a waiver. Such a waiver would reduce the requirement to 35 percent in 1991 (increasing to 55 percent by 1994). This rule implements the statutory requirement that the Secretary promulgate standards for determinations of "financial crisis" and resolves such issues as: a) how to determine when a State is in a financial crisis; b) what information States must provide to assure that a waiver is needed to avoid disruption to existing and planned high priority services; c) how to determine the extent of relief to be granted for approved waivers; and d) imposing requirements that are cost effective.

Abstract: The proposed rule addresses three major problems of the current regulation by (1) substantially upgrading laboratory performance tests for certifying respirators; (2) adding quantitative face seal performance tests; and (3) replacing current certification tests that are design- or application-specific with tests that are performance-based. The first NPRM for revising 42 CFR Part 84 was published in the Federal Register on August 27, 1987 (52 FR 32402). In response to the many comments on the first proposal, NIOSH is in the process of developing a second NPRM.

Abstract: As a prerulemaking activity, FDA is developing guidance for manufacturers respecting how FDA would apply existing statutory requirements to the regulation of computer products (i.e., both hardware and software) when such products meet

the definition of a medical device under the act.

On September 25, 1987, FDA made available a draft policy guidance intended to clarify how FDA would apply existing statutory requirements to the regulation of such products to provide opportunity for public participation in this activity.

Upon analysis of the public comments on the complex issues pertaining to the regulation of computer products, the agency will decide whether any additional steps are necessary to clarify which computer products meet the definition of a medical device and what level of regulation, if any, is appropriate under the act.

Abstract: Based upon an evaluation of an action issues report, the agency has concluded that it will recommend that the Secretary propose revision of the existing regulations in a manner consistent with the current procedural regulations for human drugs where appropriate. The New Animal Drug Application (NADA) revisions would articulate general requirements in regulations containing performance standards and would complement them through detailed guidelines on, among other matters, appropriate ways of meeting requirements for submission of chemistry, pharmacology, and statistical data that would better address the intricate scientific issues involved. A separate proposed rule would provide for reporting requirements for marketed animal drugs.

CFR Citation: 21 CFR 101

Legal Deadline: NPRM, Statutory, November 8, 1991. Final, Statutory, November 8, 1992.
If final regulations are not issued by 11/08/92, the proposed regulations shall be considered the final regulations.

Abstract: FDA is preparing proposed regulations to implement the provisions of the Nutrition Labeling and Education Act (Pub. L. 101-535) enacted on November 8, 1990, with respect to health messages on food labeling. This will be the third such proposal on this subject. In the Federal Register of February 13, 1990, the Food and Drug Administration (FDA) issued a proposal to amend the food labeling regulations to provide for the use of health messages on food labeling. The purpose of this reproposal was to establish procedures for permitting valid and reliable consumer information on food labels about the value that ingestion (or reduced ingestion) of a dietary component, as part of a total dietary pattern, may have in either lowering the risk, or forestalling the premature onset, of a particular chronic disease condition. In light of this reproposal, FDA withdrew the August 4, 1987 (52 FR 28843) proposal on health messages on food labels. (cont)

Additional Information: ABSTRACT CONT: FDA also outlined how it is likely to enforce its regulations that bear on health messages during the period that it is receiving and considering comments on the reproposal. The agency also provided information on the proposed functions and responsibilities of the Public Health Service Committee on Health Messages; on the agency's proposed plan to utilize health messages as a consumer education tool; and on the agency's proposed plan to prepare a consumer guide to food labeling.

FDA recognizes that some of the provisions of the reproposed rule on health messages in the Federal Register of February 13, 1990 (55 FR 5176), may have to be amended to be consistent with the Nutrition Labeling and Education Act of 1990. This new legislation prohibits manufacturers from making explicit health-related claims on food labels unless the claim meets the requirements of regulations promulgated by the agency.

Legal Deadline: NPRM, Statutory, November 8, 1991. Final, Statutory, November 8, 1992.

Abstract: FDA is preparing proposed regulations to implement the provisions of the Nutrition Labeling and Education Act (Pub. L. 101-535) enacted on November 8, 1990, with respect to the use of descriptors concerning the fat, fatty acid, and cholesterol content of food. This will be the third such proposal on this subject. In the Federal Register of November 25, 1986, the agency published a proposed rule that would provide a mechanism to allow relevant, truthful, and nonmisleading claims about cholesterol and fatty acid content on food product labeling for consumers. A tentative final rule was published in the Federal Register on July 19, 1990. The agency intends to repropose the tentative final rule to ensure that it is consistent with the Nutrition Labeling and Education Act of 1990. The reproposal would permit the use of meaningful descriptors of cholesterol and fat content of foods (e.g., "cholesterol-free," "low cholesterol," "reduced cholesterol," "nonfat," "lowfat," and "reduced fat").

1030. DRUG EXPORTS

Legal Authority: PL 99-660 Drug Export Amendments Act of 1986

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The Drug Export Amendments Act of 1986 authorizes the export for commercial marketing abroad of veterinary and human drugs not approved for marketing in the United States. Under previous law, the export of new human and animal drugs for marketing was confined to drugs that were approved by FDA for domestic use. The law establishes three separate pathways for the export of unapproved products. Under each pathway, FDA approval is required before export is permitted. As a prerulemaking activity, FDA developed guidance materials for manufacturers instructing them as to what information must be submitted to the agency to obtain approval for the export of unapproved products. The guidance materials also identify FDA sources of information on agency practices and policies concerning the implementation of the Drug Export Amendments Act of 1986. The agency now is developing regulations that are necessary for the efficient implementation of the amendments.

Legal Deadline: None

Abstract: The agency currently requires that all blood and blood components intended for the manufacture of any product be tested for antibody to human immunodeficiency virus (HIV). In instances when the blood of a donor is found to contain antibodies to HIV, some blood centers have initiated a program of voluntary "look-back" to notify consignees of blood and blood components obtained from the donor's prior donations. Consignees may withdraw or destroy such blood and blood products, and may trace and notify recipients. A well-conducted look-back program can provide an effective mechanism for identifying, testing, and counseling transfusion recipients who are at increased risk of HIV infection--those who receive blood from a donor later found to be infected with HIV. The agency is considering a proposal to establish a mandatory look-back program. The proposal would require blood collection facilities to develop a procedure to notify consignees promptly whenever a blood donor who has previously donated blood or source plasma is found to be positive for the antibody to HIV or exhibits the signs or symptoms of AIDS; and to keep appropriate records (cont)

If final regulations are not issued by 11/08/92, the proposed regulations shall be considered the final regulations.

Abstract: The agency issued an advance notice of proposed rulemaking on August 8, 1989, requesting public comment on possible changes in the labeling of food products regulated by FDA. The agency sought public comment on five areas: 1) whether to revise the requirements for nutrition labeling; 2) whether to change the nutrition label format on food packages; 3) whether to revise the requirements for ingredient labeling; (4) whether to formally define commonly used food descriptions and/or reconsider the use of standards of identity for foods; and (5) how to reasonably permit the use of messages on food labels that link food components to the prevention of disease. The agency also held four public hearings (see September 20, 1989; 54 FR 38806) to gather first-hand the views of consumers, industry, health professionals, and State and local government officials about labeling revisions. The agency issued three proposed regulations on July 19, 1990, that addressed nutrition labeling. On November 8, 1990, the President signed into law the Nutrition Labeling and Education Act of 1990. This Act requires that most foods bear nutrition labeling. The Act requires that necessary (cont)

1035. REVOCATION OF THE PERMANENT LISTINGS FOR USE OF FD&C RED NO. 3 IN FOOD AND INGESTED DRUGS

Significance: Agency Priority

Legal Authority: 21 USC 371 Federal Food, Drug and Cosmetic Act; 21 USC 376(b) to 376(d) Federal Food, Drug and Cosmetic Act

CFR Citation: 21 CFR 74.303; 21 CFR 74.1303

Legal Deadline: None

Abstract: On February 1, 1990, FDA published two documents: the first terminated the provisional listings of FD&C Red No. 3 for use in cosmetics and externally applied drugs and all uses of the lakes of FD&C Red No. 3, and the second announced the denial of the petition by the Cosmetic Toiletry and Fragrance Association (CTFA) for permanent listing of FD&C Red No. 3 for use in cosmetics and externally applied drugs (55 FR 3516 and 3520). These actions were taken because laboratory tests showed that the color additive caused a carcinogenic response when administered in the diet of animals. The uses of FD&C Red No. 3 in food and ingested drugs were permanently listed in 1969 on the basis of studies deemed appropriate and adequate under the testing standards at that time. In 1977, FDA required all color additives remaining on the provisional list to undergo new studies that would meet more stringent toxicological-testing standards (42 FR 6992). The cosmetic and external drug uses of FD&C Red No. 3 were provisionally listed at that time, so FD&C Red No. 3 was subject to the additional (cont)

Additional Information: ABSTRACT CONT:testing requirement to support the provisional listings. As discussed above the new studies implicated the color additive as an animal carcinogen, causing the agency to terminate the provisionally listed uses of FD&C Red No. 3 and to deny CTFA's petition. With the conclusion that FD&C Red No. 3 caused a carcinogenic response in animals, the agency believes that it must take action to revoke the permanently listed uses of the color additive under 21 CFR 74.303 and 74.1303. This action requires publication of a notice of proposed rulemaking (NPRM), which invites public comment, analysis of the comments to the NPRM, and publication of a final order with provision for objections.

Significance: Regulatory Program

CFR Citation: 21 CFR 16.1; 21 CFR 1240.63; 21 CFR 1240.64

Legal Deadline: None

Abstract: The Food and Drug Administration is considering a proposal to amend its regulations for the control of communicable diseases to include measures to control the spread of the communicable human disease Salmonellosis caused by Salmonella enteritidis in shell eggs. Among other things, the agency is considering a requirement that all shell eggs in interstate commerce be from poultry houses that have been tested and found by the State of origin to be free of S. enteritidis. The agency is also considering a requirement for the refrigeration of eggs at specified temperatures immediately after packaging in retail cartons and that these retail cartons be labeled "Refrigerate" on the principal display panel. The proposal would compliment the United States Department of Agriculture program to control the spread of S. enteritidis in the egg-production flocks.

1037. MEDICAL DEVICE REPORTING

Significance: Regulatory Program

Legal Authority: PL 101-629 Safe Medical Devices Act of 1990

CFR Citation: 21 CFR 803

Legal Deadline: Other, Statutory, November 28, 1991.

Abstract: The Safe Medical Devices Act of 1990 requires that certain health care facilities report to FDA and/or the manufacturers any death or serious injury of a patient. The Medical Device Reporting regulation must also be amended to require distributors of medical devices to submit reports of deaths or serious injuries to the manufacturer of the device. The Act requires that device user facilities submit to FDA semi-annual summary reports and manufacturers, importers or distributors certify annually the number of medical device reports filed during the year. In addition to the requirements of the new legislation, studies of the past functioning of medical device reporting operations indicate the need for revision of the regulation to improve performance. Comprehensive reporting of problems permits device manufacturers and FDA to take action when required to better protect the public from hazardous devices.

1038. PRESCRIPTION DRUG MARKETING ACT OF 1987; POLICY INFORMATION, GUIDANCE, AND CLARIFICATIONS

Legal Authority: PL 100-293 Prescription Drug Marketing Act of 1987

CFR Citation: 21 CFR 203

Legal Deadline: None

Abstract: The Prescription Drug Marketing Act of 1987 (PDMA) amended the Federal Food, Drug, and Cosmetic Act to: (1) require State licensing of Wholesale distributors of prescription human drugs under Federal guidelines including minimum standards for storage, handling, and recordkeeping; (2) ban the reimportation of prescription human drugs produced in the United States, except when reimported by the manufacturer for emergency use; (3) ban the sale, trade, or purchase of drug samples; (4) ban trafficking in or counterfeiting of drug coupons; (5) mandate storage, handling, and recordkeeping requirements for drug samples; (6) require licensed practitioners to request drug samples in writing; (7) prohibit, with certain exceptions, the resale of prescription human drugs purchased by hospitals or health care facilities; and (8) set forth criminal and civil penalties for violations of these provisions. In the FEDERAL REGISTER of September 14, 1990 (55 FR 38012), FDA issued a final rule setting forth Federal guidelines for State licensing of wholesale drug distributors. 1039. USE OF ASEPTIC PROCESSING AND TERMINAL STERILIZATION IN THE PREPARATION OF STERILE PHARMACEUTICALS FOR HUMAN AND VETERINARY USE

Legal Authority: 21 USC 351 Federal Food, Drug, and Cosmetic Act; 21 USC 355 Federal Food, Drug, and Cosmetic Act; 21 USC 360b Federal Food, Drug, and Cosmetic Act; 21 USC 371(a) Federal Food, Drug, and Cosmetic Act

CFR Citation: 21 CFR 314; 21 CFR 514

Legal Deadline: None

Abstract: Sterile drug products may be prepared by two principal processes - aseptic processing and terminal sterilization. The agency has concluded that terminal sterilization, when

properly performed, results in drugs products with a higher statistical probability of sterility than those drug products that are aseptically processed. As a matter of agency practice, FDA recently began asking applicants who are seeking marketing approval of sterile drug products for human use to use terminal sterilization whenever feasible. The proposed rule codifies the agency's policy on the preparation of sterile drug products.

Abstract: The Safe Medical Devices Act of 1990, enacted November 28, 1990, was intended to assure devices entering the market are safe and effective. FDA learns quickly of device problems, and FDA has authority to remove defective devices from the market. The act directs or authorizes FDA to develop the following regulations: Medical Device Tracking--This regulation will require manufacturers of certain devices to track those devices to the ultimate user. Classification of Transitional Devices--FDA first will issue a notice to require submission of adverse safety and effectiveness data on transitional devices. FDA will then propose to keep each device in class III, or reclassify it in class I or class II. Good Manufacturing Practices for Medical Devices--FDA will propose to include preproduction design validation in the existing CGMP regulations. Exemption of Humanitarian Devices--The proposed rule will give procedures for submission and review of applications for certain premarket review exemptions for humanitarian devices. Abstract: The Food and Drug Administration is considering incorporating additional Hazard Analysis Critical Control Point (HACCP) principles into its proposal of mandatory seafood inspections. HACCP involves the identification and monitoring of "critical control points" in a processing or other operation the failure of which can render a product adulterated. HACCP has been strongly endorsed by the National Academy of Sciences for incorporation by the seafood industry.

CFR Citation: 21 CFR 211

Legal Deadline: None

Abstract: In accordance with the Regulatory Flexibility Act, FDA conducted a retrospective review of its CGMP regulations for finished pharmaceuticals to determine the need for any changes in the regulations to eliminate unnecessary requirements and to allow flexibility without undermining protection of the public health. FDA identified several areas where changes in the regulations would be justified and on February 12, 1991 (56 FR 5671) the agency proposed to amend certain provisions of those regulations. This final rule, thus, amends the CGMP regulations to eliminate unnecessary regulatory burdens without affecting those CGMP requirements that are necessary to assure drug product quality under the Federal Food, Drug, and Cosmetic Act.

Abstract: FDA is responsible for issuing regulatory standards for blood and blood components to ensure the continued safety, purity, and potency of such products. Since 1975, CGMP regulations have been in effect that provide standards for facilities, personnel, and manufacturing procedures for blood and blood components. In accordance with the Regulatory Flexibility Act, FDA has conducted a retrospective review of its CGMP regulations for blood and blood components, to determine how the regulations may be revised to relieve regulatory burdens and increase flexibility without adversely affecting the public health. Part of the retrospective review of the CGMP will be completed through FDA's implementation of an independent and separate efficacy review of blood and blood derivatives which responds to recommendations of a Committee of scientific experts--the Panel on Review of Blood and Blood Derivatives. The remainder of the retrospective review program regarding the CGMP will be implemented through FDA's issuance of a proposed rule to revise the CGMP regulations.

Abstract: Acceptable evidence and information exists to show that a subgroup of asthmatics is at moderate to severe risk for a severe reaction upon exposure to sulfites. The agency's primary tool for handling a situation where population subgroups may be at increased risk from a food ingredient that is safe for most people is to use labeling to inform those persons who need or want to avoid the ingredient. The agency issued a final rule, effective January 7, 1987, that requires that when a sulfiting agent is present in a finished food at 10 parts per million or greater, the sulfiting agent must be declared on the label. In addition, FDA issued a final rule, effective August 8, 1986, prohibiting the use of sulfiting agents on raw fruits and vegetables intended to be served or sold raw to consumers (e.g., in salad bars). On December 10, 1987, FDA announced its tentative conclusion that there is no longer a basis to find that the use of sulfiting agents on "fresh" potatoes served or sold unpackaged to consumers is GRAS. On December 19, 1988, FDA proposed to affirm, with specific limitations, that certain other uses of sulfiting agents are GRAS (cont)

On March 15, 1990 (55 FR 9826), FDA issued a final rule prohibiting the use of sulfiting agents on "fresh" potatoes (55 FR 9826) and requested data and information concerning the use of sulfiting agents on frozen potatoes (55 FR 9834).

On August 3, 1990, the United States District Court for the Middle District of Pennsylvania declared the final rule concerning fresh potatoes to be "null and void" based on perceived procedural defects in the rulemaking proceeding. The Government appealed

the district court's decision. On May 22, 1991, the U.S. Court of Appeals for the Third Circuit en banc affirmed, by an equally divided vote and without opinion, the decision of the district court invalidating on procedural grounds FDA's final rule revoking the GRAS status of the use of sulfiting agents on fresh potatoes.

FDA's reproposed rule will include the GRAS status of sulfiting agents on both fresh and frozen potatoes.

Significance: Agency Priority

Legal Authority: 21 USC 351 Federal Food, Drug, and Cosmetic Act; 21 USC 352 Federal Food, Drug, and Cosmetic Act; 21 USC 355 Federal Food, Drug, and Cosmetic Act; 21 USC 371 Federal Food, Drug, and Cosmetic Act; 21 USC 374 Federal Food, Drug, and Cosmetic Act; 42 USC 262 Public Health Service Act

CFR Citation: 21 CFR 211; 21 CFR 310; 21 CFR 600

Legal Deadline: None

Abstract: This regulatory action is being taken to improve the safety of marketed drug products by requiring manufacturers to report to the Food and Drug Administration (FDA) serious adverse experiences associated with licensed biological products.

The purpose of the regulatory action is to require prompt reporting to the agency of serious adverse experiences for all licensed biological products.

The regulatory action being considered by FDA would be consistent with the agency's requirements regarding adverse experiences reporting for approved new drugs under 21 CFR 314.80 (see February 22, 1985; 50 FR 7452). These biologic regulations would require that all "serious and unexpected" adverse experiences and any "significant increase in frequency" of a serious expected event be reported to the agency within 15 working days. Known and nonserious adverse biological product experiences would be required to be reported to the agency at quarterly or annual intervals, depending on the length of marketing experience with the product. 1047. PROPOSED RULE TO IMPLEMENT THE ORPHAN DRUG AMENDMENTS TO THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

Significance: Regulatory Program

Legal Authority: PL 97-414 Orphan Drug Act; PL 100-290

CFR Citation: 21 CFR 316

Legal Deadline: None

Abstract: The Orphan Drug Act is intended to provide incentives for drug companies to invest in the development of drugs for rare diseases or conditions. Certain incentives are necessary because "orphan drugs" are unlikely to be profitable. The agency is required to carry out provisions of the Orphan Drug Act, e.g., by designating a drug as an orphan drug, by providing protocol assistance, and by granting seven years of exclusive approval status. The proposed rule would establish procedures whereby drug sponsors can take advantage of the incentives to encourage development of orphan drugs. Several provisions of the Orphan Drug Act call for promulgation of regulations to provide the framework and guidance for implementing a program of incentives to drug sponsors and manufacturers.

1048. ABBREVIATED NEW DRUG APPLICATION REGULATIONS (TITLE I OF THE "DRUG PRICE COMPETITION AND PATENT TERM RESTORATION ACT OF 1984")

Significance: Agency Priority

Legal Authority: PL 98-417, (Title I)

CFR Citation: 21 CFR 10; 21 CFR 310; 21 CFR 314; 21 CFR 320

Legal Deadline: None

Abstract: Until the passage of Title I of the "Drug Price Competition and Patent Term Restoration Act of 1984," abbreviated new drug application (ANDA) procedures were only available for generic products equivalent to pioneer drugs approved before 1962. Title I opened up the ANDA policy to generic copies of products approved after 1962. On July 10, 1989 (54 FR 28872), FDA proposed regulations to implement Title I. The proposal provides for the submission of abbreviated new drug applications for generic versions of drug products first approved after 1962. These new provisions will benefit consumers by making generic drug products available more quickly.

The agency is reviewing the public comments submitted in response to the proposed rule and preparing the final rule in two segments. The first segment will establish requirements for format and content of an ANDA, suitability petitions, and certain administrative actions. The second segment will

establish requirements for patient certification and exclusivity.

1050. FRUIT AND VEGETABLE JUICE PERCENTAGE LABELING

Significance: Agency Priority

Legal Authority: 21 USC 321(n) Federal Food, Drug and Cosmetic Act; 21 USC 343 Federal Food, Drug and Cosmetic Act; 21 USC 371(a) Federal Food, and Cosmetic Act; PL 101-535 Nutrition Labeling and Education Act of 1990

CFR Citation: 21 CFR 102.33

Legal Deadline: None
The statutory requirements take effect May 8, 1993.

Abstract: FDA is preparing a final rule to implement the provisions of the Nutrition Labeling and Education Act of 1990 (Pub. L. 101-535) enacted on November 8, 1990, with respect to the declaration on the label of the total percent of the fruit or vegetable juice in a beverage that contains fruit or vegetable juice. This final rule will complete the agency's action regarding percent juice labeling begun more than ten years ago. In 1980, FDA published a regulation (21 CFR 102.33) to require the declaration of the percent of juice contained in all diluted juice beverages. This regulation was published to extend the percent juice declaration required for diluted orange juice beverages (21 CFR 102.32) to all other diluted juice beverages. These two regulations were developed to provide consumers with information as to the various amounts of juice in the diluted juice beverages offered for sale. The regulation regarding percentage juice declaration for diluted orange juice beverages had been in effect for several years and functioning well before the regulation addressing all other diluted juice beverages was published. Additional Information: ABSTRACT CONT: With publication of 21 CFR 102.33, a controversy developed over the applicability of the regulation to diluted cranberry juice beverages. The controversy centered around the fact that cranberry juice is a high acid juice and is not normally consumed as a single strength juice. Due to this unresolved controversy, 21 CFR 102.33 has not been made effective. In the Federal Register of July 16, 1987 (52 FR 26690), the agency proposed to revoke the common or usual name regulation (21 CFR 102.33) for diluted fruit or vegetable juice beverages other than diluted orange juice beverages. The

HHS—PHS—FDA

Final Rule Stage

Nutrition Labeling and Education Act of 1990 requires all beverages containing vegetable or fruit juices to include on the label a statement of the total percentage of the vegetable or fruit juice contained in the beverage. A reproposed rule has been issued to conform the regulations to the new legislation. The 1991 Amendments (Pub. L. 102-108) to the Nutrition Labeling and Education Act of 1990 were enacted on August 17, 1991. Under these amendments, the requirement for percent of juice labeling is extended until May 8, 1993.

Abstract: FDA has reviewed several potential sources of dietary lead and prioritized those it considers to be controllable. On June 1, 1989 (54 FR 23485), FDA proposed to establish a regulatory limit for ceramic food-service pitchers, excluding creamers, that would limit the leaching of lead from the glazes and decorations on the food-contact surface of these pitchers to no more than 0.1 microgram per milliliter (ug/mL) of test solution. FDA also proposed to provide that decorative ceramicware that appears to be suitable for food use will be deemed to be for food use unless it bears a conspicuous, permanent label statement molded or fired onto the ceramic piece that states that the piece is not for food use, or a hole is bored through the possible food-contact surface of the piece. FDA is reviewing the comments it received on the proposed regulatory limit and will determine, based on the comments, the most appropriate final action.

Abstract: The Food and Drug Administration and the National Institute on Drug Abuse have proposed to revise the conditions for the use of methadone in the maintenance treatment of narcotic addicts. The proposal would allow programs to provide minimum service (interim) maintenance treatment to patients awaiting placement in comprehensive maintenance treatment and require programs to provide counseling on avoidance of human immunodeficiency virus (HIV) transmission. These requirements are being considered in response to the HIV epidemic and are intended to allow more narcotic addicts into treatment more quickly, thereby decreasing the incidence of intravenous drug abuse and the transmission of HIV. Comments on the proposal revealed a large number of differing opinions on both the desirability of adopting interim maintenance standards and on a number of related issues. Because it was necessary to improve the administrative record before making a decision regarding any final action based on the proposal, FDA and NIDA held a public hearing on February 28, 1990, to solicit additional information. After careful review of the

administrative record, including information received (cont)

Abstract: In the Federal Register of October 21, 1988 (53 FR 41561), FDA issued an interim rule effective upon date of publication, with opportunity for public comment, that set forth procedures designed to speed the availability of new therapies to desperately ill patients, while preserving appropriate guarantees for safety and effectiveness. These procedures are intended to facilitate the development, evaluation, and marketing of such products, especially where no satisfactory alternative therapies exist. These procedures reflect the recognition that physicians and patients are generally willing to accept greater risks or side effects from products that treat life-threatening and severely-debilitating illness. These procedures also reflect the recognition that the benefits of the drug need to be evaluated in light of the severity of the disease being treated. The procedures apply to life-threatening or severely-debilitating illnesses. The agency is reviewing the public comments submitted in response to the interim rule and preparing a Federal Register document that will respond to these comments. The (cont)

Abstract: FDA has proposed to amend its regulations governing investigational new drug (IND) applications to include additional grounds for placing an investigation on "clinical hold" and for terminating an IND. Under the amendments, FDA may require a sponsor to cease distributing an experimental drug in an open, nonconcurrently controlled investigation if any of several specified conditions exist. These amendments will help to implement a proposed PHS policy on expanded availability of INDs through a parallel track mechanism for people with AIDS or HIV-related disease.

These include extension of the program authorization, addition of capital construction authority, and changes regarding program income and services. PL 99-280 requires that the Secretary consult with the Chief Executive Officer and local officials of a State in publishing Medically Underserved Population designation criteria and in designating or de-designating Medically Underserved Populations. The amendment also requires the Secretary to consult with State organizations representing a majority of Community Health Centers in the State. The most recent amendment reauthorizes the program through fiscal year 1994 and requires CHCs to provide multilingual personnel (translation services) in cases where a substantial number of their patients are of limited English-speaking ability.

Abstract: Section 1138 of the Social Security Act requires Medicare and Medicaid participating hospitals that perform organ transplants to be members of and abide by the rules and requirements of the Organ Procurement and Transplantation Network (OPTN) as established by section 372 of the Public Health Service Act. Section 1138 also requires that for organ procurement costs attributable to payments to an Organ Procurement Organization (OPO) to be paid by Medicare or Medicaid, the OPO must be a member of and abide by the rules and requirements of the OPTN. No other entity (for example, a histocompatibility laboratory) is required to be a member of or abide by the rules of the OPTN under the provisions of the statute. It is the Department's position that no rule, requirement, policy, or other issuance of the OPTN will be considered to be a "rule or requirement" of the Network within the meaning of section 1138 unless the Secretary has formally approved that rule. The OPTN is currently in operation and these rules will impose no further cost or provide any benefit other than that which now exists.

Abstract: This rule amends existing regulations governing the HEAL program to establish performance standards against which school, lender, and holder default rates would be measured. These standards would provide schools, lenders, and holders a greater incentive to work to maintain low HEAL default rates and, thus, improve the long-term solvency of the Student Loan Insurance Fund.

Abstract: The National Vaccine Injury Compensation program, administered by the Secretary, and governed by Subtitle 2 of Title XXI of the Public Health Service Act, provides that a proceeding for compensation of a vaccine-related injury or death shall be initiated by service upon the Secretary and the filing of a petition with the United States Claims Court. It is the purpose of this final rule to set out the amount to be deducted from the award of compensation which would reflect the average cost of a health insurance policy.

1074. GRANTS FOR HOSPITAL CONSTRUCTION AND MODERNIZATION; FEDERAL RIGHT OF RECOVERY AND WAIVER OF RECOVERY

Legal Authority: 42 USC 291i; 42 USC 300s-1a

CFR Citation: 42 CFR 124.708

Legal Deadline: None

Abstract: The regulations at 42 CFR Part 124 Subpart H provide for recovery of funds by the United States when a health care facility that was constructed with the aid of a grant under Title VI or Title XVI of the Public Health Service Act is, within 20 years, sold or transferred to an entity that would not have been qualified to receive a grant. The regulations also provide for recovery where, within the same 20-year period, an assisted facility ceases to be a health care facility to which a grant could have been made. The regulations authorized the Secretary to waive the recovery rights of the United States if the Secretary determines that there is good cause for waiving such rights with respect to a facility. (Sec. 124.708.)

The Department proposes to amend this section to include, in determining good cause for a waiver, instances where a facility has been acquired from an agency of the United States. No cost will be incurred as a result of this regulation.

1075. ● NATIONAL HEALTH SERVICE CORPS LOAN REPAYMENT PROGRAM

Legal Authority: PL 100-177; 42 USC 254o

CFR Citation: 42 CFR 62.25(a)

Legal Deadline: None

Abstract: Abstract LRP -- This amendment revises Section 62.25(a) of the interim rule for the National Health Service Corps Loan Repayment Program (LRP) as published April 3, 1989. The LRP authorizes the Secretary to repay participant's health professions educational loans in exchange for health services provided in a federally designated health professions shortage area for a certain period of time. Loan repayments by the Secretary in advance of participant's service are limited to one month or less. The amendment removes the provision which limits the Secretary's payment to one month in advance of services since the restrictive payment schedule has had an adverse effect on the successful implementation of the LRP. Deleting the payment limitation permits the program lump-sum payments near the beginning of a participant's service thereby increasing the attractiveness of the LRP. The other subparts of the interim rule will be revised to reflect the National Health Service Corps Revitalization Amendments of 1990, and will be published as an NPRM (RIN: 0905-AC65) in the near future. These amendments do not address the payment schedule issue.

Legal Authority: PL 100-177; 42 USC 254o

CFR Citation: 42 CFR 62.73

Legal Deadline: None

Abstract: This amendment revises and makes final the interim rule published on April 3, 1989, for the National Health Service Corps Special Repayment Program established by Pub. L. 100-177. It provided a time-limited opportunity for persons who, as of November 1, 1987, were in default of their service obligations, to repay these obligations through service or through a combination of service and monetary payment. The regulation establishes policy for providing credit for partial service and various administrative and management procedures. Modifications have been made to conform the regulation more closely to the statute and two errors have been corrected. The other subparts of the interim rule are being revised to reflect National Health Service Corps Revitalization Amendments of 1990, and will be published as an NPRM under RIN: 0905-AC65.

Abstract: Public Law 93-638 passed in 1975, requires the IHS to turn over administrative responsibility to tribes so requesting, using the mechanism of contracting. Public Law 93-638 also authorizes the IHS to make grants to tribe(s) for the planning, development, and/or operations of health programs. Public Law 100-472, enacted October 5, 1988, significantly expands the scope of programs covered beyond those administered by IHS. This Act further provided that all contracting requirements be contained in regulations promulgated in final within ten months of enactment. The Law provides for tribal consultation and participation in the development of the regulations.

Procurement: This is a procurement-related action for which there is a statutory requirement. There is a paperwork burden associated with this action.

Additional Information: 1. The Act (P.L. 100-472) provides that except for construction contracts, the Office of Federal Procurement Policy Act and Federal Acquisition Regulations shall not apply to self-determination contracts. Therefore, implementing regulations for the Indian Self-Determination Act amendments will include a subpart on construction contracts, which, unlike other self-determination awards will be made subject to certain procurement rules (e.g., FARS, HSARS, FSARS). 2. There is a statutory requirement to implement P.L. 93-638 regulations. 3. There is a paperwork burden associated with the action. It will be included with the overall clearance package.

Abstract: This NPRM proposes to revise the regulations under 42 CFR Part 67 Subpart A governing grants for health services research made by the former National Center for Health Services Research and Health Care Technology Assessment (NCHSR). Public Law 101-239, enacted on December 19, 1989, established the Agency for Health Care Policy and Research, replacing the NCHSR, and provided the new agency with a much expanded role in health services research. The NPRM will incorporate applicable provisions of the new law.

Abstract: This proposed rule would implement section 9401 of Pub.L. 99-272, which provides that, under Medicare, a physician must request from the Peer Review Organization (PRO) preadmission review for certain surgical procedures. Under section 9401, if the PRO determines that the procedure is not appropriate and medically necessary, the PRO will deny payment under Medicare. If the PRO cannot determine whether a surgical procedure is medically necessary and appropriate, the beneficiary would obtain an opinion from a second physician, or where the opinion of the second physician differs from the first physician, the beneficiary may obtain an opinion from a third physician. In addition, as required by section 4096(b) of Pub.L. 100-203, if an assigned claim by a physician or supplier or any claim by a provider is denied because the services furnished are not reasonable and necessary or constitute custodial care and the physician, suppler or provider, but not the beneficiary, knew, or reasonably could be expected to know, that the services were not covered by Medicare, (cont)

Abstract: This rule would revise the method Medicare uses to determine payment for the costs of malpractice insurance incurred by a hospital. A hospital would receive payment for its malpractice insurance costs based on the utilization formula adopted by the Secretary at the beginning of the Medicare program. That is, malpractice insurance costs will be included in the general and administrative cost center, along with other provider overhead costs, to be apportioned to the Medicare program based on the hospital's Medicare patient utilization.

Abstract: This rule proposes to establish optional prospective payment rates for routine services furnished by certain skilled nursing facilities. The prospective rate would be on a per diem basis and would include payment for the cost of furnishing general inpatient routine services and associated capital-related costs. Ancillary services will be paid on the basis of reasonable cost. This rule would propose instructions for determining eligibility for payment under this system, and the methodology for calculating the prospective payment rates. Freestanding SNFs electing to be

Abstract: This proposed rule would amend the Medicaid regulations to incorporate changes relating to Medicaid eligibility groups and coverage of services made by the Medicare Catastrophic Coverage Act of 1988 (PL 100-360), the Omnibus Budget Reconciliation Acts of 1990, 1989, 1987, and 1986, (PL 101-508, PL 101-239, PL 100-203 and PL 99-509), and the Homeless Eligibility Clarification Act of the Anti-Drug Abuse Act of 1986 (PL 99-570). This rule would add eligibility groups of pregnant women, infants and children, and aged and disabled individuals with incomes up to specified percentage of the Federal poverty line; clarify eligibility of homeless individuals; and add provisions for the presumptive eligibility period for pregnant women who, based on preliminary information, appear to meet income requirements under Medicaid.

Abstract: These regulations would conform the Medicaid regulations to the new section 1917(c) of the Social Security Act, which was entirely revised by section 303(b) of the Medicare Catastrophic Coverage Act of 1988 (Pub. L. 100-360) as amended by section 608(d)(16)(B) of the Family Support Act (Pub. L. 100-485) and section 6411(e)(1) of OBRA '89 (Pub. L. 101-239). Section 1917(c) now requires that State Medicaid agencies provide individuals who are receiving nursing facility services or receiving home and community based services with a period of ineligibility for Medicaid coverage of those services for up to 30 months if these individuals or their spouses made transfers of assets for less than fair market value during a prohibited period. The period of ineligibility applies if the individual or spouse made a transfer of assets for less than fair market value at any time during or after the 30 month period immediately before (1) the date the individual became institutionalized, if he or she was entitled to Medicaid on that date, or (2) the date he or she applied for Medicaid while institutionalized. Abstract: These proposed regulations would establish home health aide supervision and duty requirements applicable to all home health agencies (HHAs) and hospices that provide home health aide services under the Medicare program. In addition, these regulations would codify longstanding policies concerning the limitations and exclusions applicable to home health services covered under the Medicare program. The proposed rule would also clarify policies concerning exclusions for drugs and biological and prosthetic devices.

Abstract: This rule would amend or establish regulations relating to appeal

rights and procedures for Medicare beneficiaries who are enrolled in health maintenance organizations (HMOs), competitive medical plans (CMPs), and health care prepayment plans (HCPPs). Specifically, the proposed rule would extend to HMO and CMP members the right to request review by a PRO of early hospital discharges; impose a 60-day limit for HMOS and CMPs to process requests by beneficiaries for reconsideration of decisions on denied services or claims; and require HCPPs to establish appeal procedures for enrollees who are Medicare beneficiaries. These changes are aimed at improving efficiency and at providing beneficiaries equitable appeal rights, regardless of their enrollment status.

Abstract: This proposed rule would make the requirements for physician certification and development of a plan of care general State plan requirements.

States would no longer be required to make quarterly showings that they had determined compliance with those requirements or with utilization review. A quarterly demonstration to the Secretary of an effective program of medical review as demonstrated by a satisfactory utilization control program would be limited to Inspections of Care (IOCs) in participating Intermediate Care Facilities/Mentally Retarded (ICFs/MR) and mental hospitals. The IOC team would be required, as part of its review, to ensure compliance with State plan requirements regarding certifications, recertifications, plans of care, and utilization reviews. The team would also be required to ensure compliance with admission review requirements. This rule will establish review criteria specifically for ICFs/MR and mental hospitals that ensure essential client protections and focus on the provision of active treatment. This rule will also clarify utilization control requirements included in 42 CFR Part 456, Subpart S.

Abstract: These rules would propose to require States to include in their State plans payment of Medicare cost-sharing for low income Medicare beneficiaries, Qualified Medicare Beneficiaries (QMB) and Qualified Disabled and Working Individuals (QDWI). The territories have the option to do the same. We would define cost-sharing, specify criteria for determining QMB status, propose requirements and options for payment amounts and limitations, and provide for Federal financial participation in State payments for Medicare cost-sharing on behalf of QMBs. For QDWIs Federal financial participation would be limited to Medicare, Part A premium. The changes would implement provisions of the Medicare Catastrophic Coverage Act of 1988 as modified by the Family Support Act of 1988, the Technical and Miscellaneous Revenue Act of 1988, the Omnibus Budget Reconciliation Act of 1989, and the Omnibus Budget Reconciliation Act of 1990. Abstract: Sections 1819(b)(3) and 1919(b)(3) of the Social Security Act, as amended by PL 100-203, require that in order for an institution to qualify to participate as a skilled nursing facility in the Medicare program, and, before October 1, 1990, as a skilled nursing facility or as an intermediate care facility in the Medicaid program, and effective October 1, 1990, as a nursing facility in the Medicaid program, it must conduct a comprehensive, standardized assessment of each resident's capability to perform daily life functions. The assessment must also describe significant impairments in the resident's functional capacity and be based on a uniform minimum data set specified by the Secretary. Sections 1819(f)(6)(A) and 1919 (f)(6)(A) of the Act require the Secretary to specify a minimum data set of core elements and common definitions for use by nursing facilities in conducting the assessments. 1138. PAYMENT FOR NURSING AND ALLIED HEALTH SCIENCE EDUCATION (BPD-685-P)

Legal Authority: PL 101-239, Sec 6205; PL 101-508, Sec 4004

CFR Citation: 42 CFR 413

Legal Deadline: NPRM, Statutory, July 1, 1990.
Section 6205(b)(2) of PL 101-239 required that a proposed rule be published before July 1, 1990 and that a final rule not be effective before 10/01/90.

Abstract: This proposed rule would set forth our policy for the payment of the costs of approved nursing and allied health science programs, an action directed by section 6205(b)(2) of PL 101-239. For the most part, the provisions set forth in this proposed rule restate or clarify our current policies governing these costs, which have been previously set forth in the provider reimbursement manual and other documents, but have never been included in the regulations. In addition, we are proposing to amend the list of approved programs and clarify payment rules for certified registered nurse anesthetist programs. This proposed rule would also implement section 4004 of PL 101-508, which provides that, effective with cost reporting periods beginning on or after October 1, 1990, under certain conditions, costs incurred by a hospital or educational institution related to the hospital for clinical training are treated as pass-through costs and paid on the basis of reasonable cost even though the hospital does not operate the education programs.

1140. COST REPORT SETTLEMENT ADJUSTMENT FACTOR FOR SKILLED NURSING FACILITIES AND HOME HEALTH AGENCIES (BPD-702-P)

Legal Authority: PL 101-239, Sec 6024; 42 USC 1302

CFR Citation: 42 CFR 413.3(b)(2)

Legal Deadline: None

Abstract: Section 6024 of PL 101-239 required the Secretary to update the skilled nursing facility (SNF) cost limits effective for cost reporting periods beginning on or after October 1, 1989 in accordance with regulations that require the use of cost reports submitted by SNFs for cost reporting periods beginning not earlier than October 1, 1985. Many of the cost reports that HCFA uses to update limits on SNFs' costs are "as submitted" and therefore not "settled." Since using only "settled" cost reports is not always feasible, due to the lengthy time needed to receive and audit cost report data. HCFA is proposing that adjustment factor be applied uniformly to all "as submitted" cost reports, contained on the SNF data base and the home health agency data used to establish future cost limits to adjust for the overstatement of costs that occurs in those reports. This rule sets forth the proposed adjustment factors and the methodology used to complete the factors.

Abstract: Section 6113 of the Omnibus Budget Reconciliation Act of 1989 (OBRA '89) provides coverage for the services of clinical psychologists (CPs) and clinical social workers. It removed the community mental health center site of service restriction on CP services. It requires CPs to agree to consult with the patient's primary care or attending physician. Also, it eliminates the dollar limitation that previously applied to mental health services although the 62.5 percent limitation still applies. OBRA '89 defines the term "clinical social worker services" and places two exceptions on where such services can be performed. These exceptions include services provided to inpatients of hospitals and skilled nursing facilities that are Medicare participating. Coverage of outpatient mental health still applies.

Abstract: This proposed rule would conform Medicare regulations to the provisions in sections 9338 of the Omnibus Budget Reconciliation Act of 1986 (Pub. These sections amended portions of the Social Security Act (the Act) concerning the coverage of and payment for certain services described in section 1861(s)(2)(K) of the Act that are performed by physician assistants, nurse practitioners, and clinical nurse specialists. This proposed rule also would conform Medicare regulations to those provisions of Pub. L. 101-239 and Pub. L. 101-508 concerning coverage of and payment for services and supplies furnished incident to the covered devices described in section 1861(s)(2)(K) of the Act.

Abstract: These proposed regulations provide an alternative to terminating a psychiatric hospital's participation in

the Medicare and Medicaid programs for facilities found to be out of compliance with conditions of participation. These are alternative sanctions that would be imposed instead of terminating a psychiatric hospital's participating in the Medicare and Medicaid programs where deficiencies did not present immediate jeopardy to the health and safety of psychiatric hospital patients.

These amendments are necessary to conform HCFA regulations to changes made by section 6020 of the Omnibus Budget Reconciliation Act of 1989 (Pub. L. 101-239) and section 4755 of the Omnibus Budget Reconciliation Act of 1990 (Pub. L. 101-508).

Significance: Regulatory Program

Legal Authority: 42 USC 1395nn; 42 USC 1302

CFR Citation: 42 CFR 410

Legal Deadline: Final, Statutory, October 1, 1991.

Abstract: This proposed rule would implement section 6204 of the Omnibus Budget Reconciliation Act of 1989. It would establish in regulations provisions that prohibit a physician from making a referral for the provision of clinical laboratory services to an

entity with which the physician has a financial relationship.

Significance: Agency Priority

Legal Authority: 42 USC 1395bb(a)

CFR Citation: None

Legal Deadline: None

Abstract: In this final notice, we would recognize the accreditation program of the Community Health Accreditation Program (CHAP), a subsidiary of the National League for Nursing (NLN), for home Health Agencies (HHAs) that wish to participate in the Medicare or Medicaid programs. We have found that the accreditation process of this organization provides reasonable assurance that HHAs accredited by it meet the conditions required by the Medicare law and regulations. As a result of this determination, HHAs accredited by CHAP would not be subject to routine inspection by Medicare State survey agencies to determine their compliance with Federal requirements. Rather, they would be "deemed" to meet the Medicare conditions of participation. They would, however, be subject to validation and complaint investigation surveys.

Legal Authority: 42 USC 1302; 42 USC 1396a(k)

CFR Citation: 42 CFR 435; 42 CFR 436

Abstract: This rule would implement section 1902(k) of the Social Security Act by defining Medicaid Qualifying Trust (MQT); establishing rules for counting as available income or resources the maximum amount that could be paid to or on behalf of a Medicaid applicant or recipient from the body of the MQT, from income to the trust, or from both; and permitting States to waive the application of the rule in situations in which its application would result in undue hardships.

The purpose of the rule which reflects Congressional intent, is to prevent individuals who have sufficient income and resources to pay for medical care to shelter that income and resources through MQTs so that they can then become eligible for Medicaid.

Abstract: This rule would require State Medicaid agencies to refer Medicaid families with an absent parent to child support enforcement (CSE) agencies. Section 9142 of the Omnibus Budget Reconciliation Act of 1987 required CSE agencies to provide all CSE services to such Medicaid families who have assigned to the State their rights to medical support. State Medicaid agencies were encouraged to refer Medicaid recipients with absent parents to CSE agencies. However, consistency in referrals among States has not been good. The purpose of these rules is to require States to make this referral to State CSE agencies to ensure that those recipients requiring CSE services receive them.

Abstract: This rule would allow States to choose to implement at their option a variation of the spenddown for medically needy individuals. Under the regular spenddown program a medically needy individual becomes eligible for Medicaid by spending down income in excess of the medically needy income standard until the standard is reached. Under the optional program, an applicant would pay the anticipated amount of regularly incurred expenses to the State instead of becoming eligible only after incurring expenses. Abstract: This rule would amend the regulations governing federally qualified health maintenance organizations (HMOs) and competitive medical plans (CMPs) contracting with the Medicare program, and certain HMOs and health insuring organizations (HIOs) contracting with States under the Medicaid program, by implementing changes made by sections 4204(a) and 4731(a) of the Omnibus Budget Reconciliation Act of 1990 concerning physician incentive plans. The changes are intended to allow

HMOs, CMPs, and HIOs the flexibility to provide reasonable incentives to their physicians and physician groups in order to eliminate unnecessary care and protect enrollees from reduced quality of care or access to care.

Abstract: These regulations will reflect provisions of section 948 of Pub. L. 96-499 and section 2307 of Pub. L. 98-369. This legislation deals with certain problems that have arisen in the Medicare program with respect to payment for physicians in the teaching setting. Specifically addressed by Congress is the problem of

distinguishing between the services a physician furnishes to individual patients as a teaching physician and services furnished to the provider, as well as the method of payment for these services. These rules will set forth the conditions under which physicians in teaching settings will be paid on a reasonable cost basis or, alternatively, on a reasonable charge basis. It also describes the methods used to determine the customary charges for the services of those physicians. The rules will also clarify related physician payment issues.

Abstract: This final rule will require Medicare participating hospitals with emergency departments to provide upon request medical examinations and treatments for individuals with emergency medical conditions and women in active labor. Further, a participating hospital that has specialized capabilities or facilities (such as burn, shock trauma, or neonatal intensive care units) must accept appropriate transfer if they have the capacity to treat the individual. Hospitals failing to meet those requirements may have their Medicare provider agreements terminated, and hospitals and responsible physicians may be subject to civil money penalties. Under section 9122 of Pub. L. 99-272, Medicare participating hospitals are required to accept CHAMPUS and CHAMPVA payment as payment in full for services provided to CHAMPUS and CHAMPVA beneficiaries. These regulations will also implement section 9305(b) of Pub. L. 99-509, which requires Medicare hospitals to give patients a notice of their discharge rights.

Abstract: This final rule implements section 9403 of PL 99-272; section 9353(c) of PL 99-509; section 4096(a) of PL 100-203; and section 4205 of PL 101-508. In accordance with these statutory provisions, Peer Review Organizations (PROs) are authorized to deny Medicare payment to a physician or hospital for services furnished that are of substandard quality. PROs will also conduct an appropriate review of all written complaints from beneficiaries or their representatives about the quality of services not meeting professionally recognized standards of health care. Beneficiaries are protected from liability for the cost of the services where payment is denied because services were of substandard quality.

Abstract: The rule will establish in regulations generally applicable standards and procedures for determinations as to whether and under what circumstances specific medical items and services should be paid for under Medicare. It establishes and explains the criteria relied upon for determining whether an item or service is "reasonable and necessary." The objective of the criteria and procedures set forth in this rule is to assure that Federal funds are expended only for medical services that are properly covered under the Medicare program.

Abstract: Section 9320 of Pub. L. 99-509 provides for payment on a fee schedule basis for services of certified registered nurse anesthetists (CRNAs) furnished to Medicare beneficiaries on or after January 1, 1989. The payment amount is equal to the least of 80 percent of a fee schedule established by the Secretary (and adjusted annually by the change in the Medicare economic index), 80 percent of the prevailing charge for an anesthesiologist, or 80 percent of the actual charge. CRNAs will be required to accept assignment for all Medicare services and civil monetary penalties could be imposed for violations of this requirement. Alternatively, the hospital or physician may bill for and receive payment for services of CRNAs where an employment relationship or contract so stipulates. The hospital or physician may not bill more for CRNA services than the amount the CRNA could bill directly.

Abstract: This rule, issued jointly by HCFA and OIG, will prohibit Medicare payment for most nonphysician services furnished to a hospital outpatient by a provider or supplier other than the hospital, unless the services are furnished under an arrangement with the hospital. The hospital will be obligated by its provider agreement to furnish the services directly or under an arrangement. These regulations also authorize OIG to impose a civil money penalty, not to exceed $2,000, against any individual who knowingly and willfully presents, or causes to be presented, a bill or request for payment for a hospital outpatient service under Part B of Medicare in violation of an arrangement. These regulations will implement sections 9343(c)(1), (c)(2), and (c)(3), of the Omnibus Budget Reconciliation Act of 1986 (PL 99-509), as amended by section 4157 of the Omnibus Budget Reconciliation Act of 1990 (P.L. 101-508).

Legal Deadline: Final, Statutory, October 1, 1989.

Abstract: This regulation will implement section 1915(d) of the Social Security Act, which allows a State to obtain a waiver of certain Medicaid requirements to permit Federal financial participation for home and community based services provided to individuals age 65 or older who are shown by an evaluation to be likely to require the level of care provided in a skilled nursing facility (SNF) or intermediate care facility (ICF), (nursing facility (NF) effective October 1, 1990), the cost for which could be paid by Medicaid. The statute allows for waivers of statewideness, comparability, and income deeming. Under the waiver provisions, the total amount expended by the State for home and community based services, SNF services, and ICF services (NF effective October 1, 1990) for individuals over age 65 may not exceed a "projected amount", determined under the methodology provided in these regulations. For States electing this option the waiver would replace home and community based waivers available under section 1915(c) of the Act, for individuals in this age category.

CFR Citation: 42 CFR 433.123

Legal Deadline: None

Abstract: This proposal would eliminate the requirement that HCFA publish in the Federal Register a proposed notice with opportunity for public comment and then a final notice for any changes in MMIS performance standards and other conditions for reapproval. Instead, we would use well established communication arrangements under which States provide input during the development of revisions, and we would issue guidelines well in advance of implementation changes. This change will increase the efficiency of the administrative process by eliminating lengthy time frames associated with a formal notice and comment procedure thus allowing an expeditious means of developing and communicating changes.

Significance: Regulatory Program

Legal Authority: 42 USC 263a

CFR Citation: 42 CFR 493

Legal Deadline: None

Abstract: Historically the Department has regulated laboratories by "location," rather than by types of tests they perform. Amendments to the Clinical Laboratories Improvements Act of 1988 changes this approach. The amendments require that the Department "regulate by test," using what is commonly referred to as the "complexity model." This final rule sets forth standards for all laboratories based on complexity and responds to public comments on the proposed standards.

Abstract: This regulation provides that disabled individuals may enroll in premium hospital insurance if they lose entitlement to social security disability benefits solely because their earnings exceed the limits imposed by the "gainful activity" rules, and as a result of that loss also lose entitlement to free hospital insurance that was based on entitlement to disability benefits. The regulation also updates and simplifies the rules on State buy-in for Medicare benefits for their Medicaid recipients and specifies a new group for which States may buy-in under section 1843 of the Social Security Act: Qualified Medicare Beneficiaries. There is no 1843 buy-in for Qualified Disabled and Working Individuals although States are required to pay premiums for them.

Abstract: This rule amends the fire safety standards for hospitals, long term care facilities, and intermediate care facilities for the mentally retarded and affects only those facilities. It deletes references to the 1967 and 1973 editions of the Life Safety Code of the National Fire Protection Association and requires compliance with either the 1981 or 1985 editions depending on the date when the facility was first certified to participate in Medicare or Medicaid. This rule creates a uniform policy for all types of facilities that participate in the Medicare and Medicaid programs. The revision of the 1967 and 1973 editions of the Life Safety Code is intended to ensure that Medicare and Medicaid beneficiaries and recipients have the benefit of the most current fire protection standards.

Abstract: This final rule with comment period amends the Medicare and Medicaid regulations by removing obsolete long-term care survey forms, guidelines, and procedures used by State agencies when they evaluate a Medicare skilled nursing facility or a Medicaid nursing facility for compliance with Federal certification requirements. Effective October 1, 1990, the application of new Federal participation requirements for these facilities with an increased focus on actual or potential resident outcomes has made the survey forms and process in existing regulations outdated. Retention of the outdated items could cause confusion in connection with directions State survey agencies must follow in determining facility requirements.

Abstract: This notice would implement a uniform payment policy and procedures for paying providers of services under Medicare Parts A and B by allowing intermediaries and carriers to pay providers through direct deposits into providers' accounts if certain conditions are met. This would reduce the cost of administration, preparation, and control of hard copy checks, and at the same time provide payments to providers more readily.

Abstract: This final rule with comment period updates the Medicare regulations to add or conform them to certain self-implementing provisions on coverage of services and payment requirements under the Omnibus Budget Reconciliation Act of 1990. In some cases, certain self-implementing provisions of the Omnibus Budget Reconciliation Act of 1989 and the Medicare Catastrophic Coverage Repeal Act of 1989 have been included so that the OBRA '90 provisions could be accurately reflected in the regulations.

The immediate update of the regulations will remove existing conflicts between the regulations and the statute, thus preventing possible public confusion.

Abstract: This notice responds to public comments received on a final rule issued on May 31, 1990 (55 FR 22142), relating to the Department's decision not to restructure the Medicaid Eligibility Quality Control program as a result of a Congressionally required study of the quality control systems of the Aid to Families with Dependent Children program and the Medicaid program. The study was required by section 12301 of the Consolidated Omnibus Budget Reconciliation Act of 1985 as amended by section 1710 of the Tax Reform Act of 1986. The purpose of the study was to examine how best to operate quality control systems in order to obtain information to improve the quality of administration and provide data on which to base withholding of Federal matching payments for excessive levels of erroneous State payments.

Significance: Agency Priority

Legal Authority: 42 USC 1395m; 42 USC 1302

CFR Citation: 42 CFR 414.224

Abstract: This interim final rule establishes criteria to be applied in determinations whether a wheelchair qualifies for treatment as a customized item for payment purposes. Section 4152(c)(4)(B) of the Omnibus Budget Reconciliation Act of 1990 established a broad definition, effective for items furnished on or after January 1, 1992, that could have the effect of encompassing many more items than are presently being determined to be "customized" for payment purposes. However, that section also provides that the statutory criteria will not become effective if the Secretary develops specific criteria prior to January 1, 1992, for the treatment of wheelchairs as customized items for purposes of Medicare payment.

Abstract: These interim rules amend the Medicare and Medicaid regulations governing provider agreements and contracts to establish requirements for States, hospitals, nursing facilities, skilled nursing facilities, providers of home health care or personal care services, hospice programs and prepaid health plans concerning advance directives. An advance directive is a written instruction, such as a living will or durable power of attorney for health care, recognized under State law, relating to the provision of health care when an individual's condition makes him or her unable to express his or her wishes. The intent of these provisions is to enhance an individual's control over medical treatment decisions. These rules implement sections 4206 and 4751 of the Omnibus Budget Reconciliation Act of 1990.

Abstract: This rule provides for Medicare coverage of the drug erythropoietin (EPO) when used at home by ESRD patients who dialyze at home. This makes it more convenient for home dialysis patients, who previously had to go to a dialysis facility or a physician's office to have the drug administered. The rule establishes requirements to ensure that only patients found capable of home use of the drug are approved for it, and that those patients are properly monitored during home use of the drug. Section 4201(d)(1)(C) of OBRA 90 provides for Medicare coverage for EPO effective July 1, 1991, subject to methods and standards established by the Secretary in regulations for the safe and effective use of the drug.

CFR Citation: 42 CFR 414

Legal Deadline: Final, Judicial, July 30, 1991.

Abstract: Section 1834(a)(7)(A) of the Social Security Act requires that the Secretary determine the meaning of the word "continuous" as it is used in defining a period of continuous use for which we make payments for durable medical equipment. Our current policy on this issue has been in effect under manual issuances since January 1, 1989, but it has not been published as a regulation. On May 31 1991, the U.S. District Court for Puerto Rico in Medics, Inc. et al. v. Louis Sullivan ordered the Secretary to publish a notice and comment rulemaking document in the Federal Register that sets forth rules concerning the meaning of continuous use as it applies to the rental of durable medical equipment under Medicare. The Court also ordered publication of a final rule. This rule addresses items required by the Court order.

Abstract: As a condition of eligibility for Medicaid, every applicant must agree to cooperate in establishing the paternity of children born out of wedlock, and in obtaining medical payments and support. This rule modifies the regulations to incorporate a provision of section 4606 of Pub.L. 101-508, which provides an exemption to this condition for pregnant women who qualify for Medicaid under special eligibility requirements for low income pregnant women.

Significance: Agency Priority

Legal Authority: 42 USC 1302; 42 USC 1396r-8

CFR Citation: 42 CFR 456

Legal Deadline: None

Abstract: This interim final rule implements sections 1927(g) and (h) of the Social Security Act as established by the Omnibus Budget Reconciliation Act of 1990 (Pub.L. 101-508). It prescribes requirements for an outpatient drug use review program that includes both prospective drug review and retrospective drug use review. It also contains requirements for State drug use review boards and requirements of a point-of-sale electronic claims management system for processing claims for outpatient drugs.

Abstract: This interim final rule interprets a statutory requirement that State Medicaid agencies must provide for receipt and initial processing of

Medicaid applications filed by certain low-income pregnant women, infants, and children at locations which are other than those used for receipt and processing of Aid to Families with Dependent Children (AFDC) applications. The statutory requirement also provides that the application form for these individuals must not be the AFDC application form.

The rule is based on a new section 1902(a)(55) of the Social Security Act as added by section 4602 of the Omnibus Budget Reconciliation Act of 1990, Pub.L. 101-508.

Significance: Agency Priority

Legal Authority: 42 USC 1396d(a); 42 USC 1302

CFR Citation: 42 CFR 441

Legal Deadline: None

Abstract: This interim final rule would allow States to choose to provide home and community care for functionally disabled elderly as a State plan option. Rather than imposing a cost-neutrality component, as is the case in home and community based care waiver programs under section 1915 of the Social Security Act, this rule imposes two cost "caps" which are applied independently. One cap prohibits States from spending more than 50 percent of the amount Medicare would pay for certain nursing facility care, the second cap is an aggregate limit on the amount of Federal funding. This rule would implement section 4711 of the Omnibus Budget Reconciliation Act of 1990.

Abstract: This NPRM rule, which implements section 20 of the Child Support Enforcement Amendments of 1984 (Pub. L. 98-378) specifies that in any case where the collection or increased collection of support under title IV-D of the Social Security Act contributes wholly or partly to a family's ineligibility for AFDC, the family is deemed, but only for the purpose of Medicaid eligibility, to be receiving AFDC for a period of four calendar months after the last month of AFDC eligibility. This applies only to families who receive AFDC in three of the six months immediately preceding the month of ineligibility. "Received" includes those individuals denied an AFDC payment solely because the payment amount is under $10, the recoupment of overpayment, or because the payment is determined to be zero as a result of rounding.

Abstract: This regulation implements section 5011 of the Omnibus Budget Reconciliation Act of 1990 (P.L. 101-508), extending the Federal Income Tax Refund Offset process for non-AFDC families in three ways: 1) by making the provision permanent in the statute; 2) by clarifying that spousal support in the same order may be collected; and, 3) by allowing collection of support for certain adult disabled children. In addition, this proposed rule would permit the disclosure of information to the appropriate agency with respect to known or suspected instances of child abuse.

Legal Deadline: None

Abstract: 1) Requires States to use recoupment (grant reduction) to collect outstanding overpayments from current recipients; 2) permits States to recoup above the 10% recoupment limit upon recipients' written request; and, 3) shortens the time period for States to initiate a specific recovery action. These actions would provide for prompt recovery of AFDC overpayments, increase overpayment collections thereby enhancing the fiscal integrity of the AFDC program.

[Docket No. N-91-3310; FR-3128]

Semiannual Agenda of Regulations

AGENCY: Department of Housing and Urban Development.

ACTION: Semiannual agenda, under Executive Order 12291 and the Regulatory Flexibility Act, of regulations expected to be issued and under review.

SUMMARY: In accordance with section 5 of Executive Order 12291 "Federal Regulation," the Department is publishing its agenda of proposed regulations already issued or expected to be issued and of currently effective rules that are under review. Also, under section 602 of the Regulatory Flexibility Act, the Department has prepared a regulatory flexibility agenda of regulations expected to be proposed or promulgated, which are likely to have a significant economic impact on a substantial number of small entities. As permitted by Executive Order 12291 and the Regulatory Flexibility Act, the two agendas are combined for publication.

FOR FURTHER INFORMATION CONTACT: Grady J. Norris, Assistant General Counsel for Regulations, Department of Housing and Urban Development, Room 10276, 451 Seventh Street SW., Washington, DC 20410, (202) 708-3055. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation," issued on February 17, 1981 (46 FR 13193), requires each agency to publish semiannually an agenda of regulations that the agency has issued or expects to issue and of currently effective regulations that are under agency review.

The Regulatory Flexibility Act, 5 U.S.C. 601-612, requires each agency to publish semiannually a regulatory flexibility agenda of rules expected to be proposed or promulgated, which are likely to have a significant economic impact on a substantial number of "small entities," meaning small businesses, small organizations, or small governmental jurisdictions.

Executive Order 12291 and section 605 of the Regulatory Flexibility Act each permit incorporation of the agenda it requires with any other prescribed agenda. Accordingly, the agenda set out below combines the information required by the Executive order and by the Regulatory Flexibility Act. In addition, the agenda contains certain information not required by either the Executive order or by the Act, which the Department considers useful, both better to inform the public and to enhance the Department's own inventory control over its body of regulations.

For purposes of Executive Order 12291, "regulation" or "rule" is defined as "an agency statement of general applicability and future effect designed to implement, interpret, or prescribe law or policy or describing the procedure or practice requirements of an agency" subject to certain exceptions. The agenda published below concentrates upon regulatory material contained or expected to be contained in the Code of Federal Regulations (CFR) (or incorporated therein by reference) following publication in the **Federal Register**. As appropriate, however, issuances in the nature of general statements of policy may be published in the **Federal Register** but not for coordination in the CFR.

The Department also is subject to certain requirements involving congressional review of rulemaking actions, including publication of an agenda. Section 7(o) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(o)) requires that the Secretary transmit to the congressional committees having jurisdictional oversight (the Senate Committee on Banking, Housing and Urban Affairs and the House Committee on Banking, Housing and Urban Affairs) a semiannual agenda of all rules or regulations which are under development or review by the Department. A rule appearing on the agenda cannot be published for comment before or during the first 15 calendar days after transmittal of the agenda. If, within that period, either committee notifies the Secretary that it intends to review any rule or regulation which appears on the agenda, the Secretary must submit to both committees a copy of the rule or regulation, in the form it is intended to be proposed, at least 15 calendar days before it is published for comment. The semiannual agenda published today is the agenda transmitted to the committees in compliance with the foregoing requirement.

The agenda items are divided first by program office. Within each program office, the agenda items are divided into four groups: (i) Prerulemaking actions, (ii) publication or other implementations of notices of proposed rulemaking, (iii) publications or other implementations of final rules, and (iv) completed actions. Within each grouping, rules are listed in chronological order by the part number of the CFR affected. Where a rule affects multiple parts of the CFR, the rule is listed by the first affected part number. Priority rules include all regulations designated for priority development by the Department.

Items listed in this agenda are from the following offices within the Department: Office of the Secretary; Office of Housing; Office of Public and Indian Housing; Office of Community Planning and Development; Office of Fair Housing and Equal Opportunity; Government National Mortgage Association; and Office of Administration.

Dated: August 21, 1991.

Frank Keating,

General Counsel.

1313. NATIONAL HOMEOWNERSHIP TRUST DEMONSTRATION PROGRAM (S-13-91; FR-3032)

Significance: Regulatory Program

Legal Authority: PL 101-625

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: This rule would establish a seven member board of director, chaired by HUD Secretary, within HUD for National Homeownership Trust, that would provide funding for down payments and limiting interest on mortgage to 6% for eligible, first-time homeowners.

Significance: Regulatory Program

Legal Authority: 5 USC 301; 18 USC 201 to 212

CFR Citation: 24 CFR 0

Legal Deadline: None

Abstract: Executive Order 12674 of April 12, 1989, Principles of Ethical Conduct for Government Officers and Employees, directed each agency head to ensure that the rank, responsibilities, authority, staffing and resources of Designated Agency Ethics Official are sufficient to ensure the effectiveness of the agency ethics program. In January 1990, the Secretary of HUD approved the establishment of an Office of Ethics within the Office of Administration. This rule amends 24 CFR Part 0, Standards of Conduct to re-delegate the responsibilities for coordinating and managing the Standards of Conduct program from the General Counsel to the Assistant Secretary for Administration. The rule also reorganizes the management of the Standards of Conduct Program in the Field.

Legal Authority: 42 USC 1437f

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Sec. 958 of the Cranston-Gonzalez National Affordable Housing Act of 1990 requires that HUD provide a preference for Native Hawaiians for certain housing assistance programs located on Hawaiian homelands. The programs affected by the new law include multifamily FHA mortgages, the program under section 202 of the U.S. Housing Act of 1959 (elderly housing), project-based section 8 assistance, and public housing.

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 10.1

Legal Deadline: None

Abstract: This rule proposes a change in HUD's "rule on rules" to provide discretion in the Department, upon a showing of good cause set out in the preamble of a rule published for public comment, to limit the public comment period to fewer than the 60 days normally provided. In no case, however, could public comment be limited to less than 30 days. The rule would, where the circumstances so demanded, permit the Department to develop rules on a faster time schedule, benefitting the public and improving program administration.

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 17

Legal Deadline: None

Abstract: This proposed rule would make the repayment of disallowed costs, as determined under the Departmental Audits Management System, a threshold requirement to be met in all of HUD's Discretionary Assistance Programs.

As such, this rule would provide an additional important tool for the Department to collect moneys expended for ineligible purposes under HUD programs. This is particularly true with respect to State and Local Governments, which are not subject to administrative offset under the Federal Claims Collection Act.

There is no administrative or programmatic cost under the proposal. The potential for recovering disallowed costs, by establishing such a precondition for discretionary program assistance, lies in the millions of dollars.

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 24

Legal Deadline: None

Abstract: This proposed rule would amend existing 24 CFR 24.305, a part of the HUD Debarment Regulation. A recent United States District Court decision, involving an appeal of a debarment action taken by the Department, has greatly reduced the effectiveness of Section 24.305(d). The purpose of this rule is to correct the effect of the District Court's decision, and to clarify the Department's established and unchanged policy regarding causes for debarment.

Legal Authority: 42 USC 4321; PL 95-557

CFR Citation: 24 CFR 50

Abstract: This rule proposes to revise the regulations that govern environmental review and decision-making by HUD staff and officials for projects under all HUD programs except for programs for which State or local governments exercise these responsibilities (under 24 CFR Part 58). The rule will take account of pertinent legislative changes, if any, to the authorizations for established programs. It will include any changes as may be required under new authorizations, including those programs of the National Affordable Housing Act of 1990 for which HUD retains environmental review responsibility. In addition, the rule will propose language to amend the current interim rules; to clarify provisions based on HUD experience with those rules; to reduce regulatory burdens and procedural details consistent with environmental laws and other authorities; and to assure policy consistency with Part 58 on matters common to both rules.

Abstract: This agenda item calls for a proposed rule to accomplish the following purposes. First it will implement Section 288 of the Cranston-Gonzalez National Affordable Housing Act which provides for the performance of environmental review responsibilities by States and units of local government for programs under Title II of the Act, "Investment in Affordable Housing" (HOME programs). Second, it will indicate requirements and further exemptions and categorical exclusions applicable to the following: Community Development Block Grant Program; Section 17 Rental Rehabilitation and Housing Development Programs; and programs under the Stewart B. McKinney Homeless Assistance Act, as well as the Title II HOME in the HUD Amendments of 1981, such as the State-administered programs. Third, because Congress has increased the number of programs for which State and local governments assume environmental review responsibility, and to which this rule applies, HUD will propose to change the title of this rule, from the one above to: "Environmental Review Procedures for State and Local Governments Under HUD Programs." Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 95

Legal Deadline: None

Abstract: This proposed rule would restrict nepotism in employment and contracting by officials or grantees receiving grants from the United States Department of HUD. Under this rule, grantee officials may not employ relatives or participate in contracting with an entity in which a relative has a financial interest, unless the relationship is fully disclosed and a waiver is granted by the HUD Assistant Secretary responsible for the program under which the grant is provided. These prohibitions will standardize the rules imposed on HUD grantees and will minimize the possibility of improper favoritism through employment of, and contracting with, relatives of grantee officials.

Legal Authority: 42 USC 5300 to 5302

CFR Citation: 24 CFR 570.602

Legal Deadline: None

Abstract: This proposed rule would amend 24 CFR 570.602 which implements Section 109 of Title I of the Housing and Community Development Act of 1974, as amended. Section 109 requires that no person in the United States shall, on the ground of race, color, national origin, religion or sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under, any program or activity funded in whole or in part with community development funds. The language of Section 109 is based on Title VI of the Civil Rights Act. The Civil Rights Restoration Act of 1987 (CCRA) amended Title VI. Accordingly, this rule would amend 24 CFR 570.602 to make its nondiscrimination provisions consistent with certain amendments made to Title VI by the CCRA.

Legal Deadline: None

Abstract: This rule implements changes made by the National Affordable Housing Act in the way the Federal preferences are applied. Now the preference for assisting families that occupy substandard housing, who pay more than 50 percent of income for rent, or who are involuntarily displaced applies not to all the units but to 70 percent of units in project-based assistance programs and 90 percent of units in the tenant-based program (Housing Voucher and Certificate Program). The rule also clarifies that the term "substandard housing" includes homelessness or housing in a homeless shelter.

Legal Deadline: None

Abstract: This rule will require regulations under the CDBG, PIH, Section 8 lower-income housing, and Section 202 elderly and handicapped housing programs to implement Section 955 of the Cranston-Gonzalez National Affordable Housing Act, which exempts volunteer workers from the Davis-Bacon and/or HUD determined prevailing wage requirements under these programs. The provision eliminates the necessity for a HUD waiver to allow volunteers under the Section 202 program, and under the other programs cited.

Legal Authority: PL 101-625; 42 USC 8011

CFR Citation: 24 CFR 700

Legal Deadline: None

Abstract: Section 802 of the Cranston-Gonzalez National Affordable Housing Act establishes a revised congregate housing services program which supersedes the Congregate Housing Services Program under the Congregate Housing Services Act of 1978. The new statutory provisions authorize provision of supportive services to enable frail elderly persons and persons with disabilities to live independently and also the provision of assistance for the retrofitting of dwelling units and common space to meet the special physical needs of residents. HUD and the Department of Agriculture are directed by Section 802(m) to jointly issue any necessary regulations within 180 days after enactment. No funds have been appropriated for this program for FY 1991.

Significance: Regulatory Program

Legal Authority: 42 USC 3535(d); PL 101-625

CFR Citation: 24 CFR 91

Legal Deadline: None

Abstract: This rule implements Section 105 of Cranston-Gonzalez National Affordable Housing Act. It describes how State and local governments will prepare and obtain approval of their housing strategies to serve very low, low, and moderate-income families. These strategies are required to be approved before an entity can receive approval to participate in various HUD-assisted programs, including the new HOME program promoting public-private partnership to increase the availability of affordable housing and the new HOPE program, as well as the Section 202 Program for the Elderly and McKinney Act Programs.

Significance: Regulatory Program

Legal Authority: PL 101-625

CFR Citation: 24 CFR 92

Legal Deadline: Final, Statutory, May 28, 1991.

Abstract: This rule implements the HOME investment Partnership Act, as enacted by Title II of the Cranston-Gonzalez National Affordable Housing Act. This program among other purposes is intended to expand the supply of decent, safe, and sanitary affordable housing. Under the HOME Program, HUD provides formula allocations to participating jurisdictions to be used for specified eligible housing uses in accordance with the jurisdiction's approved comprehensive housing affordability strategies. A portion of these allocations may be used for investment in housing developed, sponsored, or owned by community housing development organizations. HUD may also provide technical assistance to develop the capacity of participating jurisdictions and will develop model programs designed to carry out the purposes of the Act.

Legal Deadline: None

Abstract: This rule will implement Section 214 of the Housing and Community Development Act of 1980, as amended in 1981, 1986, and 1988. That Act prohibits the Secretary from providing financial assistance to substantially all illegal aliens as well as to most classes of aliens admitted for temporary purposes. The restriction applies to the Public and Indian Housing programs, the Section 8 Housing Assistance Payments programs, the Rent Supplement program, the Section 236 program, and

the Section 235 homeownership assistance program.

This rule will replace the rule published on April 1, 1986, which was not made effective, and has been withdrawn. This new rule will provide that alien status must be verified with the Immigration and Naturalization Service by the entity responsible for tenant selection (or for approval of a Section 235 mortgage application).

Significance: Agency Priority

Legal Authority: 42 USC 1709; 42 USC 1715b

CFR Citation: 24 CFR 203; 24 CFR 234

Legal Deadline: None

Abstract: This interim rule amends the regulations at 24 CFR Parts 203 and 234 to make certain changes to the FHA Single Family Mortgage Insurance program regulations in support of the new HOPE Grant Programs, authorized by Title IV of the Cranston-Gonzalez National Affordable Housing Act. In the single family FHA mortgage insurance programs, there is a requirement for a down payment by the mortgagor in cash or the equivalent. The Cranston-Gonzalez Act creates an exception to this requirement for the HOPE programs. The Cranston-Gonzalez Act provides that the required down payment may be paid by a corporation or person other than the mortgagor if the mortgage covers a unit under the HOPE program. Accordingly, this interim rule amends the regulations at Parts 203 and 234 to reflect this exception.

Abstract: This proposed rule would amend the regulations which set forth the requirements for approval of mortgagees to participate in the FHA mortgage insurance programs and to maintain their approval status. The proposed rule would establish new standards and requirements for mortgagee approval. The new standards would include an increase in the net worth requirements for both FHA approved mortgagees and loan correspondents. The purpose of the proposed rule is to ensure that only responsible and soundly capitalized mortgagees participate in the FHA programs.

Abstract: This program is the only national design and construction standard for housing, and it offers many opportunities to provide affordable housing without Federal subsidy assistance. The Department wishes to review the program's regulations to identify changes that can be made to streamline its regulatory requirements and to increase the use of manufactured housing as a source of affordable housing.

Legal Authority: 12 USC 1710

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Section 1064 of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 authorizes HUD to add pre-foreclosure sales to its roster of servicing options, as a means of saving the Department money and of assisting qualified mortgagors to avoid foreclosure of their FHA-insured mortgages. The Department is now able to pay a claim to a mortgagee to "bridge the gap" between the proceeds of a sale of the property to a third party buyer at current fair market value, and the original owner's indebtedness under the note. Until the Department received the authorization to pay these claims, such pre-foreclosure sales (or "short sales," as they are also known) were impracticable. At this time, a six to twelve month demonstration of pre-foreclosure sales is being prepared for five local HUD offices; subsequently, full implementing regulations will be issued to introduce the pre-foreclosure sale option throughout the Department.

Significance: Regulatory Program

Legal Authority: PL 101-625

CFR Citation: 24 CFR 206

Legal Deadline: None

Abstract: Section 255 of the National Housing Act authorizes HUD to carry out a demonstration program for insuring mortgages on the homes of elderly homeowners, enabling the homeowners to convert the equity in their homes into cash. Section 255 authorized HUD to insure up to 2,500 mortgages under this demonstration program until September 30, 1991. Section 334 of the 1990 National Affordable Housing Act amended Section 255 to: extend the program to September 30, 1995; increase the size of the program to 25,000 mortgages; and make other program changes, including specifying types of loans available to mortgagors, and imposing certain disclosure requirements on lenders. Section 334(a), which extends the program and increases the number of insurable mortgages, will be implemented by final rule. The remaining provisions of Section 334, which require regulatory elaboration, will be implemented by proposed rule.

Abstract: This proposed rule would amend HUD regulations to implement section 181 of the Housing and Community Development Act of 1987, section 1010 of the Stewart B. McKinney Homeless Assistance Amendments of 1988, and section 579 of the NAHA. Section 181 expanded the scope of section 203 of the HCD Amendments of 1978 to include projects that are subject to a HUD-held mortgage and are delinquent, under a work out agreement, or being foreclosed upon by HUD. HUD, when it is owner or mortgagee-in-possession, and the owner in other situations now covered by section 203 must, to the greatest extent possible, maintain all such occupied projects in decent, safe, and sanitary condition and maintain full occupancy and must also maintain all such projects for purposes of providing rental or cooperative housing for the longest feasible time. The statute directs HUD to provide not less than one of several specified forms of financial assistance to a purchaser other than HUD at foreclosure, or after sale by the Secretary. Section 1010 further amended section 203 to clarify which units in HUD-held unsubsidized projects (cont)

Significance: Agency Priority

Legal Authority: 12 USC 1715(g)(4); 42 USC 3535(d)

CFR Citation: 24 CFR 290

Legal Deadline: Final, Statutory, June 1991.

Abstract: Section 336 of the Cranston-Gonzalez National Affordable Housing Act requires HUD, in lieu of accepting assignments of mortgages under Section 221(g)(4) of the NHA for debentures, to arrange the sale of the beneficial interests in those mortgages through an auction and sale of the mortgage loans or participation certificates, or other mortgage-backed obligations acceptable to HUD. HUD must arrange the auction and sale at a price, to be paid to the mortgagee, of par plus accrued interest to the date of the sale.

Abstract: Section 8(c)(2)(B) of the United States Housing Act of 1937 permits HUD to adjust contract rents covering Section 8 assisted units to reflect increases in certain specified costs of owning and maintaining. Section 542 of the Cranston-Gonzalez National Affordable Housing Act amended Section 8 (c)(2) to provide the Secretary with the authority (subject to the availability of appropriations) to provide for rent adjustments where a project's operating, maintenance, and capital repair expenses have been substantially increased primarily as a result of the prevalence of drug-related activity. This section limits the rent adjustments to a level no greater than 120% of the project rents, to cover the costs of maintenance, security, capital repairs and reserves required for the owner to carry out a strategy acceptable to the Secretary for addressing the problem of drug-related criminal activity.

This proposed rule would implement the provisions of Section 542.

Abstract: This rule implements section 548 of the National Affordable Housing Act of 1990, which removes the prior statutory bar against assistance for public housing agency-owned (PHA-owned) units. This rule permits a PHA which administers a rental certificate, rental voucher or moderate rehabilitation assistance under an Annual Contribution Contract with HUD to enter into a contract to make assistance payments for a unit which is owned by the PHA. As a section 8 owner, the PHA will be subject to all the same program requirements as apply to other section 8 owners to these programs.

Legal Authority: PL 101-625

CFR Citation: 24 CFR 882; 24 CFR 887

Legal Deadline: None

Abstract: Section 554 of the NAHA creates the Family Self-Sufficiency (FSS) Program. Under this program, public housing agencies and Indian housing authorities are directed to use public and Indian housing development assistance and section 8 housing assistance, under the section 8 rental certificate and rental voucher programs, together with public and private resources to provide supportive services, to enable participating families to achieve economic independence. Section 554 provides that, in the case of a section 8 participating family, housing assistance may be terminated if the participating family does not fulfill its obligations under the FSS program's contract of participation. This interim rule amends 24 CFR Parts 882 and 887 to include failure to comply with the requirements of the FSS contract of participation as grounds for termination of assistance under the section 8 programs of Parts 882 and 887.

Abstract: States with a large number of manufacturing facilities have incurred additional expenses in monitoring and inspecting those facilities. As the regulation is now written, the monitoring inspection fee paid by the manufacturers to the Secretary is distributed to the states based on the number of new manufacturer housing units whose first location after leaving the plant is on the premises of a distributor, dealer, or purchaser in that state. 24 CFR 3282.307(b) will be amended to provide a more equitable distribution of the inspection fee proceeds that will take into account the additional expenses incurred by the states in which manufacturing facilities are located.

Abstract: The rule will implement statutory amendments established by Section 461 of the Housing and Urban Rural Recovery Act of 1983 (Pub. L. 98-181). The amendments address a problem identified as "controlled business" and the manner in which Section 8 of the Real Estate Settlement Procedures Act (12 USC 2607), the kickback prohibition of RESPA, is to be applied to such arrangements. The rule will also contain miscellaneous changes to clarify and update the existing rule.

Legal Authority: 42 USC 3535(d)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The purpose of the HOPE 3 Program is to provide homeownership opportunities for eligible families to purchase certain Federal, State and local single family properties and units in scattered site, single family public and Indian housing developments. The authorizing legislation for the HOPE Grant Programs, which includes the HOPE 3 Program, provides for HUD to make planning grants and implementation grants to selected eligible applicants to assist them in developing and carrying out homeownership programs for eligible families. In accordance with the authorizing legislation, the Department published a notice of program guidelines for the HOPE 3 Program on February 4, 1991. These guidelines noted that for Federal Fiscal Year 1991, HUD would make implementation grants, but would not be funding planning grants. This notice will amend the February 4, 1991 guidelines for the HOPE 3 Program to provide for planning grants.

CFR Citation: 24 CFR 570; 24 CFR 571

Legal Deadline: None

Abstract: This proposed rule would amend the regulations governing the CDBG grant program to require compliance with the structural accessibility standards promulgated under the Architectural Barriers Act of 1966 (ABA). The proposed rule, through amendments to 24 CFR Parts 570 and

571 (the CDBG regulations), would provide that any building or facility designed, constructed or altered with grants made available under the CDBG Program, and which meets the ABA's definition of "building" is subject to the requirements of the ABA. The requirements of the ABA would apply to entitlement grants and nonentitlement grants under the CDBG Program, the Indian CDBG Program, and to the section 108 Loan Guarantee Program. The rule would provide for the ABA requirements to be applicable to funds allocated or reallocated after the effective date of the final rule. The purpose of the rule is to bring the CDBG Program into compliance with the requirements of the ABA.

Legal Authority: PL 100-242, Sec 101

CFR Citation: 24 CFR 570.202

Legal Deadline: None

Abstract: A recent IG audit finding involving a sample of CDBG grantees revealed that general improvements were being undertaken in CDBG-assisted rehabilitation properties while leaving health and safety violations uncorrected. As a result of this finding, CDBG regulations need to be amended to incorporate a provision that would require the correction of all health and safety violations in CDBG-assisted rehabilitated properties before any general improvements to these properties can be undertaken. The proposed rule will also include an exception that will allow properties with uncorrected health and safety violations to still take part in rehabilitation programs that grantees have established to expressly address significant community housing needs, such as energy conservation through weatherization programs and improving the exterior appearance of deteriorating buildings through painting programs. Moreover, the proposed rule will make clear that grantees will still have the flexibility to continue to provide funding for the general improvement of properties that are free and clear of health and safety violations.

1449. PREVENTION OF DISCRIMINATION BASED ON ALIENAGE IN THE PROVISION OF CDBG-FUNDED PUBLIC SERVICES (ALIEN IV) (CPD-19-90; FR-2913)

Significance: Regulatory Program

Legal Authority: 42 USC 5301 to 5320

CFR Citation: 24 CFR 570

Legal Deadline: None

Abstract: This rule will prohibit Community Development Block Grant (CDBG) recipients from restricting access to emergency public services and certain activities benefitting children to persons based on their citizenship or alien status. Historically, the CDBG program has been blind to the alien status of individuals served. It has come to the attention of the Department that a few local jurisdictions receiving CDBG funds seek to refuse services to individuals who cannot demonstrate citizenship or lawful immigration status. Believing that this policy interferes with the purposes of the authorizing statute, HUD is acting to prevent such locally imposed restrictions on these CDBG-funded activities.

Abstract: This rule would revise the Community Development Block Grant Program rules (24 CFR Part 570) for the entitlement and HUD-administered small cities programs, as necessary to implement certain changes in the Housing and Community Development Act of 1987; the Department of Housing and Urban Development - Independent Agencies Appropriations Act, 1989; and the Cranston- Gonzalez National Affordable Housing Act of 1990, sections 902, 903, 905, 906, and 912.

The rule will address:

1. The new requirements for a citizens participation plan;

2. The circumstances under which a grant recipient may newly construct, or substantially reconstruct, housing where it is clear that such work is needed before the CDBG activity commences; (cont)

3. The circumstances under which a grant recipient may provide a 9-1-1 emergency services communication system serving an area having less than 51 percent low- and moderate-income residents and still be considered to meet the national objective of benefitting low- and moderate-income persons; and

4. The authority to use CDBG funds to pay special assessments for certain low- and moderate-income property owners to recover local costs incurred in providing public improvements serving an area having less than 51 percent low- and moderate-income persons, under the national objective of benefitting such persons.

5. Certain changes affecting the CDBG program that were enacted as part of the National Affordable Housing Act. Included here will be: increase of "Targeting" from 60 to 70%; revised certifications for excessive force and Comprehensive Housing Affordability Strategy; revised definitions of metro cities and urban counties; and add "religion" to coverage of Section 570.602.

Abstract: This regulation would incorporate changes to eligible activities (homeownership assistance, assistance to for-profit businesses, and adding program income to the base for computing the limitation on public services), the reallocation of recaptured funds to communities having emergency disaster needs, and excepting volunteer laborers from Davis-Bacon coverage. Because of the limited discretion allowed HUD in implementing these changes and since the early implementation will benefit and not restrict grantees, this will be an "interim rule."

CFR Citation: 24 CFR 570, subpart M

Legal Deadline: NPRM, Statutory, February 26, 1991. Final, Statutory, May 30, 1991.

Abstract: This rule would amend the regulations which implement the community development loan guarantee assistance authorized by Section 108 of the Housing and Community Development Act of 1974, to implement changes made to this program by Section 910 of the Cranston-Gonzalez National Affordable Housing Act. Section 910, among other things, expands HUD's loan guarantee

authority by including authority to guarantee new construction of housing by nonprofits for homeownership under the HoDAG and Nehemiah Programs. This section also authorizes HUD to assist the issuer in the payment of principal and interest, in cases of extreme hardship, and requires HUD to provide training and information activities with respect to the guarantee program.

Abstract: FHEO is taking steps to streamline procedures and target funds more cost-effectively in FY 1992, should the program be authorized to continue. FHEO proposes to introduce a "graduation" approach to funding of selected grantees based on annual performance and project content. This would permit recipients and FHEO to realize cost efficiencies related to lower staff turnover among the affected agencies, and to minimize stop/start costs for projects that merit continuation without annual competition. No project would receive continuous funding for more than three years without further competition. This modification requires a regulatory change. The Administrative Enforcement Initiative provides funds to State and local fair housing agencies certified by the Assistant Secretary as substantially equivalent. The regulation will be amended to broaden eligibility to also include State and local agencies which are revising existing or drafting new legislation to conform with the provisions of the Fair Housing Amendments Act of 1988.

Abstract: This proposed rule would amend the regulations at 24 CFR 125 governing the Fair Housing Initiatives Program (FHIP). Specifically, the proposed rule would amend sections 125.201, 125.202 and 125.203, which describe the purpose, eligibility criteria and eligible activities for the administrative enforcement initiative (AEI) component of FHIP. The FHIP regulations currently provide that eligibility in the program only applies to those State and local fair housing enforcement agencies which have been certified by the Assistant Secretary as substantially equivalent. The amendments proposed would permit funding to State and local fair housing enforcement agencies, which have amended their fair housing laws, but are not yet certified as substantially equivalent, to compete for support funds under AEI component of the program.

Abstract: The regulations at 24 CFR 135 have not been revised to reflect the changes that have occurred in the past several years in the Department's programs that are subject to Section 3 regulations. The updating of these regulations to enforce Section 3 of the HUD Act of 1968 is needed to conform with regulations from the Office of Housing and the Office of Community Planning and Development. The Section 3 regulations must also more closely address the Department's goals to improve the self-sufficiency of low income persons.

1479. ● AMENDMENTS TO FAIR HOUSING REGULATIONS; EXTENSION OF BUILDING PERMIT DEADLINE (FR-3043; FHEO-2-91)

Legal Authority: 42 USC 3600 to 3620

CFR Citation: 24 CFR 100.205

Legal Deadline: None

Abstract: This final rule amends 24 CFR 100.205(a) to extend the January 13, 1990 permit deadline to June 15, 1990. Section 100.205(a) provides that a covered multifamily dwelling is exempt from the accessibility requirements of the Fair Housing Act, if the dwelling is designed and constructed for first occupancy on or before March 13, 1991, or if the last building permit or renewal thereof for the dwelling was issued by a State, county or local government on or before January 13, 1990. The Department has discovered that certain projects originally scheduled for first occupancy before March 13, 1991, and for which permits were not obtained prior to January 13, 1990, will not be able to meet the March 13, 1991 deadline due to contingencies beyond the control of the builder. To accommodate these legitimate concerns, the Department has decided to extend the January 13, 1990 deadline to June 15, 1990, the date the Department published proposed accessibility guidelines.

Statutory deadline for "Publications of Guidelines and Timetable" appropriate to implement . . . .these provisions. ... by Jan. 1, 1993."

Abstract: The Department is proposing to amend 24 CFR Chapter IX by adding a new subpart C in section 990 to require public Housing agencies, but not Indian Housing Authorities, to establish and maintain a system of accounting for income and expenses by project or other appropriate cost center. This proposed change is directed by section 502(c) of the National Affordable Housing Act of 1990. The 1990 Act required that the Department promulgate regulations under section 553 of Title 5, USC, taking into account the requirements of public housing agencies of different sizes and characteristics, to achieve compliance with the requirements of the above-cited section by January 1, 1993.

CFR Citation: 24 CFR 970

Legal Deadline: None

Abstract: This rule establishes procedures for the approval and funding of replacement housing for public housing units that have been demolished or disposed of. In addition, under this rule HUD may approve an application for demolition if the project is obsolete, making it unusable for housing purposes and if no reasonable program modifications are feasible to return the project to a useful life. The rule also requires HUD, in allocating assistance for public housing acquisition or development or for Section 8 moderate rehabilitation, to give consideration to housing that replaces demolished public housing units in accordance with an approved replacement plan. PHAs are prohibited from taking any action to demolish or dispose of public housing projects without obtaining HUD's approval and satisfying pertinent statutory requirements.

HUD—PIH **Final Rule Stage**

Abstract: This rule will establish the Public Housing Management Assessment Program (PHMAP) in accordance with Section 502 of the Cranston-Gonzalez National Housing Act (approved Nov. 28, 1990, PL 101-625, 104 Stat. 4079; hereinafter, "the Act"). Section 502 requires HUD to assesses the management performance of Public Housing Agencies (PHAs) in all major areas of management operations and designation troubled PHAs through the use of indicators, including six specifically listed in the section and any other indicators deemed appropriate by HUD. HUD is required to seek to enter into agreements with troubled PHAs to improve their management performance. In the event of a substantial default of such an agreement, HUD may petition for the appointment of a receiver or make other management changes for the troubled PHA. HUD is also authorized to commend exemplary PHAs.

PHMAP is intended to foster a uniform, nationwide level of excellence in public housing.

Abstract: HUD is proposing to terminate the Consolidated Supply Program (CSP), currently set out at 24 CFR Part 965, Subpart G. Under the

HUD—PIH

Final Rule Stage

CSP, HUD furnishes technical assistance to public housing agencies and Indian Housing Authorities in purchasing certain supplies, material, equipment, and services necessary for the development, operation and maintenance of low-income housing. The purpose of the rule is to terminate a program that HUD has found, after thorough analysis, to be structurally flawed and not cost effective.

Additional Information: The program requirements for the Comprehensive Grants Program were previously published in a proposed rule on October 27, 1988, (53 FR 43648). HUD has decided to republish the program requirements in this proposed rule to provide the public with an additional opportunity to comment. In addition, the rule would implement the formula method for allocating assistance to PHAs under the Comprehensive Grants Program (under Section 509 of the Cranston-Gonzalez) and would implement a one-time comprehensive modernization exception for the mutual Help Program (under Section 516 of the Cranston-Gonzalez Act).

Semiannual Agenda of Rules Scheduled for Review or Development

AGENCY: Office of the Secretary, Interior.

ACTION: Semiannual agenda of rules scheduled for review or development.

SUMMARY: This notice provides the semiannual agenda of rules scheduled for review or development between April and October 1991. An agenda is required by the Regulatory Flexibility Act and Executive Order 12291.

ADDRESSES: Unless otherwise indicated, all agency contacts are located at the Department of the Interior, 1849 C Street NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: All comments and inquiries with regard to these rules should be directed to the appropriate agency contact. General comments relating to the agenda should be directed to the Division of Directives and Regulatory Management, Office of Management Improvement, Department of the Interior, at the address above or on (202) 208-6191.

SUPPLEMENTARY INFORMATION: With this publication, the Department satisfies the requirement of Executive Order 12291 that the Department publish, in April and October of each year, an agenda of rules that have been issued or are expected to be issued and currently effective rules that are scheduled for review.

Simultaneously, the Department meets the requirement of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) that an agenda be published in April and October of each year identifying rules which will have significant economic effects on a substantial number of small entities; those rules which will have such effects are specifically identified in the agenda.

This agenda also identifies rules determined to be "significant" under Executive Order 12498 and which are included in this Department's 1991 regulatory program. A more comprehensive discussion of this program and the rules are contained in the Regulatory Program of the United States Government, which is published by the Office of Management and Budget.

Government Levels Affected: Undetermined

Procurement: This is a procurement-related action for which there is no statutory requirement. There is no paperwork burden associated with this action.

Additional Information: The previous RIN (1090-AA14) for miscellaneous revisions to the Department of the Interior Acquisition Regulation was used for the April 18, 1991, Federal Register publication of a revision in the acquisition regulation's numbering system. This office wishes at this time to reserve another agenda entry and RIN for the publication of future revisions to the Department of the Interior Acquisition Regulation.

1525. NATURAL RESOURCE DAMAGE ASSESSMENTS

Significance: Regulatory Program

Legal Authority: 42 USC 9651(c)

CFR Citation: 43 CFR 11

Legal Deadline: None

Abstract: The Department is currently revising its CERCLA type B procedures based on a court ruling. Section 301(c)(3) of CERCLA requires that the regulations be reviewed and revised, as appropriate, on a biennial basis. The Department will begin a review of the type B rule once it is revised. The Department will ask trustees, other interested parties, and members of the public to draw upon their experience with the type B procedures and the general assessment process to advise the Department of areas where revisions to the process and the type B procedures may be desired. If these comments and suggestions show areas where revisions to the general process or to the type B procedures are needed, a notice of proposed rulemaking will be issued to revise the rule. This review will be closely coordinated with the rulemaking of the National Oceanic and Atmospheric Administration (Commerce), which has responsibility

for natural resource damage assessment rulemaking under the Oil Pollution Act of 1990.

Legal Authority: 5 USC 301; OMB Circular A-110

CFR Citation: 43 CFR 12

Legal Deadline: None

Abstract: This proposed rule will implement in a regulatory format the Department's Implementation of OMB Circular A-110. Prior implementation has been limited to a reference to the applicability of the Circular. Since the revision currently under way provides an opportunity for executive agencies to use this format to facilitate the preparation of their regulations, the Department has decided to use this approach.

1527. ● UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS WITH STATE AND LOCAL GOVERNMENTS

Legal Authority: 5 USC 301; OMB Circular A-102

CFR Citation: 43 CFR 12

Legal Deadline: None

Abstract: This proposed rule will amend the Department's implementation of the common rule which established consistency and uniformity among Federal agencies in the administration of grants and cooperative agreements to State, local and federally recognized Indian tribal governments and was previously published in the March 11, 1988, Federal Register (53 FR 8034). This action is necessary because of efforts underway to revise the common rule.

Legal Authority: 5 USC 301; 40 USC 486(c); EO 12731

CFR Citation: 48 CFR 1403

Legal Deadline: None

Abstract: DOI is considering a rule that would prohibit contractors, cooperators and grantees from using Government awards as the basis for commercial advertising. This will avoid the appearance of an improper preference for a particular company, and would implement E.O. 12731's prohibition on the use of a public office for private gain.

1529. NATURAL RESOURCE DAMAGE ASSESSMENTS

Significance: Regulatory Program

Legal Authority: 42 USC 9651(c) CERCLA

CFR Citation: 43 CFR 11

Legal Deadline: None

42 USC 9651(c)(3) requires biennial review and revision as appropriate of the regulations.

Abstract: CERCLA allows natural resource trustees to bring a claim against a potentially responsible party for resources that have been injured by a release of a hazardous substance or, under certain circumstances, a discharge of oil. Section 301(c) (2) (A) calls for the promulgation of simplified assessment procedures. The Department has begun the development of a type A procedure for use in the Great Lakes environment. After a review of the natural resource damage assessment rule, the U.S. Circuit Court of Appeals for the District of Columbia remanded certain parts of that rule to the Department for revision. The court upheld the use of an interactive computer model, but stated that such a model should incorporate restoration or replacement costs and all reliably calculated lost use values in the damage calculations. The Department will revise its development of a type A procedure for Great Lakes environments to comply with the court's ruling.

Abstract: CERCLA allows natural resource trustees to bring a claim against a potentially responsible party for resources that have been injured by a release of a hazardous substance or, under certain circumstances, a discharge of oil. Section 301(c)(2)(A)) calls for the promulgation of simplified assessment procedures. The first type A procedure for coastal and marine environments uses a computer model known as the natural resource damage assessment model for coastal and marine environments (NRDAM/CME). The U.S. Circuit Court of Appeals for the District of Columbia upheld the use of an interactive computer model, but stated that such a model should incorporate restoration or replacement costs and all reliably calculated lost use values in the damage calculations. The Department will revise the type A procedure for coastal and marine environments to comply with the court's ruling and will incorporate changes in response to the first biennial review of the type A procedure at the same time.

Legal Deadline: None

Abstract: PL 98-620 amended 35 USC 18 dealing with patent rights in inventions made with Federal funding. On June 12, 1989, Federal Acquisition Regulation implementation of PL 98-620 was issued through FAC 84-48. Patent rights under Government contracts are covered in FAR Subpart 27.3. FAR 27.304-5(b) requires agencies to establish and publish their respective appeals, administrative due process, and fact-finding procedures related to patent rights. The proposed DIAR coverage establishes Department of the Interior policy with regard to title rights, exception determinations, appeals, greater rights determinations, retention of rights by inventors, assignment of rights, exercise of march-in rights and licensing to third parties. It also identifies key Departmental points of contact in matters concerning patent rights. The proposed coverage supplements FAC 84-48 and amends sections 14227 and 1452, as parts of 48 CFR, Chapter 14.

1533. NATURAL RESOURCE DAMAGE ASSESSMENTS

Significance: Regulatory Program

Legal Authority: 42 USC 9651(c) CERCLA

CFR Citation: 43 CFR 11

Legal Deadline: None
42 USC 9651(c)(3) requires biennial review and revision, as appropriate, of the regulations.

Abstract: CERCLA allows natural resource trustees to bring a claim against a potentially responsible party for resources that have been injured by a release of a hazardous substance or, under certain circumstances, a discharge of oil. Section 301(c)(2)(B) calls for the promulgation of a set of alternative protocols for the testing, sampling, and determining compensation for natural resource damages, referred to as the type B procedures. Final rules for the assessment of damages were promulgated by the Department consistent with those requirements. In a review of those rules, the U.S. Circuit Court of Appeals for the District of Columbia held that restoration or replacement costs are the basic measure of natural resource damages under CERCLA, and all reliably calculated lost use values of injured natural resources should also be recoverable, with no required hierarchy of methodologies for conducting those valuations. The Department is considering revisions to the proposed rule based on comments received as of July 16, 1991. The required biennial review of the Type B rule will await completion of this revision implementing the court ruling.

Abstract: This rule revises a rule published by the Department in the February 14, 1985 Federal Register (50 FR 6176). The rule implemented Governmentwide requirements established by the Office of Management and Budget under its circulars for the administration of assistance agreements. The revision also extends the scope of the rule to reference circulars which contain audit requirements. Since publication of this rule, several significant changes have occurred regarding Circulars A-102 and A-110. Since the changes to the circulars were done with public participation, proposed rulemaking procedures are considered unnecessary.

Abstract: The Oil Pollution Act of 1990 (the Act), Public Law 101-380, made numerous amendments to section 204(c) of the Trans-Alaska Pipeline Authorization Act, which created the Trans-Alaska Pipeline Liability Fund (Fund) in 1973. 43 U.S.C. 1653(c). The Act also provides that section 204(c) will be repealed upon completion of the Fund's work, and that coverage of the Fund is limited to oil spills occurring before the enactment of the Act. Further, the Act amends, for the remaining period of the Fund's life, section 204(c)'s provisions relating to a collection of the fee per barrel of oil loaded on a vessel, negligence of the United States, the nature of and computation of damages, payment of claims by the Fund, liability of officers of the Fund, and also provides for the disposition of funds remaining in the Fund upon the completion of the Fund's work. The Department intends to amend 43 CFR 29 to make its provisions consistent with the Act.

Abstract: The Title IX regulation is intended to address the problem of discrimination on the basis of sex in any education program or activity receiving or benefiting from Federal financial assistance administered by the Department of the Interior (DOI).

No alternative for addressing problems of discrimination in DOI's education programs can be considered due to the fact that Title IX requires each Federal agency which extends Federal financial assistance to any educational program or activity, to issue rules and regulations implementing Title IX.

DOI's recipients are anticipated to incur expenses in two (2) areas: (1) Data collection and recordkeeping; (2) rectifying areas of noncompliance with Title IX. With respect to DOI, expenses will be incurred in three (3) areas: (1) Development and publication of the Title IX rule; (2) Provision of technical assistance; and (3) Accomplishing compliance reviews and enforcement activities.

Abstract: The agency is proposing to add new regulations to 43 CFR Part 4 for determining, through intestate succession, the heirs of persons who died entitled to receive compensation pursuant to section 8(c) of the White Earth Reservation Land Settlement Act. The Act provides a method of resolving disputes concerning title to certain allotments of land on the White Earth Chippewa Indian Reservation in Minnesota. It defines circumstances by which title to an allotment may have been lost through a questionable tax forfeiture, sale, mortgage, or other taking or transfer during the applicable trust period. The Act directs the Secretary of the Interior to (1) identify the allotments or interests therein which were lost under such circumstances, (2) determine the individuals entitled to compensation for the loss of such allotments or interests therein, (3) ascertain the amount of compensation to which each such individual is entitled, and (4) pay them such amounts plus interest.

1549. IMPLEMENTATION OF KLAMATH RIVER BASIN FISHERY RESOURCES RESTORATION ACT

Legal Authority: 16 USC 460ss

CFR Citation: 50 CFR 72

Legal Deadline: None

Abstract: This rule implements the Klamath River Basin Fishery Resources Restoration Act. These include establishment of qualifications for volunteers, establishment of standards for determining the value of in-kind contributions and real and personal property provided by non-Federal sources to implement the conservation area restoration program, and establishment of the basis for determining whether matching funds will be provided in a timely and appropriate manner.

Legal Authority: PL 97-79 95 Stat. 073

CFR Citation: 50 CFR 14

Legal Deadline: None

Abstract: Section 9(d) of the Lacey Act Amendments of 1981 shifted the authority for prescribing requirements for the humane and healthful transport of wild mammals and birds from the Secretary of the Treasury to the Secretary of the Interior. A final rule promulgating this authority in 50 CFR 14, was published on November 10, 1987 (52 FR 43274). The Service proposes to amend the regulations for the purpose of incorporating improvements and clarifications.

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: Final, Statutory. In accordance with 16 USC 1533, the Service must take action (list, withdraw, or extend the rulemaking for six months) on a proposed listing no later than 1 year after such proposal.

Abstract: Regulations will be developed which would list, reclassify, or delist, as appropriate, certain species of fish, wildlife, and plants under the Endangered Species Act, and where prudent, would identify critical habitat for endangered and threatened species. Such actions are taken upon determination that species are endangered, threatened, or neither, and are based solely on the biological information available to the Department.

Significance: Regulatory Program

Legal Authority: 16 USC 1361 to 1407; 16 USC 1531 to 1544; 16 USC 4201 to 4245

CFR Citation: 50 CFR 17

Legal Deadline: NPRM, Judicial, April 29, 1991.
On February 26, 1991, the Court ordered the Service to issue a proposed rule on designating critical habitat by April 29, 1991, and to publish a final rule at the earliest possible time.

Abstract: The Service proposes to designate critical habitat for the Northern spotted owl (Strix occidentalis caurina), a subspecies federally listed as threatened under the Endangered Species Act, as amended. Located primarily on Federal land, and to a lesser extent on State and private lands, this proposed critical habitat designation would result in additional protection requirements under Section 7 of the Act with regard to activities that require Federal agency action.

1557. ● SEASONS AND BAG LIMITS FOR SUBSISTENCE MANAGEMENT REGULATIONS

Significance: Regulatory Program

Legal Authority: 16 USC 3111 to 3126

CFR Citation: 50 CFR 100

Legal Deadline: None

Abstract: This rule amends management regulations for subsistence hunting, trapping, and fishing on Federal lands in Alaska. The regulations implement the subsistence priority provisions for rural residents for Alaska under the Alaska National Interest Lands Conservation Act and provide for issuance of subsistence hunting, trapping, and fishing seasons and bag limits. Due to a decision by State court, management responsibility for subsistence taking of fish and wildlife was assumed by the Federal land management agencies in 1990.

This rule also provides for the seasonal bag limits and dates for subsistence hunting, trapping, and fishing on Federal lands in Alaska. The seasons and bag limits are developed in cooperation with State and local governmental entities to ensure that fish and wildlife populations in the State are adequately protected.

Additional Information: ANILCA requires the Secretaries of Interior and Agriculture to implement a joint program to grant a preference in favor of subsistence uses of fish and wildlife resources on public lands unless the State of Alaska enacts and implements laws of general applicability consistent with ANILCA's requirements. The State implemented such a program; however in December 1989, the Alaska Supreme Court ruled such program unconsitutional. As a result of that

decision, the Departments of Interior and Agriculture were required to take over the implementation of Title VIII of ANILCA on Federal lands on July 1, 1990. On June 29, 1990, the temporary Subsistence Management Regulations for Public Lands in Alaska were published in the Federal Register. The Service proposes to extend the temporary subsistence managements regulations to June 1992 in a separate rulemaking action.

1558. ENDANGERED AND THREATENED WILDLIFE AND PLANTS: DEFINITION OF VERTEBRATE POPULATIONS

Legal Authority: 16 USC 1531 to 1543

CFR Citation: 50 CFR 424

Legal Deadline: None

Abstract: The Endangered Species Act of 1973 allows the Secretary of Interior or Commerce to determine "any distinct population segment of any species of vertebrate fish or wildlife which interbreeds when mature" to be endangered or threatened. The agencies intend to provide guidelines as to what could be considered for listing, reclassification, or delisting under this Act with respect to vertebrate populations. Delineation of vertebrate populations will allow for protective measures under the Act to be applied or removed as needed for the conservation of the population.

1560. CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES OF WILD FAUNA AND FLORA (CITES)

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 23

Legal Deadline: None

Abstract: The Service proposes to amend 50 CFR 23, Subparts A and B to consider the following proposals recommended by the Conference of the Parties to the Convention on International Trade in Endangered Species of Wild Fauna and Flora: (1) Whether or not to reduce the paperwork burden for trade in certain hybrid plants. Such reduction would cause slight risks to wild plants, but a substantial reduction of administrative and public burdens. (2) Whether to require a fitness to travel checklist to reduce the high mortality/morbidity in the shipment of live animals. Processing such checklists would increase costs but would also increase awareness of live animals transport requirements/needs. (3) To allow innocent infractions of regulations to be cured by by issuance of permits retroactively. While such action would increase costs slightly, there would be slight reductions in the cost of processing violations and such action would encourage voluntary compliance.

Significance: Agency Priority

Legal Authority: 18 USC 42

Legal Authority: 16 USC 701 to 711; 16 USC 742(a) to 742(d); 16 USC 742(e) to 742(j); 16 USC 712

CFR Citation: 50 CFR 20

Legal Deadline: None

Abstract: There is a need to obtain better estimates of migratory bird harvests toward the end of aiding decisions affecting the ability to maintain populations at healthy levels. Names and addresses of a representative sample of migratory bird hunters are needed in order to develop improved surveys that are free from bias. The action will be to develop, through existing State and Federal hunter licensing activities, a more reliable sample of names and addresses of persons who hunt migratory birds than is currently available. One proposed alternative would require all migratory bird hunters to obtain and maintain in their possession a program card. Cards would be available through the State license vendors, with States having the option to charge a fee to recover administrative and distribution costs. More efficient and less costly means of acquiring the necessary names and addresses may exist. Therefore, the FWS will solicit recommendations for alternatives to the previously identified option. The main benefit of the proposed action will be to increase the quality and extent of migratory bird harvest information.

1564. ● ENDANGERED AND THREATENED WILDLIFE AND PLANTS: EMERGENCY RULE TO LIST THE KANAB AMBERSNAIL

Significance: Agency Priority

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: Final, Statutory. In accordance with 16 USC 1533, the Service must take action (list, withdraw, or extend the rulemaking for six months) on a proposed listing no later than 1 year after such proposal.

Abstract: The Service will exercise its emergency authority to determine the Kanab ambersnail to be an endangered species. Only two populations of this snail are known to exist, both on wetlands on private lands in Kane County, Utah. A status survey completed in 1991 discovered that one population is nearly extirpated, the other has been subjected to major habitat alteration and destruction. Both populations are exceptionally vulnerable to extinction from natural or human-caused events. Immediate listing would trigger the protections in Sections 7 and 9 of the Endangered Species Act. The Service finds that good cause exists to make this emergency rule effective upon publication. The emergency rule will implement Federal protection for 240 days. A proposed rule to list the Kanab ambersnail as endangered will follow this emergency rulemaking, and will allow for public comment.

1567. ● COMPATIBILITY OF PERMITTED USES ON NATIONAL WILDLIFE REFUGES

Legal Authority: 16 USC 668dd

CFR Citation: 50 CFR 25; 50 CFR 26; 50 CFR 29

Legal Deadline: None

Abstract: This rulemaking would revise portions of 50 CFR 25, 26 and 29 to define and provide standards for the compatibility of permitted uses on the National Wildlife Refuge System. Congress has expressed concern that all uses permitted on national wildlife refuges be consistently "compatible" with the purposes for which the respective refuges were established. This rulemaking would provide a uniform definition for "compatible" use and, consequently, allow enhanced protection to the national wildlife refuge system.

1568. ● APPLICATION FEES FOR CONTROLLED HUNTS ON NATIONAL WILDLIFE REFUGES

Legal Authority: 16 USC 668dd

CFR Citation: 50 CFR 25

Legal Deadline: None

Abstract: The popularity of controlled hunts has increased greatly over the last several years. Consequently, the number of applications for hunting permits has increased proportionately to such an extent that individual national wildlife refuges have been overburdened financially, and in terms of personnel work hours, with their review of such applications for permit eligibility and issuance. The purpose of this rulemaking is to provide a regulation that will pertain to the establishment of application fees for controlled hunts on national wildlife refuges. The establishment of an application fee would defray the additional burden placed upon the individual national wildlife refuge managing a controlled hunt.

Legal Authority: 16 USC 704; 16 USC 712

CFR Citation: 50 CFR 10.13

Legal Deadline: None

Abstract: The List of Migratory Birds found at 50 CFR 10.13 is being revised to (1) bring the list into conformity with generally accepted taxonomy and nomenclature--English (common) and scientific names, as reflected in four published supplements to the 6th (1983) edition of the American Ornithologists' Union Check-list of North American Birds; and, (2) add species that are of regular occurrence in the United States that are not included on the current list.

1570. ● CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES OF WILD FAUNA AND FLORA (ENDANGERED SPECIES CONVENTION)

Significance: Agency Priority

Legal Authority: 16 USC 1531 to 1543

CFR Citation: 50 CFR 23

Legal Deadline: Other, Judicial, September 18, 1991.
In accordance with Article XVI, paragraph 2 of the Convention, this addition will take effect 90 days after notification of all Party Nations.

Abstract: The Service adds the American black bear (Ursus americanus) to 50 CFR 23 purusant to its addition to Appendix III of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES or Convention). Any specimen of this species whether dead or alive including all readily recognizable parts and derivatives will be covered by the provisions of the Convention with the exception of the skull and/or skin with claws attached. This addition was initiated at the request of Canada. Appendix III comprises species subject to regulation in particular Party Nations that have requested the cooperation of other Parties in controlling trade in such species.

Additional Information: The Convention on International Trade in Endangered Species of Wild Fauna and Flora (Convention) regulates international trade in certain species of

animals and plants. Species for which trade is controlled are included in three appendices. Appendix I includes species threatened with extinction that are or may be affected by trade. Appendix II includes species that although not necessarily now threatened with extinction may become so unless trade in them is strictly controlled. It also lists species that must be subject to regulation in order that trade in other currently or potentially threatened species may be brought under effective control. Because the species covered in this rule will be added to Appendix III effective 9/18/91, the Service finds that good cause exists for making this rule effective upon the date that the species is added to Appendix III.

1575. PROPOSED DETERMINATION OF EXPERIMENTAL POPULATION STATUS FOR AN INTRODUCED POPULATION OF COLORADO SQUAWFISH

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: The Service proposes to introduce Colorado squawfish (Ptychocheilus lucius) into the lower Colorado River in Arizona and to determine the population to be "nonessential experimental" population according to Section 10(j) of the Endangered Species Act. The Service will propose a special rule to allow take in accordance with State law. In the past, Colorado squawfish were more widespread in the State of Arizona, occurring in several river drainages. This action is being taken in an effort to establish an additional population within the species' historic range.

Abstract: The Service proposes to revise 50 CFR 21 to add Kansas to the list of States participating in the joint Federal/State falconry permit system. The Director has determined that the falconry laws of the State meet or exceed the minimum Federal standards for the use of certain migratory birds for falconry. The proposed rule would permit the practice of falconry in that State.

1584. ENDANGERED AND THREATENED WILDLIFE AND PLANTS

Significance: Agency Priority

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: Final, Statutory. In accordance with 16 USC 1533, the Service must take action (list, withdraw, or extend the rulemaking for six months) on a proposed listing no later than one year after such proposal.

Abstract: Regulations will be developed which would list, reclassify, or delist, as appropriate, certain species of fish, wildlife, and plants under the Endangered Species Act, and where prudent, would identify critical habitat for endangered and threatened species. Such actions are taken upon determination that species are endangered, threatened or neither, and are based solely on the biological information available to the Department.

1586. IMPORTATION OR SHIPMENT OF INJURIOUS WILDLIFE; ZEBRA MUSSEL

Significance: Agency Priority

Legal Authority: 18 USC 42

CFR Citation: 50 CFR 16.13

Legal Deadline: None

Abstract: The Service will amend 50 CFR 16 by adding the Zebra mussel (Dreissena polymorpha) a small bivalve mollusk native to Europe, to the list of injurious fish, mollusks, and crustaceans. By this action, the Service will prohibit importation into, acquisition, or transportation of live Zebra mussels or viable eggs thereof between the continental United States, the District of Columbia, Hawaii, the Commonwealth of Puerto Rico, or any territory or possession of the United States.

Additional Information: The Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (H.R. 5390), was passed by Congress on October 27, 1990. Section 1208 of that law contains a provision that amends the Lacey Act (18 USC 42) by adding the Zebra mussel to the list of injurious animals contained therein. This requires the addition of the zebra mussel to implementing regulations in 50 CFR 16.13. Therefore, this rulemaking will be published in final and effective upon publication.

1587. ● ENDANGERED AND THREATENED WILDLIFE AND PLANTS - PROPOSED EXPERIMENTAL POPULATION DESIGNATION FOR THE RED WOLF

Significance: Agency Priority

Legal Authority: 16 USC 1531 to 1543

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: The Service proposes to determine a small number of red wolves as experimental and nonessential in the Great Smoky Mountains National Park (Park), North Carolina and Tennessee. The pro- posal also revises the current special rule for the experimental population on the Alligator River National Wildlife Refuge by adding an additional county to the area of experimental popula- tion designation and by changing the deadline for project evaluation. The species was successfully reintroduced in an experimental program at the Refuge in North Carolina in 1987. Since then, captive-born and raised animals have reproduced in the wild on the grounds of the Refuge. The Service expects mated pairs placed in the Park will have similar reproductive success. The absence of hunting and trapping within the Park, and lower vehicular traffic speed limits, increases the wolves' likelihood of survival.

1589. MARINE MAMMALS: NATIVE EXEMPTIONS

Legal Authority: 16 USC 1361 to 1407

CFR Citation: 50 CFR 18

Legal Deadline: None

Abstract: The Service proposes to amend the regulations in 50 CFR 18 implementing the Marine Mammal Protection Act of 1972 (the Act), 16 USC 1361-1407. The proposed rule would prohibit the taking of sea otters by Alaskan Natives for use in creating and selling authentic Native articles of handicrafts and clothing under the Native Exemptions section of the Act, 16 USC 1371(b).

Significance: Agency Priority

Legal Authority: 16 USC 701 to 718

CFR Citation: 50 CFR 20

Legal Deadline: None

Abstract: In 1979, the United States and Canada signed a protocol to amend the 1916 treaty concerning management of migratory birds. The protocol initiated efforts to recognize historical native subsistence of such birds. A rule will be developed to implement this international agreement.

Abstract: This rulemaking is the culmination of a phased, 6-year coordinated effort by the States and the Federal Government to eliminate lead poisoning among certain migratory birds by discontinuing the use of lead shot in favor of steel shot for taking waterfowl, coots and certain other species during the open seasons. This nationwide conversion in 1991-92 results from an SEIS completed in mid-1986 that considered the alternatives, as well as the costs/benefits of the various actions.

Legal Authority: 16 USC 101(a)(4); 16 USC 109(h)

CFR Citation: 50 CFR 18.22; 50 CFR 18.24

Legal Deadline: None

Abstract: The Service will develop regulations to implement provisions contained in the 1981 and 1988 amendments to the Marine Mammal Protection Act that amend Section 109(h) of the Act to: (1) allow the taking of marine mammals by Federal, in addition to the State, or local, government officials under certain conditions; and (2) allow importation of marine mammals into the United States in order to render medical treatment that is not otherwise available.

Additional Information: The proposed rulemaking published April 12, 1988 (53 FR 12043) addressed two issues: (1) the provisions of Section 101(a)(4) of the Marine Mammal Protection Act (Act), as amended in 1981 authorizing incidental take of non-depleted marine mammals during commercial fishing operations; and (2) the taking of marine mammals by Federal, State, or local government officials under certain conditions. The 1988 amendments to the Act created an interim 5-year incidental take exemption for the commercial fisheries, thus essentially negating the 1981 amendments to Sec. 101 of the Act. Development of regulations for commercial fisheries is not necessary, and will not be done at this time.

Legal Deadline: Final, Statutory. In accordance with 16 U.S.C. 1533, the Service must take action (list, withdraw, or extend the rulemaking for six months) on a proposed listing no later than one year after such proposal.

Abstract: Regulations will be developed which would list, reclassify, or delist, as appropriate certain species of fish, wildlife and plants under the Endangered Species Act, and where prudent, would identify critical habitat for endangered and threatened species. Such actions are taken upon determination that species are endangered, threatened, or neither and are based solely on the biological information available to the Department.

Abstract: The Service proposes to amend the special regulation allowing a maximum of 5,000 nuisance Utah prairie dog (Cynomys parvidens) to be taken annually between June 1 and December 31 in parts of the Cedar and Parowan Valleys in Utah under permits issued by the Utah Division of Wildlife Resources. The amended regulation would expand the area of take to include all private land throughout the range of the Utah prairie dog. Also, the quarterly reporting requirement would be replaced by a requirement to make the State's records on permitted take available to the Service, on request.

Abstract: The Service has received a request from Shell Western E & P Inc., to issue regulations to allow the incidental take of small numbers of polar bears and walrus during oil and gas exploratory activities in Alaska State waters and on the Outer Continental Shelf during the open water season in the Chukchi Sea adjacent to the coast of Alaska over the next 5 years. The Secretary of the Interior is required by the Marine Mammal Protection Act to consider such requests, and to prescribe regulations setting forth permissible methods of taking that will have a negligible impact on the species, stock, and its habitat and on the availability of the species for subsistence uses.

Significance: Agency Priority

Legal Authority: 16 USC 460k; 16 USC 668dd

CFR Citation: 50 CFR 32

Legal Deadline: None

Abstract: The Service proposes to amend refuge-specific regulations in 50 CFR 32 to require the use of non-toxic shot on 37 Pacific Region (Region 1) national wildlife refuges for snipe and/or selected upland game bird hunting beginning with the 1991-92 season. The general purpose of this rule is to further reduce the number of migratory bird deaths caused by ingestion of spent lead shot. The majority of the refuges in this region open to hunting birds are located in low rainfall areas; consequently, most of the upland game bird cover is in/and adjacent to wetlands. This hunting contributes to the degradation of the aquatic environment and increases the risk of lead exposure for migratory birds.

1605. MIGRATORY BIRD HUNTING: REGULATIONS FOR CERTAIN FEDERAL INDIAN RESERVATIONS AND CEDED LANDS

Significance: Regulatory Program

Legal Authority: 16 USC 703 to 711

CFR Citation: 50 CFR 20

Legal Deadline: None

Abstract: The Service annually publishes a series of documents establishing migratory bird hunting proposals for the current hunting season. This annual process consists of proposed frameworks providing outside limits for dates and hours of shooting, as well as bag possession limits; final frameworks for hunting seasons from which States may select regulations; and final rules approving such State selections. In this coming season, for the first time, the final hunting regulations that will be established for Indian tribes will have separate rulemakings for early and late seasons. In the past, in these regulations, little detail has been included with only, in many instances, references to unfinalized State regulations and final Federal frameworks. Thus, the Service is modifying the tribal regulations procedure somewhat in an attempt to allow the final regulations to better stand alone, and thus, provide greater clarity of requirement with regard to season dates, season lengths, and bag/possession limits. E.O. 12291: These rules are major because of the economic values associated with migratory game bird hunting; however, the need to obtain and consider the latest population data for these migratory birds requires that the regulatory schedule be shortened. CFR Citation: 36 CFR 9

Legal Deadline: Final, Statutory, January 29, 1989.
Section 8 of the Big Cypress National Preserve Addition Act directs the Secretary of the Interior to promulgate regulations governing nonfederal oil and gas development by 1/29/89.

Abstract: Several sections of 36 CFR Part 9, Subpart B contain ambiguous language which has caused confusion in interpreting the existing regulations. The NPS wants to make technical revisions to clarify requirements for both applicants and the Service. Also, the existing regulations exempt two classes of operators from compliance. Because of these exemptions, the regulations apply to only 30% of the existing operations resulting in avoidable impacts to park resources and visitor values from unregulated operations. Finally, the Service intends to propose revisions to the existing regulations to incorporate congressionally mandated requirements and timetables governing nonfederal oil and gas development in the Big Cypress National Preserve Addition. Examples of such revisions include: making the regulations applicable to all oil and gas operations within all units of the National Park System; updating terms for consistency with existing policies, practices, and laws; and removing the monetary ceiling and floor on bonds and security deposits so that bonds may be calculated and posted commensurate with reclamation costs.

Significance: Agency Priority

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 7.13

Legal Deadline: None

Abstract: The proposed regulation will exempt the section of U.S. 191 within Yellowstone National Park from the prohibition on the use of National Park Service roads by commercial vehicles when such use has in no way a connection with operation of the park; delete the special regulations establishing the speed limit on U.S. 191 within Yellowstone National Park; and restrict the amount and type of hazardous materials which may be transported on U.S. 191 within Yellowstone National Park. The special regulation establishing the present fee schedule for commercial traffic within Yellowstone will be eliminated and the Superintendent provided the discretion to establish and adjust fees for such use on an annual basis.

These actions will clearly define the management and regulation of commercial traffic on U.S. 191 through Yellowstone and assure a certain measure of protection against hazardous waste spills.

Legal Authority: 16 USC 1; 16 USC 3; 16 USC 9a; 16 USC 460(q); 16 USC 462(k); DC Code 8-137; DC Code 40-721

CFR Citation: 36 CFR 7.96

Legal Deadline: None

Abstract: The National Park Service proposed rule and policy statement with request for comments relates to special events in the National Capital Region. A variety of special events, such as festivals and private rented events have occurred on park land for some time. These events have increased in number and size and have caused a strain on limited park resources and on the National Capital Region budget. The proposed rule would limit the number and size of festivals and private rented events, limit sales at such events, and require sponsors of the events to bear any unbudgeted costs of the National Park Service.

Significance: Agency Priority

Legal Authority: 16 USC 1901 et seq Mining in the Parks Act of 1976; 16 USC 1 et seq NPS Organic Act; 30 USC 21 et seq Mining Law of 1872

CFR Citation: 36 CFR 9, "Subpart A"

Legal Deadline: None

Abstract: The existing regulations at 36 CFR Part 9, Subpart A, promulgated in January of 1977, contain a provision regarding the use of water in connection with mining claims within National Park System units that creates a "catch 22" for miners seeking to use water in connection with their claims. In order to use water in a park, a miner must have a perfected water right. However, to obtain a perfected water right, a miner must use water. Herein lies the "catch 22." The National Park Service would like to rectify this dilemma through a rule change that would eliminate the perfected water right language while at the same time preserve the Service's ability to protect water quality and quantity.

1628. ALASKA REGION: SAME-DAY-AIRBORNE HUNTING REGULATIONS

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 13.21

Legal Deadline: None

Abstract: The National Park Service is proposing rules what will prohibit the hunting of certain wildlife species in the National Preserve areas in Alaska on the same day in which a hunter is airborne. Hunting will continue to be allowed pursuant to State and Federal regulations. Access to those areas by aircraft for sport hunting and other purposes is also allowed. While the State of Alaska has a similar regulation in place, commonly referred to as the "same-day-airborne" regulation, recent changes to their regulation have allowed exceptions for some species in certain State of Alaska game management units including the National Preserve areas. This exception will allow "land-and-shoot" hunting of wolves in the National Preserves. The proposed National Park Service regulation will prohibit "land-and-shoot" hunting for big game including the following species: All species of Bears, Bison, Caribou, Elk, Mountain Goat, Moose, Musk Oxen, Dall Sheep, Wolf, Wolverine, Coyote, Arctic and Red Fox, and Lynx.

Abstract: The National Park Service proposed rule and policy statement with request for comments relates to a prohibition of storage of property in Lafayette Park. An earlier rule of the Park Service which restricted the storage of property in the park was overruled in U.S. v. Picciotto, 875 F. 2d 345 (D.C. Cir. 1989) because the rule had not been published for notice and comment under the Administrative Procedure Act. This proposed rule will comply with the Administrative Procedure Act and attempts to meet the substantial Government interest in aesthetics and preservation of park resources by limiting the storage of property in Lafayette Park.

1644. SEQUOIA AND KINGS CANYON NATIONAL PARKS: FISHING REGULATIONS

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 7.8

Legal Deadline: None

Abstract: The proposed rulemaking would revise the Parks' fishing regulation. The changes would simplify existing fishing regulation, maintain the existing variety of recreational fishing opportunities, help restore the natural distribution and abundance of native species, help retard expansion of introduced species, and open most streams to fishing which are currently closed. Anglers would have to be able to identify fish they kept, and in some areas they would be required to use single barbless hooks.

CFR Citation: 36 CFR 9, "Subpart D"

Legal Deadline: None

Abstract: Under Section 1010 of the Alaska National Interests Lands Conservation Act of 1980, Congress directed the Secretary of the Interior to assess the mineral potential of all Federal lands in Alaska, including those lands set aside as conservation system units (e.g., units of the National Park System). Congress further directed the Secretary to develop regulations to govern the con of mineral resource assessments in conservation system units. The purpose of the regulations is to ensure that the mineral assessments are conducted in an environmentally sound manner that protects the natural systems of units of the National Park System and are compatible with the purposes for which the units are established.

CFR Citation: 25 CFR 225; 25 CFR 211; 25 CFR 212

Legal Deadline: None

Abstract: The Bureau proposes to publish regulations in 25 CFR Part 225 that will govern mineral agreements for the development of Indian owned oil and gas resources pursuant to the Indian Mineral Development Act of 1982, Public Law 97-382. This Act authorizes the tribes to enter into negotiated agreements rather than go through the previously required competitive advertising procedure.

The regulations in 25 CFR Part 211 govern contracts for the prospecting and mining of Indian-owned minerals, other than oil and gas. Revisions will be made which would combine rules for the review and approval of mineral development contracts on both tribal and allotted lands into one part. This part has been redesignated from 25 CFR Part 171.

As a result of the public comments on the previously proposed rules for 25 CFR Parts 211 and 225, it has been determined that 25 CFR Part 212 will not be removed. Public response to the proposed rule contained reasonable and compelling arguments for retaining 25 CFR Part 212 and for restructuring the format of the regulation. 25 CFR Part 212 will not be removed. Abstract: This rulemaking action is to add a new Part 70 to govern the issuance of Certificates of Degree of Indian Blood (CDIB's). There has been a sharp increase in the number of requests for CDIB's over the past few years. More and more programs are requiring individuals to submit CDIB's to document possession of Indian blood. This rulemaking action is intended to clarify the circumstances under which the Bureau will issue CDIB's; the documents and records on which the Bureau will base the issuance of CDIB's; and the procedures that individuals will need to follow, including any documentation requirements, to obtain CDIB's.

Legal Deadline: NPRM, Statutory, August 5, 1989. Final, Statutory, October 5, 1989.

Abstract: The primary purpose of the amendments to 93 USC 638 is to permit an orderly transition from Federal domination of programs for and services to Indians to effective and meaningful participation by the Indian people in the planning, conduct, and administration of those programs and services while maintaining the Federal Government's unique and continuing relationship with and responsibility to individual Indian tribes and to the Indian people as a whole. In addition to extensive consultation with the tribes and Native American groups, the Bureau of Indian Affairs is examining all of its planning administrative procedures from the perspective of maximizing tribal participation. Due to the broad scope of the review, an estimate of the potential cost and potential benefit is premature. The changes are one of process rather than increases or decreases in budget or program funding.

Significance: Regulatory Program

Legal Authority: 20 USC 3385; 25 USC 2003

CFR Citation: 25 CFR 35

Legal Deadline: None

Abstract: Publication of this proposed rule is necessary so that tribes, tribal organizations, and consortia of tribes who have combined memberships of 500 members or more may provide the necessary services to parents and children under six years old whose needs are not being met by existing programs. National studies show that for every dollar spent on early childhood development programs there is a return of six dollars. The benefits include increasing the literacy rate, the graduation rate, and the rate of enrollment in higher education. High quality early childhood programs can also decrease the rate of cognitive learning and emotional handicaps; teenage pregnancy; welfare dependency and the incidence of arrest and juvenile delinquency.

CFR Citation: 25 CFR 214

Legal Deadline: None

Abstract: The BIA is proposing to revise the regulations at 25 CFR 214 governing management of non-oil and gas minerals on Osage Reservation Lands in Oklahoma. The proposed revisions eliminate specific royalties for minerals not found within the Osage Mineral estate and give authority to the Osage Tribal Council, with the approval of the Superintendent of the Osage Agency, to to set applicable royalty rates. This revision also replaces outmoded methods of exchange with modern methods, and correctly designates those officials responsible

for the management of non-oil and gas minerals within the Osage Mineral estate. The proposed revisions are intended to enhance the management ability of the Department over the production of these minerals, and to eliminate various inaccuracies in the current regulations.

Legal Authority: PL 66-359; PL 75-39

CFR Citation: 25 CFR 215

Legal Deadline: None

Abstract: BIA proposes to amend 25 CFR 215 to update the operations and procedures for leasing, discovery, testing, processing, developing, mining and processing lead and zinc minerals on lands under the jurisdiction of the Bureau's Miami Agency in Ottawa County, Oklahoma. Current regulations governing such leases were developed over 30 years ago and no longer reflect current practices or standards in the mining industry. The proposed revisions will assist affected Indians with the efficient development of their lead and zinc deposits without waste, avoidable loss or damage to their natural resources, the environment, or other resources. The Bureau also proposes to retitle 25 CFR 215 as "Lead and Zinc Mining Operations and Leases, Miami Agency."

CFR Citation: 25 CFR 50

Legal Deadline: None

Abstract: This proposed rule establishes a new part containing requirements for determining whether plant conditions at Bureau-funded schools are an immediate hazard to health and safety. The Bureau is required to develop rules for a safety and health inspection program by PL 100-297, which states that schools may be closed or consolidated, or programs substantially curtailed, for plant conditions constituting an immediate hazard to health or safety only if a Bureau health and safety officer determines that such conditions exist. This rule is administrative in nature and outlines the responsibilities of the Division of Safety Management for conducting safety and health inspections.

Abstract: The Bureau of Indian Affairs has recently revised its regulations governing Courts of Indian Offenses to provide those courts with an updated code of laws and to clarify the jurisdiction of those courts and their relationships to tribal governments and the Department of the Interior.

New provisions concern drug abuse, abuse of psychotoxic substances, child abuse prostitution, domestic violence and increased maximum penalties for various offenses in the Code. Other added provisions include a change in the method of listing Indian reservations to which the Code applies, together with a repeal of the supersession provision by which tribal ordinances, inconsistent with the regulations, may override the Code's text. A clarifying provision on jurisdictional limitations is added, specifically excluding from jurisdiction under this part Federal employees acting within the scope of their employment.

1687. LAW AND ORDER ON INDIAN RESERVATIONS

Significance: Agency Priority

Legal Authority: 25 USC 2; 25 USC 9; 25 USC 13

CFR Citation: 25 CFR 11

Legal Deadline: None

Abstract: The present regulations contain an incomplete criminal code that does not cover many areas of the law that are usually in the laws of the States where the reservation is located. The current regulations also contain very sketchy provisions on criminal and civil procedure. This rule proposes to update the sections on criminal offenses and create new sections on criminal procedures, domestic relations, probate proceedings, appellate proceedings and juvenile proceedings. This will provide the Courts with more complete and up-to-date proceedings and rules. Courts will have a six month period from the date of publication of the final rule to the effective date in which to revise their court codes. It is not anticipated that this revision will have any effect on the annual caseload for these courts or routine additional staffing. Therefore, the initiation of these rules should not result in additional costs.

Significance: Agency Priority

Legal Authority: 31 USC 9701 (b); 25 USC 2; 25 USC 13; 25 USC 413

CFR Citation: 25 CFR 143

Legal Deadline: None

Abstract: This interim rule will give the Bureau authority to bill and collect for services currently provided to non-Federal users. These rules must be promulgated before fees are charged by the Bureau for services and goods to non-Federal users under the Independent Offices Appropriations Act. Billing and collecting for the goods and services will not increase or decrease the current appropriated funding level. This rule is only to clarify the legality of the process that is already in effect. Since less than 90 locations will be affected, this rule will not have a significant effect on the national economy.

Significance: Agency Priority

Legal Authority: 25 USC 465; 25 USC 2202

CFR Citation: 25 CFR 151

Legal Deadline: None

Abstract: This proposed rule will provide stronger and more consistent guidelines for reviewing trust applications than the current case-by-case review, which uses general criteria. The Secretary of the Interior announced on July 19, 1990, a new policy for Indian Tribes acquiring in trust for gaming and non-gaming purposes lands contiguous to or outside the tribe's existing reservation boundaries. This proposed revision will add two new sets of criteria that will be used in evaluating tribal off-reservation acquisition for gaming and non-gaming purposes.

Legal Authority: 5 USC 301; 25 USC 2; 25 USC 9; 25 USC 13

CFR Citation: 25 CFR 11

Legal Deadline: None

Abstract: As a result of recent decisions by Federal and State courts, questions have been raised on whether the State of Oklahoma possesses criminal jurisdiction over offenses committed by Indians on certain Indian lands in the former Indian Territory, the historic realm of the Five Civilized Tribes, and what now constitutes 40 counties in eastern Oklahoma. The unfortunate effect of these decisions is to create a jurisdictional void since state police officers are reluctant or unwilling to prosecute Indian crimes committed on Indian lands. Moreover, none of the Indian tribes in the Muskogee Area has tribal courts to exercise criminal jurisdiction over misdemeanors committed by Indians on Indian lands. Therefore it is necessary for the BIA to establish a Court of Indian Offenses for the Muskogee Area to protect the lives, persons and property of people residing on Indian country lands.

Abstract: The Bureau of Indian Affairs is revising 25 CFR Part 39.124 to reflect those changes necessary to implement formula funding for the OLEP Agency and Area education offices.

Specifically, the regulations will provide area and agency education offices uniform funding based on a workload formula that considers the number and size of the education programs and the number of students and schools administered by the education office.

Significance: Regulatory Program

Legal Authority: 5 USC 301

CFR Citation: 25 CFR 175; 25 CFR 176; 25 CFR 177

Legal Deadline: None

Abstract: This proposed rule consolidates and revises former CFR parts 175, 176, and 177 to promote consistent and effective administration of utilities and to provide for public hearing and review of the rate setting process in a timely manner. Indian electric power utilities are required to

maintain budgets that do not reflect deficiencies due to operating, maintenance, and replacement costs. The former rules normally require one to two years to implement rate adjustments, and the resulting delays have caused revenue shortages. The revised rules will enable power rate adjustments to be made in a timely manner by the Area Director after public notice, comment, and hearing period. The rule revision also allows for appeals to be heard by the Interior Board of Indian Appeals. Under the revised rule all rate adjustments are made after a public notice, comment, and hearing period. Rate adjustments are predominately the result of the cost of labor, materials, equipment, power, and services. Increases or decreases in the cost of electric service will affect all customers served by the utility.

Abstract: The BIA has no existing rules to support program changes as specified in the 1988 amendments to the Indian Financing Act of 1974 (25 USC 1498). Requirements for eligibility and procedures for participating in these new programs must be announced to the public. To enable public participation in these programs the BIA must inform the public of provisions for new guaranty authority contained in the 1988 Amendments. The BIA is currently analyzing its financial programs and the requirements for eligibility and procedures for participating in these programs. New action dates may be initiated once the BIA's analysis has been completed. Accordingly, the next action is undetermined.

Abstract: To enable full public participation in the new programs established by the 1988 amendments to the Indian Financing Act of 1974 (25 USC 1498), requirements for eligibility and procedures for participation in these programs must be announced. 1700. INDIAN BUSINESS DEVELOPMENT PROGRAM

Significance: Agency Priority

Legal Authority: 25 USC 1524

CFR Citation: 25 CFR 286

Legal Deadline: None

Abstract: This proposed revision is to revise section 286.17(b) of proposed rule 25 CFR 286, "Indian Business Development Program," which says that a grant may be made only to an applicant who is able to obtain at least 60 percent of the necessary financing from other sources. The Bureau of Indian Affairs (BIA) has required applicants to provide at least 75 percent of necessary financing since appropriations for IBDP (Indian Business Development Program) were reauthorized in 1984. From 1983 to 1985 the BIA administered a similar business development grant program called Special Grants for Economic Development (25 CFR 278) under authority of the Snyder Act. The IBDP supplants that program. Part 273 required 75 percent of project costs from non-Federal sources. Since 1983, we have been requiring 75 percent matching funds and this revision is to reflect this requirement. Since this policy has been in practice there will be no significant change as far as potential cost or benefit due to this revision.

CFR Citation: 30 CFR 202

Legal Deadline: None

Abstract: The current gas valuation regulations provided that when the lessee of any gas lease committed to a Federally approved unitization or communitization agreement does not take the full share of production under the terms of the agreement, the entitled, but not taken, production is still subject to royalty payment and reporting requirements. This rulemaking would eliminate the requirement that the actual disposition of any part of production to which a lessee was entitled but did not take governs the valuation of that part. Under the rulemaking, the regulations would be amended to allow lessees to value their entitled, but not taken, production at prices based upon information that is accessible to the lessee. This rule will reduce the administrative burden for payors and MMS so that there is certainty in the determination of royalty values. The adoption of these rules would not affect the requirement in Indian leases and the current regulations for the performance of major portion analyses or dual accounting.

Abstract: The rules at 30 CFR 250.22(c) are being evaluated to determine whether the requirements for the operation and maintenance of cranes installed on fixed platforms are adequate to promote safety on the Outer Continental Shelf. The advance NPRM will discuss current maintenance, testing, and inspection requirements contained in the regulations through incorporation by reference of the American Petroleum Institute's Recommended Practice for Operation and Maintenance of Offshore Cranes (API RP 2D). Alternative rules will be discussed in the notice. The advance NPRM will also discuss training, crane operator qualifications, and the need for certifying crane operators. The oil and gas industry and general public will be requested to comment and make recommendations concerning regulation of cranes on offshore platforms.

Abstract: The existing regulations provide for the valuation of unprocessed gas, residue gas, or any gas plant product which is not sold

pursuant to an arm's-length contract to be determined in accordance with a benchmark method. In the final regulations, MMS adopted as the first benchmark the lessee's gross proceeds received under its non-arm's-length transaction if they were equivalent to the gross proceeds received under comparable arm's-length contracts for like-quality production in the same field or area. The criteria to be considered in defining comparable contracts were also outlined. However, since the adoption of the revised regulations, numerous questions have been raised as to the interpretation of the first benchmark. These questions have identified the need to further clarify MMS's intention in this regard.

Abstract: Sections 206.104, 206.157, 206.158, and 206.159 of Minerals Management Service's Oil and Gas Valuation regulations, which were effective March 1, 1988, allow deductions for transportation and processing costs, limited to "reasonable actual costs," with an MMS approval threshold(s). Paragraph 206.158(d)(2) authorizes an additional allowance if the lessee incurs extraordinary costs for processing gas production and can demonstrate that the costs are "extraordinary, unusual, or unconventional." Amendments are needed to MMS's regulations to establish the criteria that must be met before any extraordinary gas processing cost allowance would be granted and to revise the MMS approval thresholds for transportation and processing allowances, if needed, based on actual experience since the effective date of the regulations. Amendments may also be needed to establish criteria for any extraordinary cost allowances that may be granted for other minerals such as oil, coal, and geothermal.

Abstract: The Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA) requires that the Secretary of the Interior establish a comprehensive inspection and auditing system to provide the capability to accurately determine royalties, interest, fines, penalties, fees, deposits, and other payments owed on Federal or Indian oil and gas leases. This responsibility has been delegated to MMS. However, performance of the required audits may be delegated to States or Indian tribes pursuant to sections 202 and 205 of FOGRMA or to independent certified public accountants under contract. The FOGRMA also requires the promulgation of regulations to establish audit standards and procedures, payor requirements and responsibilities, and authorities and responsibilities which may be delegated by MMS to a State, Indian tribe, or an independent certified public accountant. The purpose of this rulemaking action is to establish the regulations required by FOGRMA.

Abstract: Responsibilities of Minerals Management Service include the collection of royalties, bonuses, rentals, and related revenues from Federal and Indian mineral leases. These monies are, for the most part, collected from the current designated payor on the lease. However, if MMS is unable to collect from the current payor, it must pursue collections from a prior payor(s), the lessee, or an assignee of the lease. Existing regulations are unclear as to the responsibilities and liabilities of the parties involved. Therefore, MMS is proposing to amend its regulations to clarify payor, lessee, and assignee requirements and responsibilities.

1708. AMENDMENTS TO 30 CFR 250.67 - HYDROGEN SULFIDE

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.67

Legal Deadline: None

Abstract: The rules for Hydrogen Sulfide are being amended to revise the requirements for visual and audible warning systems, personnel protection, hydrogen sulfide (H2S) and sulphur dioxide (SO2) detection and monitoring, and the criteria for the activation of visual and audible warning systems. These amendments are necessary to be consistent with the new personnel exposure limits for H2S and SO2 established by the Occupational Safety and Health Administration. Amending the rule would reduce personnel exposure limits, thereby decreasing the risks associated with hazardous environments. An NPRM was published in the Federal Register on August 15, 1990 (55 FR 33326), soliciting comments. The comments received were reviewed and revisions were written. Due to the extensive nature of the revisions, a decision was made to repropose the rule soliciting further comments. The costs to lessees to implement these amendments are not expected to significantly increase over the costs of complying with the current program.

1709. AMENDMENT TO RULES GOVERNING INSTALLATION OF SHUTDOWN VALVES ON PIPELINES

Legal Authority: 43 USC 1331 et seq

CFR Citation: 30 CFR 250.154

Legal Deadline: None

Abstract: The development of this notice of proposed rulemaking resulted from the recommendation of a task force that examined many contributing causes to recent fatal accidents in the North Sea and the Gulf of Mexico. The task force identified areas where changes in regulations should be considered. This action considers changes to the regulations concerning better communication among personnel, protection of pipeline risers, safe fuel storage, fire survivability of the accommodation, and the placement of shutdown valves on pipelines as a means to isolate the pressurized hydrocarbons in the pipeline from potential danger that could result from a fire or other damage to the pipeline. An alternative is to leave the rules unchanged.

Legal Authority: 43 USC 1331 et seq; 42 USC 4332 et seq

CFR Citation: 30 CFR 251

Legal Deadline: None

Abstract: This rule is revised to reflect the current requirements and practices and to conform with new or changed laws and regulations. It expands the requirements for filing notice to include all geological and geophysical research not conducted pursuant to a permit. It clarifies that these regulations are applicable only to oil, gas, and sulphur, as all other mineral resources on the Outer Continental Shelf are covered by 30 CFR Part 280. This rule will provide other pertinent information, such as current filing location addresses.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 256.47(e)

Legal Deadline: None

Abstract: The proposed amendment to 30 CFR Part 256 pertains specifically to Section 256.47(e)(2). The current regulations require that all bid evaluations be completed 90 days from the date of sale or, with no exceptions, the bid is automatically rejected. Occasionally, 90 days does not allow adequate time to obtain legal or administrative clearance pertaining to a tract or a bid. The amendment would authorize the Director to extend the present 90-day time period for a period not to exceed an additional 90 days.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.153

Legal Deadline: Final, Statutory, May 18, 1992.

Abstract: P.L. 101-599 requires that the Secretary of Transportation establish standards to ensure continued burial of offshore pipelines lying between the mean high water mark and the point where the subsurface is under 15 feet of water as measured from mean low water. The Department of the Interior has jurisdiction over gathering pipelines on Federal offshore oil and gas leases. The Minerals Management Service will promulgate burial and inspection regulations for these pipelines. As of September 1989, there were 292 platforms on Federal leases in the Gulf of Mexico that were installed in water depths of between 7 and 16 feet.

Legal Authority: 43 USC 1337(a)(3)

CFR Citation: 30 CFR 203.50; 30 CFR 257.57

Legal Deadline: None

Abstract: Existing regulations at 30 CFR 203.50 would be amended to cross reference 30 CFR 256.57. The substance of the existing regulations would be recodified at 30 CFR 256.57 and amended to broaden the rules to include enhanced oil recovery projects as recommended by the General Accounting Office as well as to encourage investment in economically borderline new production on existing producing leases. The rule would retain current incentives to continue production that has declined to its economic limit. The rule could result in a substantial increase in production of otherwise unrecoverable oil and gas. The alternative would be to leave the existing regulations in place.

CFR Citation: 30 CFR 243

Legal Deadline: None

Abstract: The MMS regulations at 30 CFR 243.2 address the effectiveness of its Royalty Management Program decisions and orders pending administrative appeal. At the time the rule was issued in 1984, it was MMS's interpretation that most decisions and orders would not be suspended pending appeal. However, in 1986, the Interior Board of Land Appeals (IBLA) determined that unless there were special circumstances, the Director, MMS, was required to stay effectiveness of decisions and orders pending appeal provided the appellant posted adequate surety (Marathon Oil Company, 90 IBLA 236 (1986)). In view of the IBLA decision, an amendment is needed to MMS regulations at 30 CFR 243.2 to reflect clearly that MMS decisions and orders are stayed pending administrative appeal, the types of sureties which would be acceptable to MMS, and related issues.

Abstract: Existing regulations governing the valuation of geothermal resources provide insufficient guidance for the valuation of geothermal resources utilized to generate electricity in a lessee-owned power plant. Consequently, the Minerals Management Service has issued a report entitled "Valuation of Federal Geothermal Resources--Electrical Generation" which describes a "geothermal netback procedure" to value these "no sales" resources. An amendment is needed to the existing regulations to provide regulatory guidance after receipt and consideration of comments from the public to the existing geothermal netback procedure.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.18

Legal Deadline: None

Abstract: The rule is intended to remove apparent inconsistencies in current regulations concerning the release of data and information submitted to MMS on certain MMS forms. Section 250.18 specifies periods of time that certain geological and geophysical data will be protected from disclosure to the public when submitted on specific forms, but release dates for similar data and information on other forms are not mentioned in the regulations. The alternatives of providing guidance through an OCS Order and through a Notice to Lessees and Operators on a region-to-region basis does not ensure that information is uniformly available to the public. This rulemaking does not involve any significant additional costs. Its benefits are the removal of ambiguity in the current regulations and the availability of data and information to the public on a uniform basis in all OCS Regions.

CFR Citation: 30 CFR 218

Legal Deadline: None

Abstract: The MMS Auditing and Financial System (AFS) matches and applies each payment received to its corresponding report or bill. If a payment cannot be automatically matched and applied by the AFS because of inadequate or erroneous information, it must be manually

matched and applied by MMS personnel. The manual matching of payments to reports and bills results in MMS incurring substantial costs so that the AFS can operate properly to account for and distribute royalties. This situation also delays the payment application process and can result in delay in distribution of royalties and related information to States and Indian Tribes and allottees. To recover the costs, MMS is proposing to amend its regulations to add a new assessment amount not to exceed $250 per incident. The new assessment would encourage payors to submit their payment, when required, together with the applicable report or copy of the bill and for the same amount as the report or bill. The new assessment would also encourage payors to adequately identify payments to the report or bill to be paid.

Legal Authority: 43 USC 1335

CFR Citation: 30 CFR 256

Legal Deadline: None

Abstract: This rulemaking would amend current regulations requiring lessee surety bonds. The monetary value of surety bonds designated in current regulations was established over 20 years ago and is seriously inadequate to protect the Government from loss due to lessee failure to meet the terms of the OCS lease for royalty payments, proper abandonment of wells, site cleanup, and ongoing lease operations. Bond requirements may be increased on a case-by-case basis, as an alternative to rule change. This might result in inconsistent requirements. The potential costs are whatever increase is incurred in obtaining a higher value bond. Benefits would be a reduced potential for Government loss and a greater protection of the public interest.

Abstract: Because royalty payments are a major source of income to many Indian allottees, and the only source in some instances, it has been a longstanding Department of the Interior policy that overpayments made by lessees and other royalty payors to Indians cannot be recovered by refund. This policy was established to prevent an undue financial burden on Indian allottees who may have limited financial means to refund the overpayment. However, the adopted policy permits lessees and payors to recoup overpayments as a credit against future rental or royalty accruals due to Indian tribes or allottees. Lessees and operators were instructed to follow this recoupment policy in "Notice to Lessees and Operators of Indian Oil and Gas Leases No. 1A" (NTL-1A), issued by the Conservation Division of U.S. Geological Survey in 1977. The MMS published revised final oil and gas product valuation regulations at 30 CFR Part 206 on January 15, 1988 (53 FR 1184 and 53 FR 1230), effective March 1, 1988. Section 206.150(e)(2) of the revised regulations terminated NTL-1A. Although the Indian lease overpayment recoupment policy has been the same for many years, MMS believes that its (cont)

Abstract: There is a conflict in MMS regulations at 30 CFR 220.030 with the Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA) as to the time period that an offshore net profit share (NPSL) lessee must maintain records and all other documentation pertaining to the NPSL capital account. Therefore, MMS is

proposing to amend 30 CFR 250.030 to extend the time period to 6 years, from 36 months, consistent with the statutory requirement of FOGRMA. The MMS is also proposing to remove 30 CFR 220.033 which includes language that conflicts with the recordkeeping requirements of FOGRMA and MMS regulations at 30 CFR 212.50 and 212.51.

CFR Citation: 30 CFR 218; 30 CFR 230

Legal Deadline: None

Abstract: It is MMS's current practice to only allow the offsetting of underpayments and overpayments within an individual lease and not between leases unless both of the leases are included in the same unitization or communitization agreement. However, it may not be appropriate, in certain cases of obvious payor reporting errors, for MMS to assess late payment interest charges or deny a request for refund of an overpayment on a Federal offshore lease which is subject to the filing and reporting requirements of section 10 of the Outer Continental Shelf Lands Act, 43 USC 1339. This rulemaking would amend MMS regulations to allow payors to offset royalty underpayments on one lease against overpayments on a different lease (referred to as cross-lease netting) in certain cases where reporting errors do not result in harm to the royalty recipients. The rule specifies the conditions that must be met before MMS would allow cross-lease netting.

Abstract: This final rule amends Minerals Management Service (MMS) regulations at 30 CFR Part 250 that govern Outer Continental Shelf (OCS) reporting forms used for collecting information related to oil and gas and sulphur drilling and production in the OCS. The current OCS reporting forms are being updated and modernized as part of the effort to reduce the paperwork and respondent burden imposed on the public as required by the Paperwork Reduction Act of 1980 (Pub. L. 96-511, 44 USC 3501 et seq.). These revisions are a result of an analysis by an MMS task force and comments received from industry in response to several Federal Register notices published in August 1990 on the proposed forms. These changes will enable MMS to process the data submitted by industry more efficiently, reduce the reporting requirements for industry, and establish a consistent format and syntax to facilitate submission of information by electronic data transmission.

CFR Citation: 30 CFR 206

Abstract: The Minerals Management Service (MMS) published final revised regulations governing the valuation of gas from Federal leases onshore and on the Outer Continental Shelf and from Indian Tribal and allotted leases in the Federal Register on January 15, 1988 (53 FR 1230). The proposed gas valuation provisions of section 206.153, in part, govern the determination of value in situations where the lessee's contract for the sale of gas prior to processing provides for the value to be determined based upon a percentage of the purchases proceeds resulting from processing the gas. However, the inclusion of these percentages-of-proceeds contracts under section 206.153 has created unreasonable burdens on lessees. Consequently, MMS is proposing to amend its regulations to provide for the valuation of gas under percentage-of-proceeds contracts to be under the unprocessed gas valuation standards of section 206.152, rather than section 206.153.

Abstract: The rules at 30 CFR 250 which govern oil and gas and sulphur operations in the Outer Continental Shelf (OCS) are revised to address sulphur exploration, development, and production operations with more specificity. Sulphur operations were addressed through rules applicable to oil, gas, and sulphur and through OCS Order No. 10, Sulphur Drilling Procedures, issued by the Gulf of Mexico OCS Region. Comments received as the result of the publication on March 18, 1986 (51 FR 9316), of a proposed rule to consolidate rules governing oil, gas, and sulphur operations in the OCS included recommendations for the development of regulations which treat sulphur operations in the OCS with greater specificity. Other alternatives considered were not revising the regulations. Promulgation of the regulation is not expected to result in costs significantly more than those incurred through the unregulated use of good commercial practices.

CFR Citation: 30 CFR 250.25

Legal Deadline: None

Abstract: This action adds a provision to the regulations governing oil, gas, and sulphur operations in the Outer Continental Shelf to clarify that any person observing an apparent violation of Minerals Management Service's (MMS) regulations can report the apparent violation, and that MMS will then investigate the allegation. The provision was a part of the regulations in effect prior to 1988 but was dropped when the offshore operating rules were revised in 1988. Although allegations of violations of MMS regulations are investigated under existing rules, incorporation of the new provision into Part 250 assures that more people are aware that allegations of violations of MMS regulations will be investigated. The alternative of using other means to inform the public, such as use of a press release, would be a less effective means of assuring that the public was aware of this provision.

CFR Citation: 30 CFR 216

Abstract: "Reporting Instructions," of the Minerals Management Regulations at 30 CFR Part 216.15 refer to the Production Accounting and Auditing System (PAAS) Reporter Handbook and the PAAS Onshore Oil and Gas Reporter Handbook for specific guidance on how to prepare and submit the mandatory information collection reports and forms to MMS. Although the Handbooks identify the specific MMS address to which the completed reports and forms should be mailed, there are many instances when the documents are mailed or delivered by the reporter to the wrong address, such as to the contractor performing work for MMS. Consequently, there is a delay in receipt of the document by the appropriate MMS office, which could result in assessments for late reporting. This amendment provides clear direction to the reporter, improves timely reporting by companies, and establishes consistency with the Auditing and Financial System that already has address information in the regulations. The regulations also are amended to codify MMS's policy to consider documents received after 4 P.M. as next day receipts.

Legal Authority: 43 USC 1301 et seq; 43 USC 1331 et seq; 43 USC 1801 et seq

CFR Citation: 30 CFR 260

Legal Deadline: None

Abstract: Revised final gas product valuation regulations were published in the Federal Register on January 15, 1988 (53 FR 1230). At the time the final regulations were published, the Minerals Management Service (MMS) inadvertently failed to revise a citation in 30 CFR 260.110(b) that references 30 CFR 206.150 of the old regulations. The citation to the corresponding provisions in the revised regulations should be sections 206.102, 206.152, and 206.153. The MMS is publishing a final rule amendment to correct this technical error.

Legal Authority: 30 USC 1201 et seq; PL 100-34

CFR Citation: 30 CFR 700.11; 30 CFR 870.11

Legal Deadline: None

Abstract: Section 528(2) of the Surface Mining Control and Reclamation Act of 1977, exempted from the requirements of the Act "the extraction of coal for commercial purposes where the surface mining operation affects two acres or less." On May 7, 1987, the President signed PL 100-34 which repealed the exemption. The rule action would remove the exemption provision from the regulations at 30 CFR 700 and 30 CFR 870.

Abstract: This rule will clarify that a permittee must obtain approval from the regulatory authority before ceasing coal mining operations on a permit that results in the delay of contemporaneous reclamation on areas which are incidental to, or necessary to facilitate, continued mining of the remaining coal reserves. The rule will state that an application to temporarily cease mining operations may be approved if the regulatory authority finds that recoverable coal reserves remain, that the bond is adequate, and that based on pre-approval inspection, the site is in compliance with all applicable requirements, including contemporaneous reclamation, drainage control, and structure certifications. The rule will specify that temporary cessation may be approved for a period not to exceed one year, after which time the permittee may file for subsequent one year renewals.

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

Legal Deadline: NPRM, Judicial. NPRM due 180 days from effective date of settlement agreed to in "Save Our Cumberland Mountains, Inc., et al., and Manuel Lujan, Jr., Secretary, US Department of the Interior, et al."

Abstract: The proposed rule will establish standards for review and rebuttal of presumptions regarding ownership and control relationships between permit applicants and violators as well as between permittees and violators. The rule will also specify requirements for verifying whether the ownership and control information specified on a permit application is complete, require use of OSM's applicant violator computer system and other available data by regulatory authorities when conducting violation reviews and establish procedures for regulatory authorities to use in determining the status of outstanding violations. The rule will prescribe sanctions in cases where a permit applicant intentionally fails to provide complete or accurate ownership and control information. The rule will also require regulatory authorities to conduct an annual verification of certain ownership and control information for all permittees. In addition, the rule will specify measures for OSM to take should a state regulatory authority fail to implement these new requirements. Regulations which may be modified include 30 CFR 773, 774, and 843.

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 724; 30 CFR 843; 30 CFR 845; 30 CFR 846

Legal Deadline: None

Abstract: OSM intends to propose a rule revising the procedures governing the service of documents by allowing service by certified mail in those areas where the regulations do not already provide for such service. The proposed rule will also change certain terminology pertaining to the service of documents to make it consistent throughout the regulations.

Significance: Regulatory Program

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 761.11(h)

Legal Deadline: None

Abstract: This rule will clarify the applicability of the prohibitions in section 522(e) of the Surface Mining Control and Reclamation Act to the surface impacts of underground coal mining. The rule will also address whether and to what extent subsidence caused by underground coal mining is prohibited in the protected areas.

Legal Authority: 43 USC 617; 43 USC 391; 43 USC 485; 43 USC 390; 5 USC 552; 373 US 546, Arizona v. California

CFR Citation: 43 CFR 415

Legal Deadline: None

Abstract: Colorado River water has been apportioned for consumptive use among water users with valid water rights within the States of Arizona, California, and Nevada. Future requests for delivery of this water are expected to exceed the amount that will be available. Formal rules will help ensure that water is put to beneficial use and that unauthorized uses are eliminated. The rules will provide a basis for the Secretary of the Interior to curtail unauthorized water use and establish a due process for water users to appeal adverse action decisions. Without formal rules and an appeals process, it is likely that the Secretary would be unable to enforce an action to curtail unauthorized water use and be subject to legal action by valid water users for not preventing unauthorized diversions of water. The initial cost of implementing the rule is estimated at $125,000; annual costs thereafter - $12,000, all costs in 1991 dollars. Costs are expected to be recovered from beneficiaries.

Legal Authority: 5 USC 552; PL 97-293 Reclamation Reform Act of 1982; PL 100-203

CFR Citation: 43 CFR 426

Legal Deadline: None

Abstract: Under existing regulations, a party affected by a determination from a Regional Director may appeal the determination to the Commissioner. Since the Regional Directors' determinations are often based on policies issued by the Commissioner, the potential exists for the Commissioner to become the final arbiter of his/her own decisions. In order to serve parties appealing Regional Director decisions, the current regulations will be revised to allow appellants that receive adverse Commissioner decisions to further elevate their appeals to the Office of Hearings and Appeals.

1785. ONSHORE OIL AND GAS UNIT AGREEMENTS—UNPROVEN AREAS

Legal Authority: 30 USC 181 et seq

CFR Citation: 43 CFR 3180

Legal Deadline: None

Abstract: This rule will clarify the effective date of approval of a unit agreement, and will provide for State Director review in cases of appeals by adversely affected parties. It will also condition Federal approval of a unit agreement on its containing a provision for payment to the Government of compensatory royalties for oil and gas drained from unleased Federal lands located within participating areas of the unit, in order to prevent loss through drainage through adjacent non-Federal wells without compensation to the Government.

CFR Citation: 43 CFR 3100.2; 43 CFR 3100.2-1; 43 CFR 3100.2-2; 43 CFR 3162.2

Legal Deadline: None

Abstract: This rule will clarify the responsibilities of fluid mineral lessees for protecting Federal-leased fluid minerals from drainage by operations on nearby lands that would result in lower royalties for Federal or Indian lessors by specifying requirements before the obligation of lessees to protect from such drainage begins, by providing a profitability threshold for lessee responsibility, by allocating burden of proof of drainage, and by specifying the responsibilities of multiple lessees and assignees. It will also clarify responsibility of the liable parties for other obligations arising from lease terms and operations.

Abstract: This proposed rule establishes guidelines for mining in certain military installations under the Mining Law of 1872, as amended, and for assuring the safe, uninterrupted, and unimpeded use of the lands for military purposes. The Military Lands Withdrawal Act of 1986 specifically provided for certain military lands previously withdrawn from mining to be considered for opening to the operation of the Mining Law of 1872, as amended, with certain special restrictions. Military Lands identified as suitable for mining through the Bureau of Land Management's planning system are proposed to be opened on the effective date of an opening order that will be published in the Federal Register.

1812. CONTRACT EXTENSION (TIMBER SALES)

Legal Authority: 43 USC 1181e; 30 USC 601 et seq

CFR Citation: 43 CFR 5473; 43 CFR 5474

Legal Deadline: None

Abstract: It is necessary to amend existing regulations concerning extension of time for cutting and removal on timber sale contracts. Shorter contract terms and increased seasonal restrictions on operations have caused a problem with the reappraisal requirement for contract extensions. This regulation would allow contract extensions without reappraisal under certain conditions.

1823. NONDISCRIMINATION ON THE BASIS OF AGE IN PROGRAMS OR ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE

Legal Authority: 42 USC 6103

CFR Citation: 28 CFR 42 Subpart I, (New)

Legal Deadline: None

Abstract: This regulation will implement the Age Discrimination Act of 1975, as amended, in programs or activities assisted by the Department of Justice (DOJ). The statute, 42 USC 6103(a)(4), requires that Federal agencies providing Federal financial assistance promulgate implementing regulations consistent with the general regulations issued by the Secretary of Health and Human Services (HHS), and the statute provides that such agency regulations shall not be effective until approved by HHS. In 1980 the proposed rule was published for comment, modified, approved by the DOJ Office of Legal Counsel, and on November 10, 1980 a draft final rule was forwarded to HHS for approval. On July 13, 1984 HHS conditionally approved the draft regulation. On August 12, 1987 DOJ submitted to HHS a draft final regulation.

Abstract: The proposed rule will revise an interim final rule published on March 9, 1989, which established procedures for referring to the Department of Treasury debts for collection by offset against Federal Income Tax Refunds. Treasury's rules for offsets against tax refunds are limited to the period January 1, 1986, through January 10, 1994. The proposed rule will broaden the scope of coverage by including organizations and entities in addition to individual debtors, and by including debts that are past due and legally enforceable but not reduced to judgment in addition to debts that have been reduced to judgment.

Abstract: This rule amends regulations by permitting service of a subpoena to be made by an immigration officer except when the subpoena is issued by a special inquiry officer on behalf of a party other than the Immigration and Naturalization Service.

The rule would permit an immigration officer to ask for a subpoena from an immigration judge. It deletes the Regional Director, Office of Professional Responsibility, as an official who may issue a subpoena and/or designate service of same. The new rule specifically permits the subpoenaing of demonstrative evidence. Finally, the rule authorizes specified Immigration Service officials as well as special inquiry officers, to issue subpoenas on behalf of the service subsequent to commencement of any proceeding.

Abstract: This proposed rule will revise the requirement that all supporting documents submitted by individuals applying for immigration benefits be accompanied by certified copies or that copies be certified by designated INS personnel at the time of receipt for retention with the petition(s) or application(s). Available data do not show a significant number of rescission/revocation actions based on fraudulent claims to warrant continuing to require that all documents in support of a request for an immigration benefit be certified. The public will be less burdened with having to produce and pay for certified copies. The public will also have to spend less time standing in line at an INS office waiting for their documents to be read and matched for certification.

Legal Authority: 8 USC 1101; 8 USC 1103; 8 USC 1201; 8 USC 1304; 8 USC 1455; 5 USC 552; 5 USC 552a; 28 USC 1746; 31 USC 9701; 8 CFR 2

CFR Citation: 8 CFR 103; 8 CFR 214; 8 CFR 223; 8 CFR 223a; 8 CFR 248; 8 CFR 264; 8 CFR 292

Legal Deadline: None

Abstract: This rule would clarify and streamline evidence rules and the process by which persons may apply and receive certain immigration documents and benefits. It would also revise how the Service notifies applicants and petitioners of decisions, and modify how the Service communicates with applicants and petitioners represented by an attorney or other representatives.

CFR Citation: 8 CFR 236.10; 8 CFR 242.25; 8 CFR 246.10

Legal Deadline: None

Abstract: This rule implements Sections 601(a)(3) and 602(a)(4) of the Immigration Act of 1990 by permitting the Service to introduce under certain restrictions, relevant information that is classified under EO 12356 to be considered "in camera" and "ex parte" in exclusion, deportation and rescission hearings by a special inquiry officer.

This rule is necessary to aid in expelling alien terrorists from the United States and thus reduces the threat that such aliens pose to the national security and other vital interests of the United States.

1854. CONTRACTUAL AUGMENTATION OF FEDERAL INSPECTIONAL SERVICES

Legal Authority: 8 USC 1103; 8 USC 1356

CFR Citation: 8 CFR 286

Legal Deadline: None

Abstract: Presently international passengers pay a five dollar user fee to fund immigration inspection services at airports and some seaports. A legislative change is being sought to Section 286 of the INA, to permit airport operators, bridge owners and local government or special tax districts to contract with the INS to provide augmented levels of inspectional services at airport, seaport or land border ports of entry, beyond that level available through the user fee. This rule would be promulgated after such change was made to the INA.

Legal Authority: 8 USC 1103; 8 USC 1362; 8 CFR 2

CFR Citation: 8 CFR 292.3

Abstract: This rule modifies two grounds for suspension or disbarment of attorney or nonattorney representatives by removing the restriction on attorneys or their representatives to advertise the availability of their services on immigration matters, and by removing the restriction to make and retain a copy of a record in a case without authorization.

Removal of these two outdated grounds for ethical standards should increase the respectful attention paid by attorney and nonattorney representatives to the serious obligations imposed by 8 CFR 292. The effect of these modifications will be that INS regulations regarding suspension and disbarment will conform with the current state of the law and everyday practice.

Abstract: This rule permits the Immigration and Naturalization Service to register aliens on probation and parole. By so doing, INS can regulate such aliens by having them report to the Service for registration. At that point, it can be determined if the alien is amenable to deportation. If so, the alien can be placed in deportation proceedings. Failure to report can be prosecuted as a misdemeanor or can result in the alien's probation or parole status being revoked.

CFR Citation: 8 CFR 252

Legal Deadline: None

Abstract: The regulation will revise 8 CFR 252 to include a requirement that the detained crewman may leave the vessel only in close proximity to the vessel and only while involved in activities related to the arrival of the vessel.

The regulation will also clarify that all crewmen must be presented for inspection so that INS can determine whether each crewman is an alien or a US citizen.

The regulation will also provide that a C-1 nonimmigrant in transit to a vessel in pursuit of his/her calling as a crewman would lose his/her transit status and become a crewman detained on board as soon as he/she boards his/her vessel.

The regulation will also expand the Form I-408 procedure to specify that the D-1 Forms I-95 will be presented to INS with the I-408; in approving Form I-408 INS will collect D-1 Forms I-95 and issue D-2 Forms I-95.

Abstract: The regulation will expand on the provisions of Section 256 of the INS. Specifically, the turning in of a D-1 Form I-94 to a carrier removing an alien crewman from the US will be considered "prima facie" evidence that the crewman was improperly discharged without INS permission.

Agents of vessels will return copies of approved Forms I-408 as rebuttal to fines and provide these copies which will be considered noncompliance with Section 256 of the Act.

Forms I-408 submitted to INS for approval after the vessel has departed foreign and/or after the alien has departed the US by a means other than the vessel on which he/she arrived will not be approved and will be considered in non-compliance with the provisions of Section 256 of the Act.

Abstract: The regulation would prov de clarification of the meaning or implementation of Section 273 of the Act.

All instances of an alien being brought to the US without a visa when one is required (except for arrivals from contiguous territories) would render the carrier subject to a fine under Section 273 of the Immigration and Nationality Act.

Individual waivers of visas (such as 212(d)(4)) granted after arrival in the US do not relieve a carrier of fine liability. Similarly, granting of parole or subsequent admission into the US does not remove fine liability.

Abstract: The Immigration Reform and Control Act of 1986 (IRCA) imposes sanctions against employers who hire aliens not authorized to work. Since many of the nation's agricultural employers have become dependent upon such workers to meet production and harvesting needs, Congress created the Special Agricultural Workers (SAW) Program and the Replenishment Agricultural Workers (RAW) Program to grant permanent resident status to certain agricultural workers. To clarify the process through which employers can employ nonimmigrant seasonal and temporary agricultural workers, Congress moved agricultural employment from H-2 classification into a separate H-2A class, and incorporated a labor certification process into the statute. This interim rule establishes special H-2A regulatory criteria. It supplements the Department of Labor's rules covering the temporary agricultural labor certification process. This rule amends Service regulations relating therefore to temporary alien workers seeking classification under section 101(a)(15)(H) of the Immigration and Nationality Act.

Significance: Regulatory Program

Legal Authority: 8 USC 1324b

CFR Citation: 28 CFR 44.100 to 44.305

Legal Deadline: None

Abstract: This section prohibits discrimination on the basis of national origin and citizenship status. The existing regulations implementing the anti-discrimination provisions of section 274B of the Immigration and Nationality Act, 8 U.S.C. 1324b, need to be modified to incorporate the Immigration Act of 1990 amendments. As currently written, portions of the existing regulations conflict with the amended statute. This conflict creates a significant problem in the enforcement and the comprehension of the anti-discrimination provisions. In addition, as the case law develops under this new statute, two issues have arisen. First, many issues have not been addressed or defined by the statute or regulations. Second, while it is possible for these issues to be decided on a case by case basis, the case law is not reported by any service. This has created a significant problem in the comprehension of the anti-discrimination provisions. The main objectives of this rulemaking will be to eliminate contradictions, to incorporate additions, to promote a better understanding of the anti-discrimination provisions, and to determine whether additional clarification of the (cont)

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Labor.

ACTION: Semiannual agenda of regulations selected for review or development.

SUMMARY: This document sets forth the Department's semiannual agenda of regulations, which has been selected for review or development during the coming 1-year period. The agenda complies with the requirements of both Executive Order 12291 and the Regulatory Flexibility Act.

DATES: The agenda includes all regulations which are expected to be under review or development between October 1991 and October 1992.

FOR FURTHER INFORMATION CONTACT: Roland G. Droitsch, Deputy Assistant Secretary for Policy, Office of the Assistant Secretary for Policy, Department of Labor, 200 Constitution Avenue NW., Room S-2312, Washington, DC 20210, (202) 523-9058.

Note: Information pertaining to a specific regulation can be obtained from the agency contact listed for that particular regulation.

SUPPLEMENTARY INFORMATION: Executive Order 12291 and the Regulatory Flexibility Act require the semiannual publication in the **Federal Register** of an agenda of regulations.

Executive Order 12291 became effective February 17, 1981, and in substance, requires the Department of Labor to publish an agenda listing all the regulations it expects to have under active consideration for promulgation, proposal, or review during the coming 1-year period. It also requires the Department to conduct a Regulatory Impact Analysis for all "major" regulations being developed.

The Regulatory Flexibility Act became effective on January 1, 1981. It applies only to regulations for which a notice of proposed rulemaking was issued on or after January 1, 1981, and requires the Department of Labor to publish an agenda listing all the regulations it expects to propose or promulgate that are likely to have a "significant economic impact on a substantial number of small entities" (5 U.S.C. 602). For any regulation that will have this impact, the Department must conduct a Regulatory Flexibility Analysis to gauge the economic consequences of the rule and to analyze the availability of more flexible approaches for lightening the rule's regulatory burden on "small entities."

If a proposed regulation will not have a "significant economic impact on a substantial number of small entities," the Department of Labor must publish a certification to that effect at the time of the general notice of proposed rulemaking or at the time of the publication of the final rule. That certification must be accompanied by a succinct statement explaining the reasons for the agency's determinations.

As permitted by law, the Department of Labor is combining this publication of its agendas under the Regulatory Flexibility Act and Executive Order 12291.

The regulatory reform process, of which the Unified Agenda is a part, continues to be an extremely valuable aid in the development of better regulations by the Department. We believe that our regulatory reform program has resulted in improved regulatory management, more clearly written regulations, and significantly less burdensome regulations.

Further improvement is certainly needed, and we are constantly seeking new and innovative approaches in pursuit of this goal. All interested members of the public are invited and encouraged to let departmental officials know how our regulatory reform process can be further improved and, of course, to participate in and comment on the review or development of the regulations listed on the agenda.

The Department of Labor's next semiannual agenda, under Executive Order 12291 and the Regulatory Flexibility Act, will be published in April 1992.

Lynn Martin,

Secretary of Labor.

1984. GOVERNMENT CONTRACTORS: CONTRACTOR PARTICIPATION IN TRAINING PROGRAMS PURSUANT TO THE JOB TRAINING PARTNERSHIP ACT (JTPA) (29 USC 1781)

Significance: Regulatory Program

Legal Authority: 29 USC 1781

CFR Citation: 41 CFR 60-1; 41 CFR 60-2

Legal Deadline: Final, Statutory, October 1, 1983.

Abstract: Section 481 of the Job Training Partnership Act of 1982 (JTPA) requires OFCCP to issue regulations which will specify the degree to which contractors' participation in JTPA approved training programs will satisfy their affirmative action obligations under Executive Order 11246, as amended. Among the issues to be determined are: (1) the extent to which a contractor's participation in an approved training program satisfies its affirmative action obligations; (2) the contents of an abbreviated affirmative action program; (3) methods for determining compliance; and (4) recordkeeping and reporting requirements.

1986. EMPLOYMENT OF HOMEWORKERS IN CERTAIN INDUSTRIES

Significance: Regulatory Program

Legal Authority: 29 USC 211

CFR Citation: 29 CFR 530

Legal Deadline: None

Abstract: This regulation sets forth restrictions on industrial homework and governs the issuance of certificates authorizing the employment of homeworkers in certain industries, pursuant to Section 11(d) of the Fair Labor Standards Act (FLSA). As originally issued, these regulations restricted the employment of industrial homework in seven industries: knitted outerwear; women's apparel; jewelry; buttons and buckles; gloves and mittens; handkerchiefs; and embroideries. The ban was removed on homework in the knitted outerwear industry by the Department on 11/9/81, following extensive hearings and public comment. This action was subsequently upheld by the District Court for the District of Columbia. However, on appeal the ban was reimposed 2/29/84 by the U.S. Court of Appeals for the District of Columbia Circuit. On 3/27/84, the Department published a proposed rule rescinding the ban on homework in the knitted outerwear industry only. In addition to soliciting comments on the proposed rescission, the Department sought comments on various alternatives to such action (49 FR 11786). On 11/5/84, a final rule was published lifting the ban on homework for (cont)

Based on analysis of the results of its enforcement experience under the new certification procedure, and review of comments from a Notice of Proposed Rulemaking published on August 21, 1986 (51 FR 30036), a proposal was published on March 30, 1988 (53 FR 10342) which included enforcement mechanisms to enhance compliance among employers of homeworkers. The comment period was later extended to May 13, 1988 (53 FR 15063). The proposal also excluded the women's apparel industry and stated that this industry would be the subject of separate rulemaking. A final rule was published November 10, 1988 (53 FR 45706). An ANPRM concerning women's apparel homework was published December 30, 1988 (53 FR 53344). Public hearings on this issue were held in seven cities during March and April 1989. The public comment period on the ANPRM closed on May 5, 1989 (54 FR 11008). The Department is considering whether it would be appropriate to modify the existing regulations in the women's apparel industry.

Significance: Agency Priority

Legal Authority: PL 101-238; 8 USC 1182(m)

CFR Citation: 29 CFR 504

Legal Deadline: Final, Statutory, August 1, 1990.

Abstract: The Immigration Nursing Relief Act of 1989, PL 101-238, amends Section 212 of the Immigration and Nationality Act to add a new subsection (m) governing the admission to the United States of nonimmigrant nurses during a 5-year period. The law requires employers (health care facilities) interested in hiring temporary alien nurses in the future to file an attestation with the Department of Labor, which must include certain assurances as to the need for and effect of the alien's employment, wage rates to be paid, steps being taken to recruit and retain non-alien nurses, that no strike or lockout exists in a labor dispute, and that certain notifications and posting of notices have occurred. The Department is also required to establish a system for investigating and resolving complaints that the employer is not carrying out these attestations, and is authorized to impose administrative remedies, including civil monetary penalties, as deemed appropriate. Abstract: Section 3(1) of the Fair Labor Standards Act requires the Secretary of Labor to issue regulations with respect to minors between 14 and 16 years of age ensuring that the periods and conditions of their employment do not interfere with their schooling, health, or well-being. The Secretary also is directed to designate occupations that may be particularly hazardous for minors 16 and 17 years of age. Child Labor Regulation No. 3 sets forth the permissible industries and occupations in which 14 and 15 year olds may be employed. In addition, this regulation specifies the number of hours in a day and in a week, and time periods within a day that such minors may be employed. The nonagricultural hazardous occupations orders which prohibit the employment of minors in such occupations are also contained in 29 CFR 570. Changes in technology and job content over the years require a review of the regulations to ensure the safety and health of such minors and at the same time avoid unnecessary restrictions on their employment opportunities. The recommendations of the committee were given careful consideration in the review of these regulations. The committee convened on March 9-10, 1988, at which time subcommittees were established to review Hazardous Order (HO) No. 2 (Motor Vehicle Operations), HO No. 10 (Slaughtering and Meat Packing), and Child Labor Regulation No. 3. Since that time, two additional subcommittees were established to review HO No. 11 (Bakery Machines) and HO No. 12 (Paper Products Machines). The full committee met on May 11, 1989 to receive reports and make recommendations. The Committee's charter was renewed until August 5, 1991, to enable it to continue its study of the regulations (54 FR 35540). Proposed revisions to HOs No. 2, No. 10, and No. 12 were published on 10/23/90 (55 FR 42812). In addition, an intradepartmental task force on child labor (ESA, OSHA, SOL and others) has been established to review child labor issues.

Abstract: These regulations set forth the criteria used in the determination of the application of the Fair Labor Standards Act exemption for "executive," "administrative," "professional" and "outside sales employees" from the minimum wage and overtime requirements of the Act. The existing regulation was targeted for review by the President's Task Force on Regulatory Relief. A final rule increasing the salary test criteria was published on 01/13/81 (46 FR 3010) and was scheduled to become effective on 02/13/81. On 02/12/81 (46 FR 11972) an indefinite stay of the final rule was published. On 03/27/81 (46 FR 18998) a proposal to suspend the final rule

As a result of numerous comments and petitions received from industry groups regarding the duties and responsibilities tests as set forth in the regulations, as well as recent case law developments, the Department concluded that a more comprehensive review of these regulations was needed and decided to reopen the comment period and broaden the scope of the review to include all aspects of the regulations. As a result of recent developments in private litigation, the Department has determined that it is necessary to revise the regulations to clarify certain requirements for exemption of public sector employees. Specifically, the Department intends to revise the regulations to provide an exception from the requirement for payment "on a salary basis" to reflect public sector compensation practices which, in some cases, are based on statutes or regulations regarding the accountability of public employees. Significance: Agency Priority

Legal Authority: 41 USC 38; 41 USC 40

Abstract: This proposed rule would amend the Walsh-Healey Public Contracts Act regulations to provide an alternative "regular dealer" definition applicable to information systems integration businesses which bid on contracts to furnish the government fully operational information processing ("ADP") systems. The alternative definition would relieve potential contractors in this industry from having to physically maintain inventories from which sales are made, a custom that is inconsistent with this industry's practices. A proposed rule was published on June 22, 1989 inviting public review and comment. Two comments were received during the comment period which ended July 24, 1989 (54 FR 2612). In addition, in November 1989, the Subcommittee on Legislation and National Security of the Committee on Government Operations, U.S. House of Representatives, held a series of hearings on the Federal Government's purchase of ADP equipment which included a review of some procurements awarded to systems integrators. Based on information from these hearings, it was decided to reopen the comment period (cont)

Abstract: The Fair Labor Standards Amendments of 1989 were enacted on November 17, 1989. Among other provisions, the amendments provide that employers may pay employees under the age of 20, under certain conditions, a wage rate of at least 85 percent of the minimum wage, but not less than $3.35 per hour, for a period up to 90 days. An employee who has been paid at the training wage for 90 days can be employed by any other employer at the training wage an additional 90 days, but only if that employer provides on-the-job training in accordance with regulations required to be issued by the Department of Labor. The training wage provisions took effect April 1, 1990 and expire March 31, 1993. The statute provides that the Secretary of Labor shall issue regulations containing criteria for what qualifies as on-the-job training, and for defining what constitutes the requisite proof of previous periods of employment with other employers that is required to be provided by employees. 2002. ● LABOR CONDITION APPLICATIONS AND REQUIREMENTS FOR EMPLOYERS USING ALIENS ON H-LB VISAS IN SPECIALTY OCCUPATIONS

Significance: Agency Priority

Legal Authority: PL 101-649, Sec 205

CFR Citation: 29 CFR 507

Legal Deadline: Final, Statutory, October 1, 1991.

Abstract: The Employment Standards Administration (ESA) and the Employment and Training Administration (ETA) are promulgating regulations governing the filing and enforcement of labor condition applications filed by employers seeking to use aliens in specialty occupations on H-lB visas. Under the Immigration and Nationality Act as amended by the Immigration Act of 1990, an employer

seeking to employ an alien in a specialty occupation on an H-1B visa is required to file with the Department of Labor, and receive approval therefor, a labor condition application before the Immigration and Naturalization Service may approve an H-1B visa petition. The labor condition application process is to be administered by ETA and complaints and investigations regarding labor condition applications will be the responsibility of ESA.

2003. ● ATTESTATIONS BY EMPLOYERS USING ALIEN CREWMEMBERS FOR LONGSHORE ACTIVITIES IN U.S. PORTS (D-1 VISAS)

Significance: Agency Priority

Legal Authority: PL 101-649; 8 USC 1288(c)

CFR Citation: 29 CFR 506

Legal Deadline: Final, Statutory, May 28, 1991.

Abstract: This rule implements DOL's responsibilities under the 1990 amendments to the crewmember (d) visa (Public Law 101-649). The law prohibits the performance of longshore work by alien crewmen in U.S. ports, except in 5 circumstances, 2 of which are under DOL purview: (1) The employer has filed with DOL an attestation that the prevailing practice in the local port permits the work by alien crewmen; that there is no strike or lockout in the course of a labor dispute; that use of the alien labor is not intended or designed to influence the election of a bargaining representative at the port; that the employer has provided a notice of attestation to the bargaining representative or to longshore workers where there is no bargaining representative. (2) The employer operates self-unloading automated vessels for which the prevailing practice is presumed to be to use alien crewmembers for longshore work. The Employment Standards Administration will administer the enforcement provisions in the legislation through regulations that incorporate the labor standards/attestations issued by ETA, and set forth procedures for enforcement of those labor standards.

Abstract: The Department intends to amend the regulations defining the terms "construction," "prosecution," "completion," and "repair" on federally financed and assisted construction contracts subject to the Davis-Bacon and Related Acts. This revision is necessary to reflect the decision by the U.S. Court of Appeals for the District of Columbia Circuit in Building and Construction Trades Department, AFL-CIO v. United States Department of Labor, Wage Appeals Board, Midway Excavators, Inc., No. 90-5341. In that decision, the court invalidated the provisions in section 29 CFR 5.2(j) of the regulations that employees of construction contractors and subcontractors who haul materials and supplies to the site of a Davis-Bacon covered project and who spend an insignificant or de minimis amount of time on the site are subject to Davis-Bacon.

Abstract: The Department intends to revise its regulations for coordinated enforcement of farm protective statutes. The rule will clarify existing regulatory language and update the regulations by making nomenclature and other technical amendments. The sections also will be reorganized for clarification. These regulations were first promulgated in 1980 to coordinate the farm labor enforcement activities of the Department's Employment and Training Administration, the Employment Standards Administration, the Occupational Safety and Health Administration, and the Office of the Solicitor of Labor. (45 FR 39489) The regulations establish a National Farm Labor Coordinated Enforcement Committee, which meets quarterly, consisting of the heads of the the above DOL agencies, to oversee that coordination. A Regional Farm Labor Coordinated Enforcement Committee, which meets quarterly, is established in each DOL regional office. The Regional

Committee is made up of the head of each of the above agency's regional office. Each Regional Committee holds at least one annual public meeting to discuss farm labor issues.

Additional Information: Since 1980, a number of changes have taken place in DOL's farm labor activities, such as: The Farm Labor Contractor Registration Act has been replaced by the Migrant and Seasonal Agricultural Worker Protection Act; the title of the head of the National Committee has been changed from Under Secretary to Deputy Secretary; the Immigration Reform and Control Act of 1986 has amended the Immigration and Nationality Act to strengthen DOL's role in farmworker protection; regional offices of the Employment Standards Administration no longer exist and the regional farm labor enforcement role is now coordinated by the Regional Administrator for Wage Hour; and the Assistant Secretary for Policy has assumed a role in farm labor programs at the National Level. These and other changes necessitate updating the coordinated enforcement regulations.

Significance: Agency Priority

Legal Authority: 41 USC 35; 41 USC 38; 41 USC 40; 41 USC 43a

CFR Citation: 41 CFR 50 to 202

Legal Deadline: None

Abstract: The Walsh-Healey Public Contracts Act (PCA) requires payment of minimum wages on Federal and District of Columbia contracts over $10,000 for manufacturing or furnishing materials, supplies, articles, or equipment. Wage determinations historically issued under PCA have required payment of not less than the minimum wage prescribed by the Fair Labor Standards Act of 1938, as amended (FLSA). The Fair Labor Standards Amendments of 1989 (Public Law 101-157) increased the minimum wage rate required to be paid under the FLSA. The Department increased the minimum wage required to be paid under the PCA to correspond to the FLSA minimum wage rate requirements contained in the 1989 FLSA Amendments.

2007. GARNISHMENT OF EARNINGS

Legal Authority: 15 USC 1671 et seq

CFR Citation: 29 CFR 870.10

Legal Deadline: None

Abstract: The Federal Wage Garnishment Law limits the amount of an employee's disposable earnings which may be subject to garnishment in any workweek. The term "garnishment" means any legal or equitable procedure through which earnings of an individual may be withheld for the payment of any debt. Most garnishments are made by court order. The largest amount which may be garnished in any workweek may not exceed the lesser of either: (1) 25 percent of an employee's disposable earnings for that workweek; or (2) the amount by which an employee's disposable earnings for that workweek exceeds 30 times the Federal minimum wage that is in effect at the time the earnings are payable. The enactment of the Fair Labor Standards Amendments of 1989, increased the Federal minimum wage to $3.80 per hour on April 1, 1990 and to $4.25 per hour as of April 1, 1991. Accordingly, section 870.10 of Regulations, 29 CFR Part 870-- Restriction on Garnishment, was updated to reflect the recent minimum wage increases.

Abstract: This regulation sets out Reed Act requirements for States. It covers: restoration of Reed Act funds used to pay unemployment benefits; appropriation by the States and use of funds for administration; and disposition, reduced usage, and replacement of Reed Act-financed property. The regulation implements PL 97-248 and PL 101-508 and updates existing material issued as manuals. Alternatives being considered include: (1) issuing a regulation, another type of directive, or nothing; (2) issuing Federal law or not limiting scope; and (3) which rules, if any, should be issued regarding the calculation of Reed Act balances, restorations of Reed Act funds, program income, and sales, other Act funds. Issuing a regulation will benefit grantees by reducing their uncertainty as to the applicable rules. No significant additional costs will result.

Abstract: These regulations are being developed to implement the monetary provisions contained in Sec. 43 of the Airline Deregulation Act of 1978. The Act requires the Secretary of Labor to specify the percentage of prior salary which an "eligible protected employee" would receive as a benefit payment under the Act. An eligible protected employee is a person who has had at least 4 years of employment with a certificated air carrier as of October 24, 1978 and who loses his or her job during the ten years following such date in a bankruptcy or major employment contraction if and only if the Department of Transportation determines that the principal causes of such job loss was deregulation. On May 17, 1984 the U.S. District Court for the District of Columbia held that Section 43 of the Airline Deregulation Act was

unconstitutional. On July 16, 1985, the U.S. Court of Appeals decided that the employee protection provisions of Section 43 were severable from the legislative veto provisions. The U.S. Supreme Court ruled on March 25, 1987 that the legislative veto provisions were unconstitutional but the first right-to-hire provisions were constitutional, therefore, rulemaking can proceed on the (cont)

Abstract: The Senior Community Service Employment Program has not published final regulations since 1976. For a variety of reasons that are no longer pertinent, proposed revisions published for comment in 1990 and 1985 were not promulgated in final. Thus statute Title V of the Older Americans Act, mandates that the Senior Community Service Employment Program is to be administered and regulations are to be issued by the Department of Labor. Abstract: Since 1981, Congress has enacted major changes in the Federal Unemployment Tax Act (FUTA) and Social Security Act (SSA) with respect to advances to States for the payment of unemployment insurance and the repayment of such advances and interest thereon. Promulgation of comprehensive regulations is being undertaken in two phases. The proposed rule will replace instructions contained in several Unemployment Insurance Program Letters approved under OMB No. 1205-0199 expiring November 30, 1993. This action represents the second phase, governing States receiving and voluntarily repaying advances to their unemployment funds and paying interest in such advances. Abstract: Regulatory action is necessary to provide specific requirements and guidelines for programs designed to assist workers dislocated as a consequence of reductions in Defense Department procurement and activities, including both personnel and facilities reductions in the military, in compliance with the Defense Authorization Act of 1990 (H.12045). Under the Act, grants may be made to States, substate grantees, employers, employer associations, and representatives of employees to provide training, adjustment assistance and employments services to such eligible dislocated workers in accordance with the requirements of the Act. These provisions are being promulgated to implement the amendment to the Job Training Partnership Act (JTPA) enacted as part of the Defense Authorization Act which added a new Section 325 to Title III of JTPA.

The law becomes effective on October 1, 1991, and is effective until September 30, 1994. Implementing regulations for this program will be published by April 1, 1992.

Abstract: This rule is necessary to implement Section 122 of Public Law 101-649, the Immigration Act of 1990. This section requires the Secretary of Labor to establish a pilot which provides for a determination of labor shortages or surpluses in up to 10 occupational classifications. The occupation may then be used in lieu of an individual, case-by-case labor certification. The pilot program is effective during the 3-fiscal year period beginning with FY 92.

Legal Deadline: None
Legal deadline for development and implementation of regulations depends on date of passage of 1991 JTPA amendments by 102nd Congress.

Abstract: The amendments focus on improving the targeting of programs to those facing serious barriers to employment, enhancing the quality of services provided, strengthening fiscal and program accountability, and promoting and coordination of programs and resources to more effectively provide job training and placement to the disadvantaged. The amendments are currently under consideration by the 102nd Congress. Our alternative to these regulations is to proceed with regulatory action initiated in February 1991, which focuses on improvements to the fiscal integrity and administrative practices of the JTPA system.

Significance: Agency Priority

Legal Authority: Not yet determined

CFR Citation: 20 CFR 601; 29 CFR 96; 29 CFR 97; 29 CFR 98

Legal Deadline: None

Abstract: This proposed rule would replace outdated administrative regulations for the unemployment insurance (UI) program grants to States with reference to more current common administrative requirements for State governments codified elsewhere by the Department of Labor (DOL). Because of certain unique needs of the UI program, this action would also cover UI program exceptions to these requirements and clarifications of Employment and Training Administration (ETA) policy in applying requirements to State grantees. As a result, the proposed rule is expected to aid States in understanding and complying with the requirements.

Abstract: ETA has undertaken a review of the Apprenticeship system to determine the role of apprenticeship in meeting America's future needs for a skilled work force. The Apprenticeship 2000 review, through research, review of existing materials and related programs, is considering alternative ways to strengthen and expand apprenticeship and related training programs. Existing regulations governing apprenticeship programs may be revised to: 1) improve the existing programs ability to produce skilled workers to meet demands in the industries where it is now prevalent; and 2) expand the apprenticeship concept of training to fill the needs for skilled workers in additional industries.

Deadline for Interim Final: October 1, 1991

Abstract: This rule is necessary to implement certain revisions to the nonimmigrant H-1B visa category made by Public Law 101-649. The law provides that no alien may be admitted or provided status under this category unless the petitioning employer attests to the Secretary of Labor that is offering prevailing wages and working conditions and that there is not a strike or lockout in the course of a labor dispute in the occupational classification at the place of employment. The law also directs the employer to notify the bargaining representative at the place of employment of the filing of an H-1B petition. If there is no bargaining representative, the employer must post a notice in conspicuous locations at the place of employment. The law provides a procedure for any aggrieved person or organization to challenge the employer's attestation.

Legal Deadline: Other, Statutory, May 27, 1991.
Statutory Deadline for Interim Final: Six months after enactment of Public Law 101-649 is May 27, 1991.

Abstract: This rule is necessary to implement certain amendments to the crewmember (d) visa category made by Public Law 101-649. The law prohibits the performance of longshore work by alien crewmen unless their employer has filed with the Secretary of Labor an attestation that such work has been traditionally performed by alien crewmen; there is no strike or lockout in the course of a labor dispute; and use of the alien labor is not intended or designed to influence the election of a bargaining representative at the facility. The law also requires the employer to provide a notice of the attestation to bargaining representative or to longshore workers where there is no bargaining representative.

Significance: Agency Priority

Legal Authority: 29 USC 1021

Abstract: Section 101(d) of ERISA provides that when an employer maintaining a plan other than a multiemployer plan fails to make a required installment or other payment required to meet minimum funding standards under section 302 to a plan before the 60th day following the due date, the employer shall notify each participant and beneficiary of such failure. Section 101(d) also provides that the notice shall be made at such time and in such manner as the Secretary shall provide. Because OBRA 1989 added section 502(c)(3) to permit the imposition of substantial penalties upon employers who fail to give the notice required by section 101(d), there will be an increased need for regulatory guidance by the Secretary as to the time and manner in which notice under section 101(d) must be provided.

Abstract: Section 502(l) of ERISA requires the Secretary of Labor to assess a civil penalty to a fiduciary who breaches or commits a violation of part 4 of Title I of ERISA, or any other person who knowingly participates in such breach or violation by any other person. The Department has published an interim rule setting for the procedures for the assessment of penalties under ERISA section 502(l) and for petitioning the Secretary to exercise his or her discretion to waive or reduce the mandated assessment, as well as a proposed rule that defines the following pivotal terms contained in section 502(1): "applicable recovery amount", "breach of fiduciary responsibility or violation", and "settlement agreement" or "court order." Legal Authority: PL 95-250 Section 202

CFR Citation: 29 CFR 92

Legal Deadline: None

Abstract: Public Law 95-250, the Redwood National Park Expansion Act of 1978 (the Act) created employee protection benefits commonly known as the "Redwood Employee Protection Program" (the Program). Eligible employees could obtain such benefits upon application to an appropriate State agency. The Bureau of Labor-Management Relations and Cooperative Programs (the Agency) administers the Program in cooperation with State agencies. The Act does not provide a date certain for the expiration of the time period for application for benefits or appeals of previous benefit decisions, nor did the enabling regulations contain such a date. The Agency is issuing final regulations based on its interpretation of the statute with regard to the termination of the Program. This Agency has concluded that Congress intended for benefits eligibility to expire on September 30, 1989. Consequently, the agency is giving notice that the Program is terminated and that individual claims for benefits and/or appeals of benefits will not be accepted by State or Federal offices. This is a final step in

terminating the Bureau's responsibility under this program.

Abstract: During the past decade, diesel-powered equipment has been introduced into the underground coal mining industry in increasing numbers. The Mine Safety and Health Administration (MSHA) does not have regulations that specifically address the health hazards associated with the particulate in the exhaust emitted by diesel-powered equipment in underground mines. The National Institute for Occupational Safety and Health (NIOSH) has recently issued an exploratory risk assessment for diesel particulate based on an animal study. The Agency is in the early stages of developing a permissible exposure limit (PEL) to control miners' exposure to diesel exhaust and reduce the incidence of illness and disease related to this substance in the mining industry.

Abstract: Hearing impairment is a serious occupational hazard in the mining industry. Many miners are consistently exposed to noise levels that are near maximum levels currently permitted by MSHA. As a result, miners may be suffering hearing impairment, notwithstanding existing MSHA noise standards. MSHA intends to use comments and information submitted in response to the December 1989 ANPRM to develop a proposed rule which would establish similar noise standards to apply to coal mining and metal/nonmetal mining.

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 14; 30 CFR 18; 30 CFR 75

Legal Deadline: None

Abstract: Conveyor belts are one of the leading causes of fires in underground coal mines. These mines often use many miles of conveyor belts. The remote location of the belts can allow fires to start and spread to the coal before they are detected. MSHA has developed a new, more stringent test to evaluate the flame-resistance of conveyor belts. Belts passing the revised test would be resistant to ignition and to flame propagation. This proposal would revise the existing approval regulations and address use of the improved beltary by mine operators.

2057. WATERLINES IN BELT CONVEYOR ENTRIES

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 75, Subpart L

Legal Deadline: None

Abstract: MSHA currently requires waterlines to be installed along all belt conveyors in underground coal mines. Nozzles must be installed at least every 300 feet. Potential firefighting problems exist, however, when air used to ventilate belt conveyor entries moves in an outby direction. Waterlines installed in belt entries where air is moving outby would be exposed to the fire outby the area where water is needed. Heat from the fire could melt or otherwise damage the waterline, necessitating the installation of a separate waterline around the fire delaying the firefighting effort. The National Fire Protection Association (NFPA) recommends that the water flowing through waterlines be in the same direction as the ventilating air current. MSHA intends to propose revising the current regulations pertaining to waterlines for underground belt conveyors to require installation similar to that proposed by the NFPA.

Significance: Agency Priority

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 75, Subpart L

Abstract: Currently 30 CFR 75.1101-23 requires each operator of an underground coal mine to adopt a program for mine evacuation in the event of an emergency, such as fire or explosion. However, the existing standard does not directly address heat sensing and carbon monoxide detection systems and the actions to be taken when such systems activate an alarm. Legal Authority: 30 USC 811

CFR Citation: 30 CFR 75

Abstract: This rulemaking would apply to high voltage electric face equipment used in underground coal mines. Presently, 30 CFR 75.1002 precludes the use of high-voltage cables within 150 feet of pillar workings. Therefore, mine operators have had to file file petitions for modification so that they may use high- voltage longwall equipment. High-voltage longwall equipment would still be required to comply with the

requirements of part 18, but this rulemaking would address additional safety requirements for the use of high-voltage longwall equipment, including trailing cables, motor, and shearer cables.

Abstract: The Agency published a proposed rule concerning ventilation in underground coal mines which includes provisions for the introduction of new technology for systematic monitoring of explosive methane gas, as well as gasses that may indicate a mine fire. Other important issues include ventilation of worked-out areas and longwall systems, including installation and removal. The existing escapeway standards contained in 30 CFR 75.1704 are incorporated into the proposal. In June 1991, the Secretary established an advisory committee to make recommendations concerning the conditions under which air coursed through the belt entry could be safely used in the face areas of underground coal mines.

Abstract: On November 18, 1988, the Mine Safety and Health Administration (MSHA) published a final rule (53 FR 46768) to revise its safety standards for explosives and blasting in underground coal mines. Prior to the effective date, MSHA stayed 30 CFR 75.1325(b) which restricts blasting to only one face in a working place to allow further review of single versus multiple face blasting. Significance: Regulatory Program

Legal Authority: 30 USC 811; 30 USC 957

CFR Citation: 30 CFR 7; 30 CFR 70; 30 CFR 75

Abstract: MSHA has an established mining equipment approval program which includes evaluation criteria and corresponding safety standards requiring the use and maintenance of approved equipment. However, existing approval regulations do not generally apply to the diesel-powered equipment now being used in coal mines. In July 1988 an advisory committee convened by the Secretary of Labor made recommendations to the Secretary concerning standards for the use of diesel-powered equipment in underground coal mines. Based on those recommendations, MSHA has published a proposed rule that addresses the approval of components

and standards for its use, including monitoring requirements for certain diesel emissions. Public hearings were held in February and March 1991. MSHA also published an ANPRM addressing diesel equipment safety features beyond the basic engine and power packages. The Agency withdrew this ANPRM on March 1, 1991, in order to focus its resources on higher priority regulatory projects.

Abstract: Under sections 105(c) and 110 of the Federal Mine Safety and Health Act of 1977, MSHA is required to assess a civil penalty for all violations of the Act and mandatory safety and health standards. In May 1982, MSHA issued revised civil penalty regulations that included a provision for assessment of $20.00 single penalty for non-significant-and-substantial (non-S&S) violations that are timely abated. In November 1989, the United States Court of Appeals for the District of Columbia Circuit ordered MSHA to revise its civil penalty regulations and take immediate interim steps to correct the assessments system. The Court retained jurisdiction of the case to consider the issues after its remand. In response to the Court's order, MSHA (1) temporarily suspended the sentence in 30 CFR 100.3(c) which excludes timely paid single penalty assessments from an operator's history of violations for regular assessment purposes, and (2) issued a policy that implemented an "excessive history" program for non-S&S violations. In addition, MSHA also implemented an excessive history program for S&S violations. MSHA published a civil penalty proposal that (cont)

Abstract: The primary purpose of this action is to provide miners with the means to receive necessary information on the hazards of chemicals to which they are exposed and the action necessary to protect their safety and health. In preparation of a proposed rule, MSHA has reviewed OSHA's hazard communication standard and information collected by NIOSH. MSHA's proposed rule pursues a performance-oriented approach that will allow employees the flexibility to develop appropriate individual programs tailored to their particular workplace conditions. Hearings are scheduled for Fall 1991.

Legal Deadline: None

Abstract: MSHA's proposed rule incorporates permissible exposure limits which are applicable to the hazards encountered in metal and nonmetal mines and coal mines. The proposal solicits comments on updating permissible exposure limits and methods of controlling such limits. Permissible exposure limits and standards for use of respiratory protective equipment would replace outdated incorporations by reference. The proposal would also update asbestos standards. Other issues being considered are: requirements for exposure monitoring; precautions for handling restricted-use chemicals; notification to workers of overexposure; miner access to exposure monitoring records; medical surveillance and transfer of miners required to use

respirators and miners using certain carcinogens.

Legal Authority: 30 USC 957; 30 USC 811

CFR Citation: 30 CFR 18; 30 CFR 7; 30 CFR 57; 30 CFR 75

Legal Deadline: None

Abstract: This rulemaking would revise existing 30 CFR Part 18 specifications and test requirements for the approval of electric cables and incorporate a new requirement for the approval of cable splice kits as a subpart to 30 CFR Part 7. Under Part 7, testing would be done by the applicant or a third party, subject to agency requirements and approval. MSHA's proposal would update the existing approval criteria, establish minimum standards for the material used to repair cables, and allow the introduction of new technology, where appropriate. Conforming modifications to the agency's electrical safety standards in 30 CFR Parts 57 and 75 would also be made to require cables and splices "be accepted or approved by MSHA as flame resistant."

Abstract: On January 19, 1989, OSHA modified (54 FR 2332) the Z table permissible exposure limits of 29 CFR 1910.1000 in response to current scientific data. Section 6(b) of the Act requires where appropriate, provision for medical surveillance in each 6(b) rulemaking for a harmful substance. A generic standard for medical surveillance would satisfy the requirements of the Act thus enabling the Agency to deal directly with the narrower issues of the revision of the tables. OSHA published an Advance Notice of Proposed Rulemaking on September 27, 1988, (53 FR 37595) to acquire additional information. OSHA also intends to review its compliance

experience with medical surveillance provisions and seek experienced medical opinion in the form of a symposium or other public discussion. In addition, OSHA initiated a survey in 1990 to collect information regarding the prevalence and effectiveness of current medical surveillance programs.

Abstract: On January 19, 1989, OSHA modified (54 FR 2332) the Z table permissible exposure limits of 29 CFR 1910.1000 (General Industry) in response to current scientific data. Section 6(b)(7) of the Act requires provisions for exposure monitoring for each substance undergoing 6(b) rulemaking. A generic standard for exposure monitoring would satisfy the monitoring requirement of the Act thus enabling the Agency to deal directly with the narrower issues of the revision of the Z tables. OSHA published an Advance Notice of Proposed Rulemaking on September 27, 1988, (53 FR 37591). OSHA intends to review its compliance experience with exposure monitoring provisions and seek expert opinion to determine the appropriateness of generic exposure monitoring provisions. Abstract: The Bureau of Labor Statistics (BLS) has reported the number of reported "disorders associated with repeated trauma" have more than doubled since 1984. These serious, potentially crippling disorders account for 48 percent of all occupational illnesses reported to OSHA in 1988, up from 28 percent in 1984. These disorders are being recognized as very serious problems by the industrial nations of the world and some have promulgated ergonomic standards in the last several years. In November 1988, OSHA received a petition from a meat packing industry representative requesting the development of a standard covering ergonomic issues. Prior to issuing a Notice of Proposed Rulemaking (NPRM), OSHA will publish an Advance Notice of Proposed Rulemaking (ANPRM) to gather, review, and analyze available information in industry on individual case studies, anecdotal data, and statistical data in which ergonomic hazards have been addressed and resolved. OSHA also will seek this information from a variety of other sources.

Abstract: The present crane regulations for construction, general industry, and the maritime industry have not been revised since being promulgated in 1971. They rely heavily on outdated 1968 ANSI standards. OSHA has received comments that the existing provisions are inadequate and need revision to reflect current conditions and equipment. It has also been suggested that there is need to establish additional crane installation and use provisions, including possible certification programs for crane operators and riggers. OSHA anticipated this project will come about in several phases due to the magnitude of the project.

Abstract: The purpose of this regulatory action would be to update and revise a standard first issued in 1960. The current language in many instances addresses the hazards of cargo handling involving methods long since abandoned, and fails to address the serious hazards of newer methods. Because much of the current standard is out of date, there are problems with compliance. These revised requirements will provide both employers and employees with a blueprint for effective and safe work practices in the cargo handling industry. No alternative other than revision is contemplated. The annual cost of the revision is expected to be minimal -- less than five million dollars.

Abstract: On May 20, 1986, the Environmental Protection Agency (EPA) issued a report to OSHA, under Section 9(a) of the Toxic Substances Control Act, stating that EPA has reasonable basis to conclude that the risk of injury to worker health from exposure to four glycol ethers during their manufacture, processing and use is unreasonable, and that this risk may be prevented or reduced to a significant extent by OSHA regulatory action. EPA gave OSHA 180 days in which to respond to its report. OSHA published its response on December 11, 1986, stating that OSHA had preliminarily concluded that occupational exposures to the subject glycol ethers at the current OSHA permissible exposure limits may present significant risks to the health of workers. OSHA published an Advance Notice of Proposed rulemaking (ANPRM) on April 2, 1987, (52 FR 10586). OSHA will use the information received in response to the ANPRM, as well as other information and analysis, to prepare a proposed standard.

Abstract: In July 1985, OSHA was petitioned by the United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) to issue a hazard alert; issue an emergency temporary standard; and to begin work on a new permanent standard for methylene chloride (DCM). This request was based on information obtained from the Environmental Protection Agency and the National Toxicology Program indicating that DCM is an animal carcinogen and may have the potential to cause cancer in humans. In November 1986, OSHA notified the UAW that its petition had been granted, in part, and denied, in part. Specifically, OSHA issued a set of guidelines for controlling occupational exposure to DCM and OSHA denied that portion of the petition requesting the issuance of an emergency temporary standard. OSHA published an Advance Notice of Proposed Rulemaking on November 24, 1986 (51 FR 42257).

2087. CADMIUM

Significance: Regulatory Program

Legal Authority: 29 USC 655 et seq

CFR Citation: 29 CFR 1910, (Table Z-2)

Legal Deadline: None

Abstract: On June 18, 1986, the International Chemical Workers Union and the Public Citizen Health Research Group petitioned OSHA to issue an emergency temporary standard reducing the permissible exposure limit for cadmium to one microgram of cadmium per cubic meter of air. On June 25, 1987 the union and HRG filed a petition with the Court of Appeals requesting the Court to order OSHA to promulgate an ETS. In its July 1, 1987, response to the petitioners, OSHA stated that issuance of an emergency standard was not warranted, but that exposure to cadmium at levels permitted under the current standard represented a significant risk to worker health which would be addressed through section 6(b) rulemaking procedures. On September 26, 1988, OSHA published guidelines for controlling exposure to cadmium and recommended reduced exposure levels significantly below the permissible exposure limit. OSHA published a proposal on February 6, 1990 (55 FR 4052), and conducted hearings on June 5, 1990, in Washington, DC and on July 17, 1990, in Denver, CO. The comment period closed on October 18, 1990.

Abstract: This regulatory action will complete the consolidation and updating of Parts 1915 and 1910 by providing shipyard employees with coverage under one comprehensive OSHA standard. This revision effort will involve the promulgation of 20 maritime subparts. Its completion will be done in stages and will relieve shipyard owners from the burden of having comply with two sets of rules that are complex, prescriptive, confusing and, in some cases, conflicting. OSHA has established an Advisory Committee to assist the Agency is reviewing and revising these subparts. Experts from government, industry, unions and the states are working with OSHA on this project. A previously identified project, Surface Preparation and Preservation (RIN: 1218-AA96), will be included in this project.

Legal Deadline: None

Abstract: Concerns about the reliability and utility of injury and illness data have been raised by Congress, OSHA, NIOSH, BLS, the National Academy of Sciences, OMB, the General Accounting Office and representatives of business and labor. The revision of the regulations, forms, and associated interpretive material are being undertaken to simplify the injury and illness recordkeeping system. OSHA is currently working on this project and has not collected sufficient information to determine the effect on paperwork burden. Benefits will include: (1) A system that is easier for employers, employees and government personnel to use; (2) increased reliability and utility of the records; (3) comprehensive records of the injury and illness experience at a given site will be available; and (4) employee involvement and awareness in safety and health matters will be enhanced.

2090. PEL UPDATE PROPOSAL FOR CONSTRUCTION, AGRICULTURE, AND MARITIME

Significance: Regulatory Program

Legal Authority: 29 USC 655; 29 USC 657

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The permissible exposure limits (PELs) promulgated by OSHA in

1971 do not reflect current knowledge of the health effects of many toxic substances. OSHA published a proposal on June 7, 1988 (53 FR 20960) to amend and expand the PELs for general industry. On January 19, 1989 OSHA set new PELs for the toxic substances originally covered in 1971 and covered new substances in a single rulemaking that applied to general industry. OSHA now plans to update the old PELs for construction, maritime, and possible agricultural sectors not covered by the general industry proceeding. The PELs for these sectors are outdated: the construction industry (29 CFR 1926) references the 1970 ACGIH TLVs; the maritime industry cites three different references--29 CFR 1918 (longshoring), "dangerous gaseous contaminants not immediately dangerous to life" and "heavy concentrations of dusts." In addition, in the agricultural section, OSHA will consider the fact that chemicals and pesticides are currently regulated by EPA. As a result of this rulemaking, OSHA expects that a unified table of PELs for toxic substances will be adopted for all industries.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910

Legal Deadline: None

Abstract: Hazards at construction sites resulting from the absence of effective lockout/tagout procedures to control hazardous energy appear to be caused by several factors, all associated with the nature of the construction industry. These factors basically relate to such considerations as the types of machines and equipment found in construction; the makeup of the industry in which employment is relatively "short term," lasting only as long as the length of the current project; the presence of multiple employers having different employer/employee relationships and the temporary nature of the "in-the-field" maintenance activity. The Occupational Safety and Health Administration (OSHA) expects the proposal to address lockout-related hazards in those construction work-site areas in which the available data indicate these hazards to be significant. Regulatory options involve developing a comprehensive standard covering all potentially hazardous energy sources. OSHA will consider the use of the construction advisory committee to assist in the development of this standard.

2092. POWERED INDUSTRIAL TRUCK OPERATOR TRAINING

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.178

Abstract: Nationally, fatalities due to unsafe operation of industrial vehicles and equipment account for approximately 12 percent of the private sector fatalities. This is the second leading cause of fatalities in the private sector, behind only highway vehicle fatalities. The present standard has proven to be ineffective in reducing the number of accidents involving powered industrial trucks. OSHA intends to revise the present standard to increase its effectiveness by requiring, in performance language, initial and refresher training as necessary. The frequency of the refresher training will be based upon the ability of the vehicle operator to retain the knowledge, skills and abilities to perform the job safely. OSHA will also give guidance as to what information the instruction should include. There will also be other amendments to the standard to increase its effectiveness.

Significance: Regulatory Program

Legal Authority: Not Yet Determined

CFR Citation: 29 CFR 1926

Legal Deadline: None

Abstract: On November 14, 1978 (43 FR 52952), OSHA promulgated a standard that limited occupational exposures to lead. The standard also contained requirements for exposure monitoring, protective equipment, housekeeping and hygiene practices, medical surveillance, medical removal protection, posted areas and education and training. However, the scope of the standard did not include the construction industry. Lead exposures in the construction industry continued to be regulated by the air contaminants standard for construction (29 CFR 1926.55) which has no protective ancillary provisions such as those contained in the general industry standard. This standard adopted the 1970 American Conference for Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (200 ug/m3) which is four times the current standard for general industry. OSHA recognized that this level represents a potential for material impairment of health and is in the process of developing a proposal.

Significance: Regulatory Program

Legal Authority: 29 USC 657; 29 USC 673

Legal Deadline: None

Abstract: Concerns have been raised by Congress, OMB, OSHA, NIOSH, BLS, the National Academy of Sciences, GAO and representatives of business and labor about the reporting of fatalities and multiple hospitalizations. These include the procedures employees are required to follow, the length of time employers have to report the fatalities to OSHA, and the number of hospitalizations required before the employer must report the incident to OSHA. In particular, 48 hour reporting may allow too many workplace factors to change before OSHA can reach the worksite to perform an adequate investigation of the incident. In addition, there are concerns that the current regulation may not adequately inform employers of the need to report all occupational fatalities, including those that occur extended periods of time after the employee was originally injured. Benefits will include more accurate employer reporting of fatalities and multiple hospitalizations, an improved ability for OSHA to respond to serious accidents while evidence is still "fresh", an improved count of fatalities and multiple hospitalizations and an upgraded data base for researchers and policy officials.

Significance: Regulatory Program

Legal Authority: 29 USC 655

CFR Citation: 29 CFR Not yet determined

Abstract: Health complaints related to indoor air quality (IAQ) have increased significantly following energy conservation measures instituted in the early seventies. Such measures have generally reduced the infiltration of outside air, allowing the build-up of indoor air contaminants. Adverse health effects associated with indoor air contaminants are classified as: (1) sick building syndrome which is characterized by general complaints that may include headaches, fatigue, nausea, mucous membrane (eye, nose, and throat) irritation, coughs, and muscle pain; and (2) building-related illness which describes those specific medical conditions of known etiology which can often be documented by physical signs and laboratory findings. These include respiratory allergies and Legionnaires' disease. A particular concern with matters dealing with indoor air quality is exposure to passive tobacco smoke (PTS). A wide range of health effects caused by passive exposure to tobacco smoke have been reported by the Surgeon General, the National Research Council, the Environmental Protection Agency (EPA), and private researchers, as well as by citizens reporting (cont)

Additional Information: ABSTRACT (CONT): health effects due to exposure to passive smoke while at work. These effects range from acute annoyance and eye and respiratory tract irritation to the development of chronic pulmonary disease, cardiovascular disease, and lung cancer. OSHA received two petitions for an Emergency Temporary Standard (ETS) in May 1987. Both requested an ETS to prohibit smoking in all indoor workplaces except certain specified areas. OSHA determined that available data did not demonstrate the existence of a "grave danger," due to workplace exposure to passive tobacco smoke, as defined in Section 6(c) of the OSH Act. OSHA, therefore, denied the petitions on September 1, 1989. In response to the OSHA denial, a suit was filed by the Action on Smoking and Health (ASH) in the United States Court of Appeals for the District of Columbia D.C. Circuit for a review of the Agency's decision and for an order pursuant to 5 USC, Section 706 setting aside the denial. The Court upheld OSHA's decision not to issue an ETS in an unpublished decision issued on May 10, 1991. OSHA plans to publish a Request for Information on indoor air quality.

Abstract: On June 20, 1986, OSHA issued revised standards governing occupational exposure to asbestos, tremolite, anthophyllite, and actinolite in general industry and in the construction industry. These standards replaced OSHA's previous asbestos standard promulgated in 1972. Since the issuance of the revised standards, OSHA has received letters and petitions, from both rulemaking participants and nonparticipants, that contain additional comments, assertions and information that the rulemaking record may not fully reflect. These letters and petitions concern the appropriateness of regulating nonasbestiform tremolite, anthophyllite and actinolite as presenting the same health risk as asbestos. OSHA has granted a temporary stay of the effective dates of the current standards as they apply to nonasbestiform varieties of tremolite, anthophyllite and actinolite. This action was taken, in part, to enable the Agency to review letters and memoranda from the National Institute for Occupational Safety and Health as well as submissions by the R.T. Vanderbilt Company and various other (cont)

On February 12, 1990 (55 FR 4938), OSHA published a proposal to gather additional information and data to determine whether and how to regulate the nonasbestiform varieties. Hearings were held May 8-14, 1990, and the comment period closed on June 28, 1990. After the close of the post-hearing comment periods, the American Thoracic Society (ATS) submitted a final report on "The Health Effects of Tremolite." Abstract: OSHA's policy concerning the use of engineering controls and respirators was targeted for review by the President's Task Force on Regulatory Relief in 1981. Current OSHA regulations require that employers implement feasible engineering controls to maintain air contaminant concentrations in the workplace at or below the prescribed permissible exposure limits. The use of respirators is permitted only in those cases where engineering controls are not feasible, not yet installed, or not adequate. This policy has been criticized as being inflexible, not cost-effective, and often unnecessary for employee health protection. OSHA believes that any changes to the policy for use of engineering controls must be closely coordinated with revisions in the respiratory protection regulations (29 CFR 1910.134). This rulemaking does not address the assessment and reduction of any absolute existing risks, but rather addresses the possible change in risk abatement associated with the use of respirators instead of engineering controls. OSHA published a proposal on June 5, 1989 (54 FR 23991). Hearings were held on May 30-31, 1990, and continued on July 9-10, 1990.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.266. (Revision)

Legal Deadline: None

Abstract: Logging is a very hazardous industry. It has an incidence rate nearly twice that of manufacturing, and reflecting the seriousness of the injuries incurred, a lost workday rate nearly four times as high. The purpose of the standard will be to protect workers from the ever-present hazards of chain saw operation, falling objects (trees, branches), rolling or sliding logs, falls from trees, and materials handling accidents. At present there is no OSHA

standard specifically applicable to logging in general. There is a standard, 29 CFR 1910.266, applicable only to pulpwood logging; however, pulpwood logging is estimated to account for less than half of the logging activity in the United States. Development of a national OSHA standard addressing all types of logging will provide coverage for those loggers not now protected. The new regulation will provide coverage where there is no approved state regulation and will set a minimum safety level for those states that chose to develop a state regulation.

Abstract: 4,4'-Methylenedianiline (MDA) is a chemical used primarily to manufacture methylenediphenyl diisocyanate, which is used to make polyurethane foams and elastomers. Recent scientific data indicate that MDA is a carcinogen in animals and a potential carcinogen in humans. In 1983, OSHA and the Environmental Protection Agency participated in a joint effort to publish an advance notice of proposed rulemaking to solicit information on MDA production and use, estimates of environmental and occupational exposure, and studies of its toxic and carcinogenic effects. EPA evaluated the data received in response to the advance notice and concluded that the chemical presents an unreasonable risk of injury to the health of exposed workers. Under the provisions of section 9(a) of the Toxic Substances Control Act, EPA referred MDA to OSHA for action. OSHA responded to the EPA referral on 2/26/86. OSHA established a mediated rulemaking advisory committee composed of interested parties from labor, industry and government to assist the agency in developing a proposed standard. The Committee completed its work in June 1987 (cont)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.137; 29 CFR 1910.269

Legal Deadline: None

Abstract: A major area of coverage not addressed in the current OSHA electrical standards for general industry (29 CFR 1910) involves the maintenance and operation practices associated with electrical transmission and distribution lines, substations and generating stations. It is intended that the proposed standard fill this void by establishing minimum requirements for electrical safety work practices for qualified employees working on or near installations whose purpose is the generation and distribution of electricity. The proposal also revises the standards for electrical protective equipment, which is used routinely for electrical power work.

2111. FORMALDEHYDE

Significance: Regulatory Program

Legal Authority: 29 USC 655 et seq

CFR Citation: 29 CFR 1910.1048

Legal Deadline: None

Abstract: On December 4, 1987, the Occupational Safety and Health Administration (OSHA) published a revised standard for occupational exposure to formaldehyde (29 CFR 1910.1048). This standard contained permissible exposure limits of 1 part weighted average (TWA) and 2 ppm as a 15-minute short-term exposure limit (STEL), along with ancillary protective provisions. Several interested parties petitioned the courts to review this standard. On June 9, 1989, the U.S. Court of Appeals for the District of Columbia Circuit issued its decision, which upheld the standard, but remanded the standard back to the Agency for reconsideration of two issues: the assessment of the risk of cancer at 1 ppm, and the failure of the Agency to require medical removal protection (MRP). The final standard also required that hazard-warning labels be placed on containers of all products composed of greater than 0.1 percent formaldehyde or capable of releasing formaldehyde into the air under any normal condition of use at concentrations reaching or exceeding 0.1 ppm. Additional Information: ABSTRACT CONT: The Formaldehyde Institute filed an application for administrative stay of the formaldehyde standard's cancer labeling requirement. Based on the confusion and misunderstanding of the standard's requirements reflected in the application and in numerous comments submitted to the Agency subsequent to the application, the Agency decided to stay the hazard communication provisions of the formaldehyde standard (29 CFR 1910.1048(m)(1)(i) through (m)(4)(ii). The purpose of the stay is to permit the Agency to propose to revoke these paragraphs and rely on the provisions of the hazard communication standard or develop some appropriate alternative. The stay was first granted on December 13, 1988 (53 FR 50198). On June 13, 1990 (55 FR 24070), OSHA extended the administrative stay until August 13, 1990, to consider further developments in the hazard communication rulemaking in determining what regulatory action to propose on formaldehyde. Based on public comment and the rulemaking record, OSHA published a formaldehyde proposal on July 15, 1991. The comment period ended on August 14, 1991.

Abstract: On October 10, 1985, EPA referred 1,3-butadiene (BD) to OSHA for possible regulatory action under section 9(a) of the Toxic Substance Control Act. On April 11, 1986, OSHA responded to the EPA referral indicating that the Agency has preliminarily concluded that BD poses risk to the occupationally exposed population at the current OSHA permissible exposure limit and that the risk can be reduced or prevented through the promulgation of a revised standard. On October 1, 1986 (51 FR 35003), OSHA published an ANPRM initiating regulatory action within the meaning of section 9(a) of TSCA. Comments were submitted to OSHA by December 30, 1986. Based on the comments received in response to the ANPRM OSHA developed a proposal

which was published on August 10, 1990. Hearings were held in Washington, D.C. on January 15, 1991, and in New Orleans, Louisiana on February 20, 1991. Submission of the post-hearing comments and briefs were scheduled to end on June 22, and July 22, 1991 respectively; however, OSHA extended the dates to September 27, and October 28, 1991.

Abstract: OSHA promulgated a final rule on August 24, 1987, that extended the protections of its Hazard Communication Standard (HCS) from the manufacturing sector to all other workplaces where employees are exposed to hazardous chemicals. The HCS requires covered employers to establish hazard communication programs for their employees, including labels on containers, material safety data sheets, and training programs. On August 8, 1988, OSHA published a NPRM to modify the final rule, and provide an opportunity for public comment. Public comments have been received, hearings have been held, and OSHA will prepare a final rule based on the public record for this standard, including the record developed in earlier rulemakings. OSHA published a request for information (RFI) on May 17, 1990, (55 FR 20580) to improve the quality and representation of the information provided on the MSDS's and labels and to consider a standardize format. OSHA will determine if the rule should be reopened after the comments and other relevant information are analyzed. The comment period for the RFI expired on August 15, 1990.

Significance: Regulatory Program

Legal Authority: 29 USC 655 et seq

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Many health-care workers are exposed to blood and body fluids from patients who have active bloodborne infections or are carriers of these infections. Such exposure presents a potential risk of disease for the health-care worker. One such disease, Hepatitis B, has been shown to present a substantially increased risk for health-care workers. Hepatitis B is a serious disease that may require hospitalization and, in a small percentage of cases, is fatal. Another bloodborne disease, Acquired Immune Deficiency Syndrome (AIDS) is also of great concern to health-care workers. Only a very small number of infections, however, have been documented to have resulted from occupational exposure to the virus that causes AIDS. About half of the nation's 6 million health-care workers are at increased risk from exposure to bloodborne infectious diseases. (cont)

Additional Information: ABSTRACT CONT: Some examples of health-care workers at highest risk are emergency room workers, dialysis unit workers, operating room personnel, intensive care unit workers, and blood bank employees. The Occupational Safety and Health Administration (OSHA) has no standard specifically regulating occupational exposure to bloodborne infectious diseases. In 1983, the Agency issued guidelines for reducing the occupational risk of Hepatitis B infection (OSHA Instruction CPL 2-2.36). These guidelines are voluntary, however. In September 1986, OSHA was petitioned by the American Federation of State, County and Municipal Employees and other unions for the issuance of an emergency temporary standard to protect workers from occupational exposure to bloodborne infectious diseases, such as hepatitis B and AIDS. On May 30, 1989, OSHA published its proposal in the Federal Register (54 FR 23042). The proposal generated over 2900 comments and hearings were held in Washington, DC, Chicago, New York City, Miami, Florida, and San Francisco. OSHA will review the comments and the testimony presented at the hearings to determine the scope and provisions of a final rule.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910, (Subpart H)

Legal Deadline: None

Abstract: Standards in 29 CFR Part 1910, Subpart H, which address the storage, handling and use of hazardous materials, such as compressed gases, acetylene, hydrogen, oxygen, liquified petroleum gases, and flammable and combustible liquids, will be revised. This regulatory action will provide a new approach to the revision of Subpart H and will occur in three phases in an expanded timeframe. The three phases will be (1) Process Hazards Management, (2) Flammable and Compressed Gases, and, (3) Hazardous Liquids. The first phase of the proposed action is intended to better protect employees from unexpected releases of significant quantities of dangerous substances. The remaining phases are intended to simplify, clarify and consolidate standards on hazardous materials and assist employers and employees in general industry to better understand and better focus on the hazards inherent in the use, handling, and storage of such materials.

Significance: Regulatory Program

Legal Authority: 29 USC 655 et seq

Abstract: On June 20, 1986, OSHA published revised standards governing occupational exposure to asbestos, tremolite, anthophyllite and actinolite in general industry and construction. In these standards, OSHA reduced the 8-hour time weighted average (TWA) permissible exposure limit (PEL) to 0.2 f/cc, and established other protective provisions. This standard was legally challenged, and as a result, the Court of Appeals for the District of Columbia upheld the standard except that the court held that OSHA must reconsider several of the standard's provisions to determine if more protective regulatory provisions are available to reduce risk. One of the issues to be reconsidered was the need for a short-term limit for occupational exposure to asbestos in response to the Court's directive. This limit was established as 1 f/cc averaged over a 30-minute sampling period and a legal notification of this amendment was published on September 14, 1988, at 53 FR 35610. (cont)

CFR Citation: 29 CFR 1910.121, (Subpart H)

Abstract: Public Law 99-499 requires the Secretary of Labor to promulgate a final standard for Hazardous Waste Operations and Emergency Response. The final standard was issued on March 6, 1989. Section 126 of Public Law 99-499 was amended by Congress on December 22, 1987 to require the Secretary of Labor to include in the final rule a training course certification program at least as comprehensive as the EPA's model program for asbestos abatement in public buildings. This proposed revision would add criteria and requirements for training course certification of training for workers involved in hazardous waste operations.

Abstract: OSHA currently has no general regulation requiring that employers train their employees in the safe operation of motor vehicles on the job, including the required use of seat belts, although motor vehicle crashes are the single largest cause of occupational fatalities. On-the-job motor vehicle crashes, in both on-road and off-road vehicles, caused over 30 percent of traumatic work-related fatalities in 1987. In the manufacturing sector, which is the primary target of most OSHA regulations, more workers are killed by motor vehicles than by fixed machinery. The hazards faced by workers operating automobiles and trucks, both on public highways and at private facilities, could be greatly reduced by requiring employers to train their employees in safe driving techniques, including the required use of seat belts. OSHA plans to proceed with a single NPRM that would regulate all employers covered by the OSH Act. The approach will be to develop a generic, performance-oriented standard. Significance: Regulatory Program

Legal Authority: Not Yet Determined

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The 1989 Air Contaminants rulemaking, in which OSHA simultaneously regulated exposure limits for nearly 400 substances based on the recommendations of expert organizations, was a fast and effective way of protecting workers in general industry. While substance-specific standards may be appropriate for some substances, they have traditionally been resource-consuming rulemakings both in terms of the Federal time and dollars spent on individual substances and in terms of the litigation efforts expended by the public and the government. Using existing resources, OSHA can regulate more chemicals and provide protection for more workers by revising the Z Table at regular intervals to establish permissible exposure limits (PELs), and by using substance-specific standards only in those cases where complex issues or the nature of the risk necessitate additional protection. OSHA plans to establish a program to revise the Z Table on a regular basis. The options paper was completed on May 23, 1991. The updating of the PEL on a regular basis will occur after the draft final rule for PEL Update for construction, agriculture, and maritime is completed.

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The Veterans' Reemployment Rights (VRR) law 38 USC, Sections 2012-2206 with subsequent amendments and judicial constructions has become a confusing and cumbersome doctrine. As a result, the Administration proposes to introduce legislation replacing the existing Veterans' Reemployment Rights statute. The proposed legislation requires the Secretary of Labor to issue regulations implementing and interpreting the statute. The proposal will seek to: (1) make the law understandable (2) determine the veteran's entitlement and eligibility requirement on time rather than category of service, (3) promote expedited resolution of claims and (4) provide statutory processing timeframes. The costs and benefits are intangible and relate to the ability to maintain sufficient membership in the Armed Forces, and to ensure the availability of citizen-soldiers.

Abstract: To revise new Chapter IX of Title 20, CFR, titled Office of the Assistant Secretary for Veterans' Employment and Training, to fully describe the authority and responsibilities for provision of services to veterans through administration of programs and activities carried out through the Veterans' Employment and Training Service (VETS). Revisions are to bring regulations into conformity with 38 U.S.C. Chapter 41,42, and 43, as amended by P.L. 100-323. Previous rulemaking will establish the new 20 CFR Chapter IX, Parts 1000-1099, which are hereby revised. According to PL 100-323, several major provisions must be added to the regulations as follows: a) expand responsibilities of Assistant Secretary for Veterans' Employment and Training; (b) establish position of Regional Administrator for Veterans' Employment and Training; (c) expand duties of Disabled Veterans' Outreach Program Specialists; (d) establish assignment formula and duties for local Veterans; employment Representatives; (cont)

Unified Agenda of Federal Regulations

AGENCY: Department of State.

ACTION: Semiannual publication of regulatory agenda.

SUMMARY: As required by Executive Order 12291 and the Regulatory Flexibility Act of 1980 (Pub. L. 96-354), the October 1991 agenda of regulations of the Department of State is set forth below. This agenda was prepared under the guidelines of OMB's memorandum of June 11, 1991. The purpose of the agenda is to provide information to the public on the Department's regulatory plans.

Legal Deadline: NPRM, Statutory, June 1, 1991.
Deadline has been extended.

Abstract: The ITAR were first published in their current form in 1955 and have been periodically amended to reflect statutory enactments and to implement foreign policy. The last substantial revision occurred in December 1984. The State Department office which administers the ITAR, the Office of Defense Trade Controls, is continually seeking ways to improve its export control function through clarification and amendment of the ITAR, as necessary. In EO 12735, the President determined that items should be removed from the USML and transferred to the jurisdiction of the Commerce Department unless significant national security interests would be jeopardized. These proposed rules will transfer many dual-use items to the CoCom list. Many exporters will find the new USML simplified and easier to comprehend.

Abstract: By resolution of the international diplomatic conference that adopted the final text of the Convention, there was a recommendation that the Department of State establish an internal system to permit the optional registration of information to facilitate the discovery of international wills. The President transmitted the Convention to the Senate on July 2, 1986, with the recommendation that the Senate give its advice and consent to U.S. ratification of the Convention, and information about the intention to establish the Registry in the Department of State (Senate Treaty Doc. 99-29). The Senate gave advice and consent to ratification on August 2, 1991. Implementing legislation, the International Wills Act, is required before the United States can take further action to ratify the Convention.

2130. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS

Legal Authority: 22 USC 2658

CFR Citation: 22 CFR 135

Legal Deadline: None

Abstract: This regulation established uniform administrative requirements for grants and cooperative agreements to State and local governments. The regulation is being changed to include institutions of higher education, hospitals, and other nonprofit organizations. This effort represents a merging of OMB circulars A-102 and A-110, and is being promulgated by 27 Federal agencies under the common rulemaking procedures. As a result of public comment, OMB has placed this rule on hold. OMB discontinued work to combine circulars A-110 and A-102. This effort would have resulted in uniform administrative requirements for grants and cooperative agreements. A new OMB task force reconvened to review provisions of circular A-110 (pertinent to institutions of higher education, hospitals, and other nonprofit organizations). Department regulations will follow circular A-110 final publication.

Department Regulations Agenda; Semiannual Summary

AGENCY: Office of the Secretary, DOT.

ACTION: Department regulations agenda.

SUMMARY: The regulations agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The agenda provides the public with information about the Department of Transportation's regulatory activity. It is expected that this information will enable the public to be more aware of and allow it to more effectively participate in the Department's regulatory activity.

ADDRESSES: The mailing address for the initiating offices of the Department which appear in the agenda is 400 7th Street SW., Washington, DC 20590; except for the Federal Aviation Administration, which is located at 800 Independence Avenue SW., Washington, DC 20591, and the U.S. Coast Guard, which is located at 2100 2nd Street SW., Washington, DC 20593.

Agenda

SUPPLEMENTARY INFORMATION:

Background

Improvement of Government regulations is a prime goal of the Bush Administration. There should be no more regulations than necessary, and those that are issued should be simpler, more comprehensible, and less burdensome. Regulations should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed.

To help the Department of Transportation (Department) achieve these goals and in accordance with Executive Order 12291 "Federal Regulation" (46 FR 13193; February 19, 1981) and the Department's Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), the Department prepares a semiannual regulations agenda for publication in the **Federal Register**. The agenda summarizes all current and projected rulemaking, reviews of existing regulations, and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding 12 months or such longer period as may be anticipated or for which action has been completed since the last agenda.

The agendas are based on reports submitted by the initiating offices in January and July each year. After these reports are consolidated for and reviewed by the Department Regulations Council, the Department's regulations agenda is prepared and published in the **Federal Register**. The Department's last agenda was published in the **Federal Register** on April 22, 1991 (56 FR 17588). The next one is scheduled for publication in the **Federal Register** in April 1992.

Regulatory Flexibility Act

In 1980, Congress passed the Regulatory Flexibility Act (RFA), Public Law 96-354, which requires the designation of those regulations for which a Regulatory Flexibility Analysis will be prepared; i.e., those regulations that would have a significant economic impact on a substantial number of small entities. A Regulatory Flexibility Analysis is required for a rulemaking which, in the heading "Small Entities Affected," indicates an effect on small businesses, governmental jurisdictions, or organizations. If a Regulatory Flexibility Analysis will be prepared for a particular rulemaking, that fact also will be noted under the heading "Analysis."

The RFA also requires that, each year, the Department publish a list of those regulations that have a significant economic impact on a substantial number of small entities and are to be reviewed under the Act during the succeeding 12 months. The agenda includes those regulations to be reviewed under the RFA or those for which review has been concluded since the last agenda. However, it should be noted that, after a preliminary assessment of the regulations listed for RFA review, it may be found that the regulations, in fact, do not have a significant economic impact on a substantial number of small entities, and a full RFA review will be unnecessary.

Regulatory Impact Analysis

A preliminary and final Regulatory Impact Analysis is required for each proposed and final regulation, respectively, that

(1) is likely to result in:

(a) An annual effect on the economy of $100 million or more;

(b) a major effect on the general economy in terms of costs, consumer prices, or production;

(c) a major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions;

(d) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets; or

(2) the Secretary or head of the initiating office has determined requires such an analysis.

Definitions

The agenda covers all rules and regulations of the Department, including those that establish conditions for financial assistance. The following definitions are provided for ease in understanding the information in this document.

(1) *Initiating office* means an operating administration or other organizational element within the Department, the head of which is authorized by law or delegation to issue regulations or to formulate regulations for issuance by the Secretary.

(2) *Significant regulation* means a regulation that is not an emergency regulation and that, in the judgment of the head of the initiating office or the Secretary or the Deputy Secretary,

(a) is a major regulation;

(b) concerns a matter on which there is substantial public interest or controversy;

(c) has a major impact on another operating administration or other parts of the Department or other Federal agency;

(d) has a substantial effect on State and local governments;

(e) has a substantial impact on a major transportation safety problem;

(f) initiates a substantial regulatory program or change in policy;

(g) is substantially different from international requirements or standards; or

(h) otherwise involves important Department policy.

(3) *Major regulation* means a significant regulation for which a Regulatory Impact Analysis is required to be prepared.

(4) *Emergency regulation* means (a) a regulation that, in the judgment of the head of the initiating office, circumstances require to be issued without notice and opportunity for public comment or made effective in less than 30 days after publication in the **Federal Register** or (b) is governed by short-term statutory or judicial deadlines.

(5) *Nonsignificant regulation* means a regulation that, in the judgment of the head of the initiating office, is neither a significant nor an emergency regulation.

Explanation of Information on the Agenda

The format for this agenda is required by Office of Management and Budget memorandum of June 11, 1991.

First, the agenda is divided by initiating offices. Then, in accordance with the OMB memorandum, for each initiating office, the agenda is divided into four categories: (1) Prerule stage, (2) proposed rule stage, (3) final rule stage, and (4) completed actions. For each entry, the agenda provides the following information: (1) The "significance" of the action (i.e., whether it is significant because it is on the Regulatory Program or because of agency priority or whether it is nonsignificant or routine and frequent); (2) a short descriptive title; (3) the legal basis for the action being taken or the regulation being reviewed; (4) the related regulatory citation in the Code of Federal Regulations; (5) an indication of any legal deadline and, if so, for what type of action (e.g., NPRM, final rule); (6) an abstract of the review or the proposed or final regulation; (7) a timetable, including the earliest expected date for a decision, on whether to issue the proposed or final regulation or complete the review and determine the corrective action to be taken. (The action taken can be revocation or revision of the regulation, or it can be a determination that no regulatory action is necessary because the regulation is found to be achieving its goals and the goals and objectives of Executive Order 12291 and the Department's Regulatory Policies and Procedures.); (8) an indication as to whether the rulemaking will affect small entities and/or levels of government and which categories of small entities or governments will be impacted; (9) if there is information that does not fit in the other categories, it will be included under a separate heading entitled, "Additional Information"; (10) a listing, where determined, of any analyses an initiating office will prepare or has prepared for the rulemaking document; e.g., a Regulatory Impact Analysis or Evaluation, an Environmental Impact Statement (EIS), a Regulatory Flexibility Analysis, or an Urban Impact Analysis. (It should be noted that, even though a Regulatory Impact Analysis is not required for some items on the agenda, the Department requires an economic analysis for all of its regulations. This economic analysis is contained in the Regulatory Evaluation, if a Regulatory Impact Analysis is not prepared.); (11) an agency contact office or official who can provide further information, including advice on how to obtain documents referenced in the agenda; and (12) a Regulation Identifier Number (RIN) assigned to identify an individual rulemaking in the agenda and facilitate tracing further action on the issue in the **Federal Register** which may occur between agenda publications. (Departmental rulemaking documents published in the **Federal Register** now contain RIN numbers.)

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules), to keep those requirements operationally current, only the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations are included; individual regulations are not listed.

If a regulatory docket number has already been established, it may be provided under the "Additional Information" heading. If a member of the public desires further information regarding a particular proposal or regulation, reference should be made to this docket number.

In the "Timetable" column, abbreviations are used to indicate the particular documents being considered for issuance by that date. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, NPRM for Notice of Proposed Rulemaking, and FR for Final Rule. Listing a future date in this column is not an indication that a proposed or a final rule will be issued on that date; it is the earliest date on which a decision is expected to be made

on whether to issue the document listed. Submittal of any proposed or final rule to the Office of Management and Budget for review under Executive Order 12291 must follow such a decision. For major rules, this review could take 60 days or more. If any document is issued, publication in the **Federal Register** would follow within a few days. In addition, these dates are based on current schedules. Information received subsequent to the issuance of this agenda could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

Finally, a dot (●) preceding an entry indicates that the entry appears in the agenda for the first time.

Mailing Lists for Regulatory Documents

To assist the public in obtaining regulatory documents issued within the Department of Transportation, an Appendix A has been included in this document. The appendix contains instructions on how to be placed on mailing lists for or to obtain copies of specific regulatory documents, including the Department's semiannual regulations agenda issued by the operating administrations of the Department and the Office of the Secretary. There is no charge for this service; however, because of the costs involved, the number of copies of a document forwarded to an individual requestor may be limited. Persons already on mailing lists for particular documents within the Department will remain on those lists and should not reapply.

By following the instructions specified in the appendix, a person can be placed on a mailing list for future copies of the Department's regulations agenda, which will be updated and published in the **Federal Register** every year during April and October. By using the agenda, individuals can determine which Notice or Advance Notice of Proposed Rulemaking, to be issued by elements of the Department, is of interest to them. Then, using the instructions in the appendix, such persons also can be placed on a mailing list to ensure that, after the document of interest is issued, a copy will be mailed to them for their review and comment. In this way, individuals will be relieved of the burden of having to review the **Federal Register**, perhaps on a daily basis. The Department expects that this process will ensure that those people placed on mailing lists will receive early notice so that their views on the document can be adequately prepared and presented within the established comment period.

General Rulemaking Contact Persons

To assist persons desiring to obtain general information concerning the rulemaking process within the Department's operating administrations, an Appendix B has been added to the agenda. This appendix sets forth the addresses and the telephone numbers of the persons who can respond quickly to requests for general rulemaking information. Please note, however, that questions related to particular rulemaking actions should still be referred to the contact person listed with the particular rulemaking on the agenda.

Public Rulemaking Dockets

To facilitate the inspection of docket files and the submission of comments by the public, an Appendix C sets forth the addresses and working hours for the Rules Docket for each operating administration.

Request for Comments

Agenda

Our agenda is intended primarily for the use of the public. Since its inception, we have made modifications and refinements that we believe provide the public with more helpful information, as well as make the agenda easier to use. We would also like you, the public, to make suggestions or comments on how the agenda could be further improved. For example, do you find the information presented in an easily understandable manner? Do you find it easy to follow a regulation's development from agenda to agenda? Do you find that the format for setting out the information enables you to use the agenda easily? Do you find that the presentation of the information in the agenda is clearly explained in the preamble to the agenda? Your responses to these questions or any other comments or suggestions you may have should be sent to Neil R. Eisner, whose address appears above.

Reviews

In an effort to comply further with the spirit of Executive Order 12291 and the Regulatory Flexibility Act, we are also seeking suggestions on existing regulations that should be included in our review of existing regulations; that is, which existing regulations issued by an operating administration of the Department or the Office of the Secretary do you believe need to be reviewed to determine whether they should be revised or revoked? The Department is particularly interested in obtaining information on requirements that have a "significant economic impact on small entities" and, therefore, must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please send them, along with your explanation of why they should be reviewed, to the concerned operating administration or the Office of the Secretary at the appropriate address noted in the "Addresses" paragraph above.

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that are targeted for review under the RFA. Those comments should be addressed to the "contact" person of the operating administration involved at the appropriate address noted in the "Addresses" paragraph above.

Purpose

The Department is publishing this regulations agenda in the **Federal Register** to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity. Knowledge of the nature and scope of this activity, as well as the specific proposals and reviews being considered, should result in more effective public participation in the Department's regulatory activity. For example, awareness of the dates when notices may be issued seeking public comment should allow appropriate planning and more efficient use of the comment period. By providing the expected date for a decision on whether to issue a final rule, the Department expects that more appropriate planning by those concerned with the regulation will also be possible. This publication in the **Federal Register** does not impose any binding obligation on the Department or any of the offices within the Department with regard to any specific item on the agenda. Regulatory action, in addition to the items listed, is not precluded. If further information is desired on any of

the items listed in the agenda, the public is encouraged to contact the individual listed for the particular item. Additional information concerning the agenda in general or the Department's Regulatory Policies and Procedures may be obtained from Neil R. Eisner, whose address and telephone number appear above.

Issued in Washington, DC, on September 23, 1991.

Samuel K. Skinner,

Secretary of Transportation.

Appendix A - Instructions for Obtaining Copies of Regulatory Documents

Some Administrations within the Department differ in procedures or as to inclusion on a mailing list. For the offices listed below, persons desiring to obtain a copy of a specific regulatory document to be issued that is listed in this agenda should communicate, either by telephone or by letter, with the contact person listed with the regulation at the following addresses:

United States Coast Guard (USCG)

(Name of contact person), United States Coast Guard, 2100 Second Street SW., Washington, DC 20593.

Federal Highway Administration (FHWA)

(Name of contact person), Federal Highway Administration, 400 7th Street SW., Washington, DC 20590.

Federal Railroad Administration (FRA)

(Name of contact person), Federal Railroad Administration, 400 7th Street SW., Washington, DC 20590.

National Highway Traffic Safety Administration (NHTSA)

(Name of contact person), National Highway Traffic Safety Administration, 400 7th Street SW., Washington, DC 20590.

Urban Mass Transportation Administration (UMTA)

(Name of contact person), Urban Mass Transportation Administration, 400 7th Street SW., Washington, DC 20590.

Saint Lawrence Seaway Development Corporation (SLSDC)

(Name of contact person), Saint Lawrence Seaway Development Corporation, 400 7th Street SW., Room 5424, Washington, DC 20590.

Research and Special Programs Administration (RSPA)

(Name of contact person) Research and Special Programs Administration, 400 7th Street SW., Washington, DC 20590.

Maritime Administration (MARAD)

James Saari, Secretary, Maritime Administration, 400 7th Street SW., Room 7300B, Washington, DC 20590, (202) 366-5746.

Federal Aviation Administration (FAA)

The FAA has a mailing list system for Notices and Advance Notices of Proposed Rulemaking (NPRMs and ANPRMs). Persons interested in obtaining future copies of all of those documents to be issued by the FAA or only of those concerning certain parts of the Federal Aviation Regulations should request a copy of Advisory Circular No. 11-2, which describes the application procedure, by calling 202-267-3479 or by writing to: Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-200, 800 Independence Avenue SW., Washington, DC 20591.

Office of the Secretary (OST)

Persons desiring to receive future copies of the Department's regulations agenda should submit their request to: Assistant General Counsel for Regulation and Enforcement, C-50, Office of the General Counsel, Department of Transportation, Washington, DC 20590, (202) 366-4723.

Persons who have an interest in specific regulatory documents to be issued by the Office of the Secretary should forward requests for copies of those documents to the same address. These requests should fully identify the document desired.

Appendix B - General Rulemaking Contact Persons

The following is a list of persons who can be contacted within the Department for general information concerning the rulemaking process within the various operating administrations.

USCG - LTCR Don Wrye, Marine Safety Council, USCG Headquarters Building, Room 3600, 2100 2nd Street SW., Washington, DC 20593; telephone: (202) 267-1534.

2140. + PROPOSED POLICY ON PEAK PERIOD PRICING OF AIRPORT LANDING FEES

Significance: Regulatory Program

Legal Authority: 49 USC 1301 et seq

CFR Citation: 14 CFR 399

Legal Deadline: None

Abstract: The Department is considering whether to propose to establish a set of guidelines to encourage the voluntary development of peak and off-peak pricing systems for airport landing fees at congested U.S. airports. The guidelines would provide economic incentives to promote more efficient use of existing airport facilities, which would reduce congestion and delays. This rulemaking is significant because of substantial public interest.

2141. + ANTIDRUG PROGRAMS FOR DEPARTMENT OF TRANSPORTATION CONTRACTORS

Significance: Agency Priority

Legal Authority: 49 USC 322; 40 USC 486(c)

CFR Citation: 48 CFR 1226.7001; 48 CFR 1252.226-70; 48 CFR 34; 48 CFR 1.301

Legal Deadline: None

Abstract: Consistent with DOT antidrug initiatives for DOT employees and employees of regulated industries, DOT was considering requiring its contractors to establish antidrug programs (including drug testing and employee assistance programs) for employees performing sensitive safety or security functions under DOT contracts. Although initially considered significant because of substantial public interest, the Department is considering withdrawing this rulemaking. Uniform, government-wide regulations to deter drug use among contractor employees have been issued to implement the Drug-Free Workplace Act.

2142. DIRECT FLIGHTS

Significance: Nonsignificant

Legal Authority: 49 USC 1381

CFR Citation: 14 CFR 399

Legal Deadline: None

Abstract: Donald L. Pevsner petitioned the CAB to institute a rulemaking proceeding to ban use of the term "direct flight" because it is deceptive, and to declare use of the term to be a prima facie violation of section 411 of the Federal Aviation Act of 1958. The Department is now considering what action to take in response to the petition.

Legal Authority: 49 USC 1371; 49 USC 1381

CFR Citation: 14 CFR 380.30(e); 14 CFR 399.84

Legal Deadline: None

Abstract: The DOT rules cited above state that any price stated for air transportation, a tour or a tour component must be the entire price for that transportation, tour or component. In this petition, Mr. Donald Pevsner complains that some tour operators advertise prices which do not include additional features which must be purchased and which cost extra. He asks that the rules be amended to state that such additional features may only be priced separately if they may be purchased separately, i.e., if they are optional rather than mandatory.

2145. + COMMERCIAL SPACE TRANSPORTATION: FINANCIAL RESPONSIBILITY REQUIREMENTS FOR LICENSED LAUNCH ACTIVITIES

Significance: Regulatory Program

Legal Authority: PL 98-575; PL 100-656, Sec 15(c) to 16 Commercial Space Launch Act

CFR Citation: None

Legal Deadline: None

Abstract: Persons authorized to conduct commercial launch activities by a license issued by the Office of Commercial Space Transportation (OCST) are required to obtain insurance or demonstrate financial responsibility, in amounts and on terms prescribed by OCST, to protect against third-party or government property damage claims resulting from the licensed activities. Licensees and other launch participants are also required to enter into reciprocal waivers of claims arising out of licensed activities. In addition, persons engaged in commercial launch operations must provide proof of financial responsibility, or offer other assurances, adequate to protect the government when its property or personnel are involved in such operations. This rulemaking codifies the procedures by which OCST sets appropriate levels and terms of insurance and financial responsibility required to be carried by persons subject to its authority. This action is significant because of substantial public interest.

2146. ● + LICENSING COMMERCIAL SPACE LAUNCH ACTIVITIES

Significance: Regulatory Program

Legal Authority: 49 USC app 2601 to 2623

CFR Citation: 14 CFR 400 to 415

Legal Deadline: None

Abstract: The Commercial Space Launch Act of 1984, as amended, grants the Department of Transportation's Office of Commercial Space Transportation authority to license and otherwise regulate commercial launches and the commercial operation of launch sites. The Office must ensure that commercial space launch activities are conducted in a manner that does not jeopardize public health and safety, and the safety of property without, however, imposing unnecessary regulatory burdens on the commercial launch industry. The industry has grown in size and complexity since the original regulations were published in 1988, and the Office continues to evolve its licensing program to reflect these changes. This rulemaking would modify the current regulations to reflect a streamlined and more mature licensing regime developed over the past few years. Such changes would benefit the industry by reducing regulatory burdens, thus reducing costs.

This rulemaking is significant because of substantial public interest.

CFR Citation: 49 CFR 23

Legal Deadline: None

Abstract: The Department is reviewing its regulation establishing a minority business enterprise (MBE) program in its financial assistance programs (49 CFR Part 23). This regulation has been controversial, is of interest to most DOT grant recipients and contractors, and affects the operations of all DOT financial assistance programs. Section 106(c) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (STURAA) extended and modified the program as applied to FHWA and UMTA; similar legislation applied the same requirements to the FAA. The Department issued a final rule to make the STURAA changes in October 1987; a similar rule for FAA programs was published in May 1988. The Department intends subsequently

to issue an NPRM that would propose further changes in the regulation.

CFR Citation: Not yet determined

Legal Deadline: NPRM, Statutory, January 5, 1993.

Abstract: Executive Order 12699 implements certain provisions of the Earthquake Hazards Reduction Act of 1977. The Department has up to three years from the date of the Order (January 1, 1990) to demonstrate compliance for developing and implementing its own mission-appropriate and cost-effective seismic safety and hazard reduction program. For DOT, this includes the design and construction of new transportation buildings, construction and leasing of new buildings, assistance in financing through grants/ loans and guarantees of newly constructed buildings, and responsibility for regulating the structural safety of new buildings. Abstract: This action proposed to make direct air carriers responsible for returning charter passengers stranded by strikes or other service interruptions, by eliminating the force majeure clause from charter contracts. However, the CAB subsequently issued an interpretive rule (ER-1387, 49 FR 33436) which was affirmed in court. (Arrow Air, Inc. v. Dole, 784 F.2d 1118 (1986)). Abstract: The Department of Transportation (DOT or Department) is proposing to establish procedures that must be followed when a Department employee or former employee is requested or subpoenaed to provide testimony or produce records concerning information acquired in the course of performing official duties or because of the official status of the employee. It is also proposing to impose certain restrictions on employee testimony. The proposed procedures and restrictions are necessary because Department attorneys and employees currently spend a considerable amount of time responding to litigants' requests for documents or testimony, often on the same matter. This rule would ensure more efficient use of Department resources, minimize the possibility of involving the Department in controversial issues not related to its mission, maintain the impartiality of the Department among private litigants, and enhance the Department's ability to respond to requests.

Abstract: The Department is proposing to provide formal notice to the public of its enforcement policy concerning the rebating of international air fares by adopting that policy as a Policy Statement in the regulations. No change in the substance of that policy is intended. The Department also proposes to revoke an existing Policy Statement on the advertising of rebates that is contrary to DOT's current enforcement policy. The proposal responds to a request for such action by the American Society of Travel Agents. Although there is no judicial or statutory deadline for the Department's implementation, the statutory ban was effective 02/25/90.

Abstract: This interim final rule amends the rules governing smoking aboard aircraft to incorporate a recent statutory ban on smoking aboard most U.S. flight segments. The statutory ban applies to both U.S. and foreign air carriers. This rulemaking proposed to clarify current rule and make other minor changes. This rulemaking is significant because of substantial public interest.

Significance: Agency Priority

Legal Authority: 49 USC 1374(a); 49 USC 1374(c)

CFR Citation: 14 CFR 382

Legal Deadline: None

Abstract: An SNPRM proposed three additions to Part 382 to implement the Air Carrier Access Act of 1986. The additions concern standards for boarding chairs; airport terminal transportation systems; and substitute service for persons denied the opportunity to fly because of inaccessible small aircraft. This rulemaking is considered significant because of substantial public interest.

2167. NONDISCRIMINATION ON THE BASIS OF AGE IN DOT FINANCIAL ASSISTANCE PROGRAMS

Significance: Nonsignificant

Legal Authority: PL 94-135

CFR Citation: 29 CFR 1691

Legal Deadline: None

Abstract: The NPRM proposed to prohibit age discrimination by recipients of DOT financial assistance programs. However, it has been concluded that exceptions to the statute would result in no substantive coverage of DOT programs. Moreover, the paperwork requirements for recipients, without substantive coverage, would have been counterproductive. The NPRM will be withdrawn. The Department will consider, in light of any changes in DOT programs, whether resultant substantive coverage would then warrant a new rulemaking proceeding.

Significance: Nonsignificant

Legal Authority: 49 USC 1305

CFR Citation: 14 CFR 399

Abstract: This action would adopt as final an interim Policy Statement on preemption issued by the Civil Aeronautics Board in 1979. It discusses the policy of the Department with respect to three areas in which State law has been preempted by the Airline Deregulation Act of 1978: regulation of commuter air carriers and air taxis, the rights of airport proprietors, and general State authority as it directly or indirectly affects air transportation competition. Final action has been temporarily deferred pending the Supreme Court's decision of a certiorari petition filed in a Fifth Circuit case, which may affect this rulemaking.

Abstract: The CAB proposed to amend its rules requiring notice of contract terms for domestic travel to require that actual notice be given passengers of terms absolving carriers from any responsibility to transport a passenger to the destination named on the ticket, or to reimburse the passenger for expenses in reaching the airport noted on the ticket when a flight is diverted to another airport in the same metropolitan area. Alternatively, the Board proposed to declare it to be an unfair and deceptive practice to divert a passenger without arranging and paying for alternate transportation to the destination airport named on the passenger's ticket. The Board considered a final rule but did not decide what action to take. DOT is now considering what action to take.

Abstract: The American Association of Airport Executives, the Airport Operators Council International and the Air Transport Association of America petitioned the CAB to simplify its counter-sign requirements. Presently, airlines are required to display four different consumer protection notices on their ticket counters. The petitioners alleged that the current notices are hard to read and, therefore, do not provide much notice to passengers. They proposed replacing the four notices with one simplified counter sign. The CAB adopted an NPRM that proposed a number of alternatives, such as a long and/or short notice, where the notices would be required to be posted and whether a smoking notice should be included. DOT is now considering what action to take in response to the notice and comments filed.

The above judicial schedule, established by the Federal District Court on remand, did not include the ADA requirements subsequently added, for which the statutory deadline was 07/26/91

Abstract: In response to litigation, the Department amended its current 504 rule to eliminate the cost cap. Also, a related final rule implemented the immediately effective provisions of the recently enacted Americans with Disabilities Act of 1990 (ADA). These additional final rules cover all aspects of the ADA, including accessibility for vehicles and facilities, paratransit requirements, and numerous other requirements. This rulemaking is significant because of substantial public interest and judicial and statutory mandates.

Abstract: The Department of Transportation is authorized to license and regulate commercial launch activities, and may prescribe regulations establishing fees for carrying out its regulatory responsibilities. This rulemaking established a schedule of fees for certain activities involved in reviewing a license application and issuing and administering a license authorizing the conduct of commercial launch activities. This action was significant because it involved substantial public interest and represented a substantial change in policy.

Significance: Regulatory Program

Legal Authority: 46 USC 4202

CFR Citation: 46 CFR 165

Legal Deadline: Final, Statutory, August 18, 1992.

Abstract: The Oil Pollution Act of 1990 directs the President by August 18, 1992 to (1) require periodic inspection of discharge-removal equipment to ensure that it is available in an emergency, and (2) require carriage of discharge-removal equipment by vessels operating in the navigable waters of the U.S. and carrying oil or hazardous substances. Abstract: This rulemaking partially implements action 4202(b)(4) and 5005 of the Oil Pollution Act of 1990, P.L. 101-30 (OPA-90) concerning tank vessel and facility response plans. Section 4202(b)(4) of the OPA-90 amends section 311(j)(5) of the Federal Water Pollution Control Act (FWPCA), which requires owners and operators of tank vessels and facilities to develop response plans for responding to worst-case discharges (or substantial threat thereof) of oil or hazardous substances. Section 5005 requires that response plans for tank vessels operating in Prince William Sound, Alaska, and facilities permitted under the Trans-Alaska Pipeline Authorization Act provide for additional measures of oil spill preparedness. This action is considered significant because of substantial public interest and environmental considerations. This rulemaking covers tank vessel requirements. Additional Information: The Oil Pollution Act of 1990 (OPA) repealed or superseded certain oil spill liability provisions under the Federal Water Pollution Control Act (33 USC 1321), Title III of the Outer Continental Shelf Lands Act Amendments of 1978 (43 USC 1814), the Trans-Alaska Pipeline Authorization Act (43 USC 1653) and the Deepwater Port Act of 1974 (33 USC 1517). The financial responsibility provisions of those Acts were replaced by a single financial responsibility regime under OPA and keyed to the broader liability of OPA. In addition to financial responsibility requirements under OPA, which is limited to oil, this project would include financial responsibility requirements under the Comprehensive Environmental Response, Compensation, and Liability Act, which concerns hazardous substances. This consolidation would allow the issuance of a single, unified Certificate of Financial Responsibility for vessels, replacing separate certificates and financial responsibility regimes under the previously mentioned Acts.

CFR Citation: 46 CFR 31; 46 CFR 71; 46 CFR 91; 46 CFR 167; 46 CFR 176; 46 CFR 189

Legal Deadline: None

Abstract: Various laws, international agreements, and Coast Guard regulations require the posting of specific certificates, licenses, plans, operating instructions, and warnings onboard vessels. Some of these contain essential operational data which must be accessible at all times; others are primarily informational. This rulemaking project will seek to reduce posting requirements for nonessential operational data to reduce the burden on the public. Alternatives such as having items readily available rather than being posted are being considered.

2215. REGATTAS AND MARINE PARADES (CGD 87-087)

Significance: Nonsignificant

Legal Authority: 33 USC 1233

CFR Citation: 33 CFR 100.15

Legal Deadline: None

Abstract: This proposal would amend current regatta and marine parade regulations to increase the lead time requirement for submitting regatta permit applications. The rulemaking will allow the Coast Guard adequate time to review regatta permit applications, conduct appropriate coordination, and provide necessary public notice relating to regattas and marine events. In view of comments received, an SNPRM will be issued.

Significance: Nonsignificant

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1808

CFR Citation: 46 CFR 148

Legal Deadline: None

Abstract: This proposal would incorporate into 46 CFR 148 the requirements for shipping certain frequently carried hazardous bulk solids. Putting these requirements into regulation would eliminate paperwork for both the Coast Guard and the shipping industry. This proposal would also incorporate requirements found in the International Maritime Organization's Code of Safe Practice For Solid Bulk Cargoes.

Abstract: This rulemaking applies to vessels constructed or adapted to carry oil in bulk or as cargo residue and requires that minimum standards for plating thickness be established. It also requires periodic gauging of the applicable vessels that are more than 30 years old. The purpose of these regulations is to prevent oil leaks from cracks in hull plating.

Significance: Nonsignificant

Legal Authority: 46 USC 3715; PL 101-380

CFR Citation: 33 CFR 156

Legal Deadline: None

Abstract: This action would amend section 3715(a) of Title 46, USC by listing the requirements for tank vessels engaged in lightering operations in the exclusive economic zone. It summarizes the requirements, mandated elsewhere in the USC by Oil Pollution Act of 1990, for Certificates of Financial Responsibility, compliance with section 311(j) of the Federal Water Pollution Control Act (33 USC 1321(j)) (including response plans), and compliance with the new double-hull requirements.

Significance: Regulatory Program

Legal Authority: 33 USC 1223; 33 USC 1224

CFR Citation: 33 CFR 166; 33 CFR 167

Legal Deadline: None

Abstract: The Coast Guard has conducted the Port Access Route Study mandated by the Ports and Waterways Safety Act. As a result of the study, the Coast Guard has determined that potential conflicts between oil drilling and shipping require creation of a fairway system off the coast of California from the vicinity of San Francisco to Los Angeles/Long Beach and changes to the San Francisco and Santa Barbara channel traffic-separation schemes. No structures would be permitted in the fairway. This project is considered significant because of substantial public interest.

Abstract: Rulemaking would redefine and establish more stringent qualifying criteria for individuals engaged in transporting and transferring various categories of oil and dangerous liquid cargoes. The Port and Tanker Safety Act of 1978 mandated the establishment of personnel qualification and manning standards for tank vessels. In addition, the International Convention on the Standards for Training, Certification, and Watchkeeping for Seafarers 1978 (STCW), has entered into effect and establishes international standards for tank vessel personnel qualifications. In view of the length of time since publication of the NPRM, a supplemental NPRM was issued.

Abstract: This rulemaking would require marine dealers to furnish boat and engine manufacturers with serial numbers of new boats and engines sold and the names and addresses of retail first purchasers of those products. Manufacturers would use the information to locate purchasers of boats and engines recalled for defects which create a substantial risk of personal injury to the public and for failures to comply with applicable regulations. Currently many manufacturers cannot obtain sufficient first-purchaser information and their attempts to notify during recalls are inadequate.

Analysis: Regulatory Evaluation 12/16/87 (52 FR 47950)

Additional Information: As a result of a substantial number of negative comments on the SNPRM and a substantially larger estimated annual burden on the public, the Coast Guard is looking for other ways to accomplish the objectives of the regulatory project. The next action will consist of a third SNPRM or initiation of a new regulatory project. The former titles of this project were Defect Notification and First-Purchaser Information, then Dealer and First Purchaser List.

Significance: Nonsignificant

Legal Authority: 33 USC 1223; 46 USC 3703

CFR Citation: 33 CFR 164; 46 CFR 10

Abstract: Current regulations require installation of ARPA on certain ships to improve vessel and waterway safety. Training in the use of this equipment is necessary to ensure its proper application and maximum benefit. A very small percentage of licensed personnel (those manning vessels of 10,000 GT or larger) would be required to complete an ARPA training course. The course is expected to cost about $400.00 per student.

Significance: Nonsignificant

Legal Authority: 46 USC 4102

CFR Citation: 46 CFR 25; 46 CFR 26

Abstract: As a result of the passage of Public Law 100-540, EPIRBs will be required on each manned uninspected vessel operating on the high seas or beyond three miles from the coast line of the Great Lakes. On August 17, 1988 the Coast Guard published a rule to require EPIRBs on certain fishing vessels. This action would extend the requirements of the August 17th rule as required by PL 100-540.

Significance: Nonsignificant

Legal Authority: 50 USC 191; 33 USC 1231

CFR Citation: 33 CFR 6

Legal Deadline: None

Abstract: Following the 1986 reorganization of the Coast Guard, Area Commanders do not have authority to establish security zones, control vessels, or perform other necessary actions. This rule would delegate that authority to the Area Commanders. Since this proposal deals with agency procedure, it will be issued as a rule with no notice of proposed rulemaking.

Significance: Nonsignificant

Legal Authority: 33 USC 1223(c)

CFR Citation: 33 CFR 161

Abstract: The Coast Guard conducted a study for the need for port access routes for the approaches to Chesapeake Bay, VA. (Notice of study results published July 13, 1989, 54 FR 29627). The study concluded that the southern approach part of the traffic separation scheme should be reconfigured to incorporate a proposed deep-water route for inbound and outbound vessel traffic. 2272. + OIL POLLUTION ACT OF 1990 INITIATIVES

Significance: Regulatory Program

Legal Authority: PL 101-380

CFR Citation: 00 CFR 000

Legal Deadline: Final, Statutory, 00/00/00.
The Oil Pollution Act has various legal deadlines

Abstract: The oil pollution resulting from the grounding of the Exxon Valdez, along with several other incidents, has resulted in enactment of the Oil Pollution Act of 1990. The Act is a complex piece of legislation which (1) increases the liability of companies that ship and transport oil; (2) establishes a Federal trust fund for financing cleanup operations and damage claims; and (3) mandates new preventive measures. Included in those preventive measures are: drug and alcohol testing programs for maritime personnel; review and improvement of U.S. Vessel Traffic Service Systems; establishing minimum plating thickness and periodic gauging for vessels transporting oil in bulk; work hour limitations on tankers; and phasing out of single hulls for vessels transporting oil. There are approximately 35 different rulemaking projects required by the Act, along with five or more studies. Some of these projects are new, while some will expand on or replace projects listed in the Agenda. Many of these rulemaking projects will be classified as "significant" because of their cost and the high level of interest the (cont)

2273. + RANDOM CHEMICAL TESTING PROGRAMS FOR COMMERCIAL VESSEL PERSONNEL (90-014)

Significance: Agency Priority

Legal Authority: 46 USC 2103; 46 USC 3306; 46 USC 7101; 46 USC 7301; 46 USC 7701

CFR Citation: 46 CFR 16

Legal Deadline: None

Abstract: On November 21, 1988, the Coast Guard issued a final rule requiring random drug testing. On December 18, 1989 the District Court enjoined the Coast Guard from implementing random testing. The judge invited the Coast Guard to promulgate new random drug testing regulations applicable only to crew members whose duties have a clear and direct nexus to the safety concerns of the Government. Therefore, this action

established random testing requirements for crew members serving in positions which affect the safe operation of a vessel. It was considered significant because of substantial public interest, controversy surrounding random testing, and litigation.

2274. + USER FEES FOR COAST GUARD SERVICES

Significance: Agency Priority

Legal Authority: 31 USC 9701; 46 USC 2110

CFR Citation: None

Legal Deadline: None

Abstract: The Budget Reconciliation Act of 1990 removed previous prohibitions on charging user fees for Coast Guard services and directed the Coast Guard to establish and collect fees for direct services provided in Subtitle II of Title 46, USC. Fees will be established for specified services including vessel inspections, vessel documentation, plan review, and approvals. These rulemaking actions are considered significant because of substantial public interest and the congressional mandate. As individual rulemakings covering particular services are now initiated, they are listed separately in the Agenda and this entry will no longer appear in the Agenda.

Significance: Nonsignificant

Legal Authority: 33 USC 1231; 50 USC 191

CFR Citation: 33 CFR 165

Legal Deadline: None

Abstract: The Coast Guard has designated Sparkman Channel, Tampa, Florida, a regulated navigation area. A pipeline crossing the channel at the southern entrance creates a ridge in the outer quarters of the channel and limits water depths to 37 feet over the pipeline in the center of the channel and to an average of 32 feet in the outer quarters of the channel. To ensure safe navigation in the channel, this rule establishes vessel draft restrictions, limits meeting and passing situations, and requires vessels with drafts greater than 30 feet to transit near the center of the channel.

Abstract: This action amended the Puget Sound Vessel Traffic Service (VTS) regulations to incorporate a multi-channel communications system. Communicating on the present VTS frequency, 156.700 MHz (channel 14) has become difficult due to increased vessel traffic. By using a second VTS designated frequency, 156.250 MHz (channel 5A), communications on channel 14 will be reduced, thereby improving navigational safety in the VTS area.

Abstract: This notice would propose to revise the fatigue requirements for damage-tolerant structures on transport category airplanes to require full-scale fatigue testing and to require that the thresholds for inspections be based on crack growth from initial flaws in the structure. These proposed changes are based on the service history of airplanes evaluated to the current damage tolerance requirements and are intended to ensure that, should serious fatigue damage occur within the operational life of the airplane, the remaining structure can withstand reasonable loads without failure until the damage is detected. Airport Noise and Capacity Act of 1990

Abstract: This action would establish more efficient methods of allocating existing capacity at high density airports in order to provide improved opportunities for operation by new entrant air carriers. In addition, this rulemaking would add a new definition of a "limited incumbent," allocating all newly available slots to new entrants and limited incumbents, amending the use-or-lose provisions, and creating a special pool of slots for use by new entrants and limited incumbents. This rulemaking is considered significant because of substantial congressional and public interest.

The Department of Transportation and the FAA believe that the most productive and efficient means of initiating the rulemaking required by the Airport Noise and Capacity Act of 1990 would be to incorporate Notice Number 88-18 (53 FR 51628, December 22, 1988) into this rulemaking.

Therefore, this supplemental notice of proposed rulemaking will represent a continuation of the rulemaking initiated in Notice Number 88-18, as well as the Department of Transportation's action in compliance with the requirements of the Act. The comments received in response to Notice Number 88-18 will be addressed, together with the additional comments received in response to this supplemental notice, in any final disposition of this rulemaking.

Abstract: This notice would revise the medical standards and the medical certification procedures of the Federal Aviation Regulations. This action follows the completion of a comprehensive review of the medical standards which was announced in previous notices. If adopted, these revised standards for airman medical certification and associated administrative procedures will better provide for safety in the aviation system and reflect current medical knowledge, practice, and terminology. This rulemaking is considered significant because of substantial public interest.

Legal Deadline: None

Abstract: This notice would propose to amend the pilot and flight instructor certification rules to include additional use of aircraft flight simulators and flight training devices for pilot training, testing, and checking. This notice also would propose a new Part 142 that would govern a new concept called training centers. This new concept will emphasize the use of flight simulators in training applicants for pilot certificates. This rulemaking is considered significant because of substantial public interest; it involves a major change in the way industry trains applicants.

Abstract: Current repair station rules were developed during the infancy of the aviation industry. Very few changes were made to those rules since they were adopted in 1952. This rulemaking project proposes to review foreign repair station requirements and update the rules to reflect the current international and domestic environment and needs. The FAA has held four public meetings to solicit information and views to review the existing regulations and to explore alternatives in revising the rules of this part. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice would propose to amend the airworthiness standards for normal, utility, acrobatic, and commuter category airplanes by upgrading the requirements for both seat/restraint systems and for flammability standards for seat cushions used in commuter category airplanes. These amendments are needed to improve the occupant protection provisions for these types of airplanes. These new requirements would result in a level of safety commensurate with that provided by the seat/restraint requirements and the flammability standards for transport category airplanes. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice would require the replacement of emergency locator transmitters (ELT's) on U.S.-registered airplanes with improved ELT's that meet the requirements of revised technical standard order number TSO-C91. This proposal is prompted by unsatisfactory performance of ELT's manufactured under the original technical standard order. This rulemaking is considered significant because of substantial public interest.

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This action would amend the Federal Aviation Regulations by upgrading the standards for protecting transport category airplanes from bird impact damage by requiring that airplanes be designed such that: (1) only minor damage would result from impact with a 4-pound bird and (2) the airplane would be capable of continued safe flight and landing after impact with an 8-pound bird. These standards are needed because of possible vulnerability of new technology flight controls, flight instruments, and flight structures to bird strike damage. These proposed changes are based on research and service experience and are intended to improve survivability of the airplane by providing better protection of critical structures and systems.

CFR Citation: 14 CFR 25; 14 CFR 36

Legal Deadline: None

Abstract: This notice would propose to amend the Federal Aviation Regulations to redefine the airplane reference stalling speed as the 1-g stalling speed in lieu of the minimum stalling speed. This notice would: (1) provide for a consistent, repeatable reference stalling speed; (2) ensure consistent and dependable maneuvering margins; (3) clarify the requirement for the use of 1-g stalling speeds in determining structural design speeds; (4) increase the head-on gust structural design requirement; and (5) provide for adjusted multiplying factors to maintain essentially equivalent requirements in areas where the use of minimum stalling speed has proven adequate. These changes are needed since the stalling characteristics of modern jet transports as determined by current methods can result in inconsistent reference stalling speeds. These changes may result in a higher level of safety where current methods have resulted in artificially low reference stalling speeds.

Abstract: This advance notice of proposed rulemaking was issued to advise the public and industry that the FAA is considering developing a regulation that would establish requirements for the operation of U.S.-registered general aviation aircraft consistent with the International Civil Aviation Organization's navigation requirements for flights over the high seas. These requirements would promote the safe operation of U.S.-registered general aviation airplanes within minimum navigation performance specification airspace. These requirements also would provide safety standards for the operation of U.S.-registered general aviation aircraft outside the airspace of the United States, beyond the service range of the International Civil Aviation Organization's standard NAVAID's, and beyond the coverage of air traffic service radar. These requirements would apply only to operations over the high seas.

Abstract: This notice would propose to upgrade the fire safety standards for cargo or baggage compartments in certain passenger-carrying transport category airplanes by establishing a maximum size for Class A compartments and by eliminating Class D compartments altogether. Compartments that could no longer be classed as Class A or Class D would have to meet the standards for Class C or Class E compartments as applicable. Certain transport category airplanes used in air carrier, air taxi, or commercial service also would have to meet these upgraded standards.

Abstract: This notice proposed to establish a new category of aircraft for type, production, and airworthiness certification. These aircraft will be designed for pleasure and personal use, and classified as a primary category aircraft. In addition, this notice proposed simplified type, production, and airworthiness certification procedures, special maintenance criteria, and associated changes to pilot requirements for this category of aircraft.

Because a meeting between the FAA and the Experimental Aircraft Association was held to hear additional remarks not previously submitted during the comment period, the FAA will issue a notice reopening the comment period for this rulemaking.

The FAA also plans to issue a supplemental notice of proposed rulemaking to correct statements made in the notice concerning the applicability of noise standards to the new category of primary aircraft proposed in the notice.

This rulemaking is considered significant because of substantial public interest.

Abstract: This notice proposed revisions to the aircraft type certification standards and operating rules to require that future supersonic aircraft meet noise limits consistent with those required for future subsonic aircraft. These revisions would aid the development of next-generation supersonic aircraft by establishing a noise impact goal that is consistent with noise limits for conventional (subsonic) aircraft. The FAA believes that these revisions are necessary to guide developers of supersonic aircraft and to assure consistent and equitable noise type certification standards and operating rules for both subsonic and supersonic aircraft. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice proposed new requirements for water survival equipment carried aboard airplanes and rotorcraft. The requirements would apply, after specified dates, to U.S.-certificate holders that conduct common-carriage operations with airplanes and rotorcraft. This proposal is in response to the Airport and Airway Safety and Capacity Enhancement Act of 1987 (PL 100-223) and relates to safety recommendations by the National Transportation Safety Board. The proposed requirements are intended to increase the likelihood of aircraft passengers surviving a crash landing in water and, thus, this rulemaking is significant because of the safety implications.

PL 100-223 Sec 303

Abstract: This notice proposed to require that all seats of transport category airplanes used in air carrier operations and transport category airplanes used in scheduled intrastate service comply with improved crashworthiness standards. The Airport and Airways Safety and Capacity Expansion Act of 1987 directs the Secretary of Transportation to initiate a rulemaking proceeding to consider requiring all seats onboard all air carrier aircraft to meet improved crashworthiness standards based upon the best available testing standards. The intended effect of this action is to increase passenger protection and survivability in survivable impact accidents. This rulemaking is considered significant because of its safety implications and statutory requirements.

Abstract: This notice proposed to amend several sections of the Federal Aviation Regulations. Several proposals would provide the FAA with the means to enforce certain safety regulations. Others would make current operator practices regulatory requirements. Several proposals would establish regulations on child restraint systems, safety belts aboard airships, and flight crewmember use of shoulder harnesses aboard aircraft. Two of the proposals would clarify the regulations concerning fire extinguishers and protective breathing equipment, and one obsolete section of the regulations and several obsolete references to particular dates would be removed. This action would reduce the number of passenger violations and enhance safety aboard aircraft. This rulemaking is considered significant because of substantial public interest and safety implications.

Abstract: This notice proposed to adopt certain recommendations of the National Airspace Review concerning changes to regulations and procedures dealing with airspace classification. These changes are intended to: (1) simplify airspace designations; (2) achieve international commonality of airspace designations; (3) increase standardization of equipment requirements for operations in the various classifications of airspace; and (4) associate appropriate pilot certification requirements, visual flight rules visibility and distance from clouds rules, and air traffic services offered in each proposed class of airspace. This

proposal represents the combination of three separate advance proposals issued in 1985 concerning airspace assignment and related air traffic operating rules. The FAA believes the simplified airspace classification proposed in this action will reduce existing airspace complexity and thereby enhance safety. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice proposed to amend the Federal Aviation Regulations to update, clarify, and consolidate into one part, new Part 119, the certification and operations specifications requirements for persons who conduct passenger-carrying or cargo-carrying air operations for compensation or hire. Significant changes included defining what must be included in operations specifications; defining "scheduled" and "domestic" operations; increasing the lead-time period for application for a certificate; defining a "wet lease" operation; including in the regulations criteria to determine who has operational control of an operation; and standardizing the requirements and qualifications for management personnel. This action is needed to establish permanent minimum safety standards following the "sunset" of the Civil Aeronautics Board on December 31, 1984, and the enactment of the Airline Deregulation Act of 1978. This action would also replace SFAR 38, as amended, which has provided interim certification and operations specifications regulation. This rulemaking is considered significant because of substantial public interest.

CFR Citation: 14 CFR 121

Legal Deadline: None

Abstract: The current regulations need to be revised to account for the changed operational practices stemming from airline economic deregulation. This proposal would clarify or change the number of flight attendants required when passengers are on board an airplane, including at stops. This proposal includes two new requirements: (1) a revision of the reduced number of flight attendants which, under certain conditions, a carrier is permitted to have on board a passenger-carrying airplane during stops; and (2) a requirement for a demonstration of competency by the other authorized persons who may be permitted to be substituted for required flight attendants when passengers are on board the airplane during stops. This proposal would change the current rule by clarifying and specifying the training required to be completed by these other authorized persons. This rulemaking is considered significant because of substantial public interest.

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This notice proposed to revise the current requirements for passenger emergency exits and to adopt two new exit types into the regulations. These proposals are intended to provide more consistent standards with respect to passenger seating allowed for each exit type, and the type and number of exits required for passenger seating configurations. This notice proposed to reduce the maximum inflation time of an escape slide to reflect the current state of the art. These proposals resulted from the Public Technical Conference on Emergency Evacuation of Transport Airplanes held in Seattle, Washington, on September 3-6, 1985. This rulemaking is considered significant because it involves an important cabin-safety issue.

CFR Citation: 14 CFR 25; 14 CFR 121; 14 CFR 135

Legal Deadline: None

Abstract: This notice proposed amendments to the Federal Aviation Regulations which would require improved access to Type III emergency exits (typically smaller over-wing exits) in transport category airplanes with 20 or more passenger seats. These proposals were the result of tests which were conducted at the FAA's Civil Aeromedical Institute, and are intended to improve the ability of occupants to evacuate an airplane under emergency conditions. These amendments would apply to air carriers, air taxi operators, and commercial operators of transport category airplanes as well as the manufacturers of such airplanes. This rulemaking is considered significant because it involves an important cabin-safety issue, and because of substantial public and congressional interest.

Abstract: This notice proposed to update the regulations for certificating aviation maintenance technician schools (AMTS) to accommodate the increasing demand for maintenance technicians with higher levels of skill and knowledge. This proposal, if adopted, would: (1) modify portions of the current rule that have been open to subjective judgments by the FAA and the AMTS industry and (2) modify the rule to upgrade the portions that specify the skill and knowledge requirements for an aviation maintenance technician. In addition, the proposal, if adopted, would revise the core curriculum to ensure that a person graduating from an aviation maintenance technician school will be prepared to function in the current technological environment. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice proposed to require installation of an improved emergency locator transmitter (ELT) that meets the requirements of a revised Technical Standards Order (TSO) on U.S.-registered airplanes and to terminate approval to use ELTs authorized under the original TSO issued for this equipment. The new equipment would be required for future installations. This proposal was prompted by unsatisfactory performance experienced with ELTs that are manufactured under the original TSO and relates to safety recommendations by the National Transportation Safety Board and the search-and-rescue community. Although most of the unsatisfactory field experience has been with automatic ELTs, the FAA is also proposing improved standards for survival ELTs. This proposal would save lives by increasing the number of survivors rescued after aircraft accidents. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice proposed to revise the operating rules for air taxi and commercial operators by requiring that all turbine-powered (rather than just turbojet) airplanes with ten or more seats be equipped with an approved ground proximity warning system. The proposed changes are needed because studies have shown that several controlled-flight-into-terrain accidents involving turbo-propeller powered airplanes might have been avoided had the airplanes been equipped with a ground proximity warning system. This proposed rule is intended to reduce the risk of airplanes being flown into terrain with no apparent awareness by the crews that they are approaching the ground. This rulemaking is considered significant because of important safety implications.

Abstract: This notice proposed to amend emergency egress requirements of the airworthiness standards for normal, utility, acrobatic, and commuter category airplanes. These proposed rules are necessary to improve the compatibility of the requirements for emergency exit provisions of commuter category airplanes with the corresponding requirements for similar sized transport category airplanes. These proposals provide alternative emergency exit requirements, applicable to commuter category airplanes, when additional bin safety features are included in the airplane design, and include specific requirements for flight crew emergency exits, emergency exit ditching provisions, and the size requirement of the passenger entry door for commuter category airplanes. This rulemaking is considered significant because it involves a cabin-safety issue.

Abstract: The FAA is considering issuing a final rule to delay the requirement that any transponder newly installed in an aircraft must be a Mode S transponder. This delay is necessary because technical and design problems have delayed the installation and testing of 137 Mode S ground sensor sites that were expected to be in place by January 1992. The anticipated delivery date for the remainder of the Mode S ground sensor sites is now August 1995. This action is considered significant because of substantial public and industry interest.

2367. MISCELLANEOUS AMENDMENTS

Significance: Nonsignificant

Legal Authority: 49 USC 1352 Federal Aviation Act of 1958, Sec. 311; 49 USC 1354 Federal Aviation Act of 1958, Sec. 313; 49 USC 1354(a) Federal Aviation Act of 1958, Sec. 313(a); 49 USC 1355(a) Federal Aviation Act of 1958, Sec. 314(a); 49 USC 1421 to 1430 Fed Aviation Act of 1958, Secs. 601 to 610; 49 USC 1502 Federal Aviation Act of 1958, Sec. 1102

CFR Citation: 14 CFR 21; 14 CFR 65; 14 CFR 107; 14 CFR 121; 14 CFR 135; 14 CFR 145

Legal Deadline: None

Abstract: This action would amend various sections of the regulations. Some of the amendments are clarifying or editorial in nature or correct improper or obsolete references. Others relax certain existing requirements. Others allow issuance of special flight permits for an additional purpose, relax a requirement for passenger information signs, and eliminate the bulk erasure device on cockpit voice recorders. This action is in response to numerous complaints, suggestions, and petitions for exemption concerning several regulatory requirements received from users of the National Airspace System. These users state that these sections contain obsolete references and vague, complex, and inadequate language and that, in some instances, the cost of compliance is not justified by the benefits derived.

2368. AIRWORTHINESS STANDARDS; CRASH RESISTANT FUEL SYSTEMS

Significance: Nonsignificant

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g)

CFR Citation: 14 CFR 23

Legal Deadline: None

Abstract: This action proposed changes to the airworthiness standards to improve the crash resistance of fuel systems on normal, utility, acrobatic, and commuter category airplanes. The FAA has determined that improved crash resistance of these fuel systems is necessary to prevent deaths and injuries due to fire in survivable crashes. The proposed design changes would limit fuel spillage near ignition sources and would provide additional time for the survivors to evacuate the airplane.

2369. AIRWORTHINESS STANDARDS: AIRCRAFT ENGINE ELECTRICAL AND ELECTRONIC ENGINE CONTROL SYSTEMS

Significance: Nonsignificant

Legal Authority: 49 USC 1354; 49 USC 1421; 49 USC 1423

CFR Citation: 14 CFR 33

Legal Deadline: None

Abstract: This action would establish requirements for the certification of electrical and electronic engine control systems. These control systems range from simple power or thrust trimming devices with full hydromechanical backup to full authority digital electronic controls with no mechanical backup. Although these types of control systems have been certificated under existing regulations, those regulations do not address specific requirements related to electrical and electronic engine controls such as engine supplied power and data, lightning protection, high energy radio frequency protection, and software verification/validation.

2370. STANDARDS FOR APPROVAL FOR HIGH ALTITUDE OPERATION OF SUBSONIC TRANSPORT AIRPLANES

Significance: Nonsignificant

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g); PL 97-449

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This notice proposed to amend the Federal Aviation Regulations to specify airplane and equipment airworthiness standards for subsonic transport airplanes to be operated up to an altitude of 51,000 feet. This proposal was prompted by an increase in the number of applications received to raise the maximum certificated operating altitude for transport category airplanes. This action is intended to ensure an acceptable level of safety for airplanes operated at high altitudes.

CFR Citation: 14 CFR 29

Legal Deadline: None

Abstract: This notice proposed to revise the performance requirements for transport category rotorcraft. The proposed changes are needed to define more clearly the factors for determining takeoff distances for transport category rotorcraft and to add several other relevant standards. If adopted, these changes would provide for an improved level of safety achievable because of recent technological advances in turboshaft engine design and associated rotorcraft design.

2372. LOW FUEL QUANTITY ALERTING SYSTEM

Significance: Nonsignificant

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g); PL 97-449

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This notice proposed to amend the airworthiness standards for transport category airplanes to require a means to alert the flight crew of potentially unsafe low fuel quantities. There have been several fuel depletion incidents involving loss of power or thrust on all engines that could have resulted in forced landings and injury or loss of life. Most of these incidents resulted from improper fuel management techniques. This proposed amendment would require new transport category airplane designs to incorporate a low fuel quantity alert system that would allow for correction of certain fuel management errors or provide the flightcrew the opportunity to make a safe landing prior to engine fuel starvation.

CFR Citation: 14 CFR 43

Legal Deadline: None

Abstract: This notice proposed to amend the regulations to provide for the acceptance of maintenance, preventive maintenance, and alterations accomplished on U.S. civil aeronautical products and components in Canada. This proposal was prompted by the airworthiness maintenance provisions contained in the U.S.-Canadian Bilateral Airworthiness Agreement and the Schedule of Implementation Procedures between the United States and Canada. The proposed amendment would provide for acceptance by the FAA of maintenance, preventive maintenance, and alterations performed on aircraft, engines, propellers, appliances, materials, parts, and other components which are transported from the United States to Canada and which are for installation on U.S.-registered aircraft.

CFR Citation: 14 CFR 27; 14 CFR 29

Legal Deadline: None

Abstract: This notice responded to a petition for rulemaking from Aerospace Industries Association of America, Inc., and proposed to amend the Federal Aviation Regulations to incorporate new one-engine-inoperative (OEI) power ratings for multiengine, turbine-powered rotorcraft. If adopted, this proposal would enhance rotorcraft safety after an engine failure or precautionary shutdown by providing OEI power, when required, with the assurance that the drive system would maintain its structural integrity and allow continued safe flight while operating at the new OEI power ratings with the operable engine(s).

CFR Citation: 14 CFR 29

Legal Deadline: None

Abstract: This notice proposed to amend the Federal Aviation Regulations to minimize the failure hazards of high speed powerplant rotor systems used in turboshaft engines in newly designed transport category rotorcraft. Engine rotor failures have occurred resulting in the release of high energy rotor fragments or other engine component fragments. These fragments have impacted and damaged critical rotorcraft structures, systems, controls, and adjacent engines, as well as caused serious or fatal injuries to passengers and crewmembers. This proposal, if adopted, is intended to eliminate these hazards.

CFR Citation: 14 CFR 25; 14 CFR 121

Legal Deadline: None

Abstract: This notice proposed to modify the procedures for conducting an emergency evacuation demonstration by requiring that the flight crew take no active role in the demonstration and by changing the age/sex distribution requirement for demonstration participants. This notice also proposed to standardize the illumination requirements for the handles of the various types of passenger emergency exits. In addition, it is proposed to add a requirement for a "push to talk" switch to the public address system. These proposals are intended to enhance the provisions of transport category airplanes for egress of occupants during emergency conditions.

2377. AIRWORTHINESS STANDARDS; CRASH RESISTANT FUEL SYSTEMS IN NORMAL AND TRANSPORT CATEGORY ROTORCRAFT

Significance: Nonsignificant

Legal Authority: 49 USC 1344; 49 USC 1354; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g); PL 97-449

CFR Citation: 14 CFR 27; 14 CFR 29

Legal Deadline: None

Abstract: This notice proposed to add comprehensive crash resistant fuel system design and test criteria to the airworthiness standards for normal and transport category rotorcraft. The proposed standards would minimize fuel (and other flammable fluid) spillage near ignition sources, minimize potential ignition sources and, therefore, improve the evacuation time needed for crew and passengers to escape a postcrash fire. These proposals, if adopted, would minimize the postcrash fire hazard, save lives, and substantially reduce the severe physiological and psychological injuries sustained from postcrash fires in otherwise survivable accidents.

Abstract: This notice proposed to amend the Federal Aviation Regulations to add a new standard for transport category airplanes which would provide lightning protection requirements for installed electrical and electronic systems. This proposal was the result of increasing concern for the vulnerability of these systems to the indirect effects of lightning. This notice was issued in order to promulgate specific lightning protection requirements for electrical systems which perform essential or critical functions.

Abstract: This notice proposed to amend the airworthiness standards for transport category airplane landing gear aural warning systems and the operating rules for using transport category airplanes to update the present requirements. This proposal was prompted by reports of nuisance or inappropriate aural warnings which have occurred in modern transport airplanes which adhere strictly to the present regulations. It is intended to align the regulations with existing design practices thereby removing the regulatory burden associated with making an equivalent level of safety finding or exemption for those systems that do not meet the existing requirements. This proposal will not affect existing certificated airplanes.

Abstract: This notice proposed changes to the airframe and flight airworthiness standards for normal, utility, acrobatic, and commuter category airplanes that are based on a number of recommendations discussed at the Small Airplane Airworthiness Review Conference held on October 22-26, 1984. This action arose from the recognition that updated safety standards are needed for an acceptable level of safety in the design requirements for small airplanes used in both private and commercial operations. This notice included design requirements applicable to advancements in technology being incorporated in current designs and proposed to reduce the regulatory burden in showing compliance with some requirements while maintaining an acceptable level of safety.

CFR Citation: 14 CFR 1; 14 CFR 33

Legal Deadline: None

Abstract: The Aerospace Industries Association of America, Inc., petitioned the FAA to provide new one-engine-inoperative ratings for rotorcraft engines and their application to rotorcraft. This notice responded to that petition and proposed to define and establish type certification standards for new one-engine-inoperative ratings for rotorcraft engines.

CFR Citation: 14 CFR 23

Legal Deadline: None

Abstract: This notice proposed changes to the powerplant and equipment airworthiness standards for normal, utility, acrobatic, and commuter category airplanes that were based on certain proposals and recommendations discussed at the Small Airplane Airworthiness Review Conference held in St. Louis, Missouri, on October 22-26, 1984. These proposals arose from the recognition, by both government and industry, that updated safety standards are needed to maintain an acceptable level of safety in the design requirements for small airplanes that are used in both private and commercial operations. These proposals, if adopted, will include design requirements applicable to advancements in technology being incorporated in current designs and reduce the regulatory burden in showing compliance with some requirements while maintaining an acceptable level of safety.

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This notice proposed to amend the airworthiness standards for transport category airplanes to require improved cowling retention devices. A review of a number of inflight incidents where engine cowlings were lost revealed that the largest single cause of such losses was improper latching of the cowlings. If adopted, this proposal would provide additional design standards to detect improperly latched cowlings and ensure the integrity of the latching system.

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This notice proposed to revise the airworthiness standards for transport category airplanes concerning flutter, divergence, vibration, and buffet. It would clarify the requirement to consider flutter and divergence when treating certain damage and failure conditions required by other sections of the Federal Aviation Regulations. It would revise the required safety margins by slightly reducing the safety margin concerning airplane speed for normal configurations and providing a minimum safety margin concerning airplane speed for damage and failure configurations. These changes are intended to provide consistency with other sections of the Federal Aviation Regulations, to relieve a design burden which is now unnecessary as a result of advances in technology, and to improve certain safety margins as a result of the evolution in the design of transport airplanes.

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This notice proposed to require that an inert gas, such as nitrogen, be used in lieu of air, for inflation of tires on certain transport category airplanes. This action was prompted by at least three cases in which the oxygen in air-filled tires combined with volatile gases, given off by a severely overheated tire, and exploded upon reaching autoignition temperature. The use of an inert gas for tire inflation will eliminate the possibility of a tire explosion.

Abstract: This notice proposed to amend the 61-knot stall speed limitation requirement applicable to normal, utility, and acrobatic category single-engine and certain multiengine small airplanes of less than 6,000 pounds maximum weight. The proposal would require additional occupant protection requirements for those airplanes with a stall speed exceeding 61 knots. This proposal retains the current level of airplane occupant protection and permits the design and type certification of higher performance, single-engine airplanes capable of attaining an increase in cruise speeds with better specific fuel consumption. This improvement in performance and operating economies cannot be achieved without substantial increased cost and complexity if these designs are constrained by the present 61-knot stall speed limitation.

Abstract: This action proposed to revise the Federal Aviation Regulations to require the operator of an aircraft used in conducting authorized news-gathering operations in an area covered by temporary flight restrictions to be under the direction of the official in charge of the on-scene emergency response activities. Adoption of this proposal would reduce the potential for traffic conflicts and disruption of relief operations and would increase the level of safety afforded aircraft used in conducting rescue or disaster relief operations.

Abstract: This notice proposed to alter the Dallas-Fort Worth, Texas, Terminal Control Area (TCA) and revoke the Airport Radar Service Area at Dallas Love Field Airport. This notice proposed to raise the upper limits of the TCA to 10,000 feet mean sea level to enable air traffic control (ATC) to provide terminal ATC service to arriving and departing turbojet aircraft in a TCA environment throughout transition to and from the en route structure. In addition, this notice proposed to extend the lateral limits of the TCA from 20 to 30 nautical miles from the airport to provide an area wherein ATC can provide TCA control and services throughout critical maneuvering phases of flight operations in the terminal area. This notice also proposed to expand the inner area to 10 miles including an extension encompassing Dallas Love Field. This proposal would enhance air traffic procedures and simplify visual flight rules transient operations outside TCA airspace.

Abstract: This action would correct an unintentional over-restriction on helicopter operations conducted outside of controlled airspace below 1,200 feet above the surface. Currently, Section 91.155 of the Federal Aviation Regulations is being misinterpreted by some members of the public and industry to mean that the pilot of a helicopter conducting such operations is required to maintain greater distances from clouds when the visibility is at or above the minimum required than when the visibility is less than the minimum required. This was not the intent of the rule. The operational characteristics of a helicopter enable the pilot of such an aircraft to conduct operations at visibilities and distances from clouds that are less than those prescribed for airplanes. The intent of Section 91.155 was to allow helicopters to operate under visual flight rules regardless of flight visibility provided the other criteria of that section are met. This action will clarify the intent of the rule.

Abstract: This action amended the airplane operator security regulations by removing the exception to meeting the current x-ray imaging standard for x-ray screening systems in use prior to July 22, 1985. Each United States air carrier conducting screening under a mandatory security program is required to use x-ray systems for carry-on and checked articles that meet the x-ray imaging standard required under its approved security program. Likewise, each foreign air carrier that lands or takes off in the United States is required to use x-ray screening systems for carry-on and checked articles in the United States that meet the x-ray imaging standard under its accepted security program. This action is needed due to the increased sophistication of terrorist acts. The intended effect is to increase the safety of passengers and crewmembers aboard aircraft by providing an upgraded aid at airport screening points to prevent the carriage of explosives, incendiaries, or deadly or dangerous weapons. This rulemaking was considered significant because of substantial public interest.

Aviation Safety and Capacity Expansion Act of 1990

Abstract: This final rule adopts new regulations to establish a passenger facility charge program. The rule implements Sections 9110 and 9111 of the Aviation Safety and Capacity Expansion Act of 1990, which requires the Department of Transportation to issue regulations under which a public agency may be authorized to impose an airport passenger facility charge (PFC) of $1, $2, or $3 per enplaned passenger at a commercial service airport it controls. The proceeds from such PFC's are to be used to finance eligible airport-related projects that preserve or enhance safety, capacity, or security of the national air transportation system, reduce noise from an airport that is part of the system, or furnish opportunities for enhanced competition between or among air carriers. This rulemaking was considered significant because of congressional and public interest.

Aviation Security Improvement Act of 1990

Abstract: This final rule amended the Federal Aviation Regulations and implemented a statutory requirement for the notification of flight and cabin crewmembers of threats to the security of their flight. This final rule was needed to clarify an air carrier's responsibility to disseminate threat information to inflight security coordinators and established new requirements to disseminate this information to flight and cabin crewmembers. Air carriers are also required to provide any evaluation of the threat information and countermeasures to be applied. This rulemaking was considered significant because of substantial congressional and public interest.

Aviation Security Improvement Act of 1990

Abstract: This final rule amended the Federal Aviation Regulations to require foreign air carriers that land or take off in the United States to provide passengers a level of protection similar to the level of protection provided by United States air carriers at the same airports. To ensure that foreign air carriers' security programs contain procedures which provide a similar level of protection, the Administrator of the Federal Aviation Administration could amend those programs according to the procedures in this final rule. This action was needed to ensure that appropriate security measures are implemented by foreign air carriers operating into and out of the United States. The intended effect of this final rule was to increase the safety and security of passengers aboard foreign air carriers on flights to and from the United States by reducing the risk of fatalities and property damage attributable to criminal acts against civil aviation. This rulemaking was considered significant because of substantial congressional and public interest.

Abstract: This action implemented the Aviation Security Improvement Act of 1990 which directs the FAA to prescribe standards for hiring, continued employment, and contracting of air carrier and airport security personnel. The standards include: (1) minimum training requirements for new employees; (2) retraining requirements; (3) minimum staffing levels; (4) minimum language skills; and (5) minimum education levels. This rulemaking was considered significant because of substantial public and

congressional interest in the enhancement of aviation security.

Abstract: This final rule provides improved cabin fire protection for transport category airplanes by requiring: (1) each lavatory in an airplane with a passenger seating capacity of 20 or more to be equipped with a smoke detector system that provides warning to the cockpit or to the passenger cabin crew; (2) each lavatory trash receptacle in an airplane with a seating capacity of 20 or more to be equipped with a fire extinguisher that discharges automatically upon the occurrence of a fire within the receptacle; (3) the number of hand fire extinguishers in the cabins of airplanes with passenger seating capacities greater than 200 to be increased; (4) a specified number of the hand fire extinguishers in the cabin to contain

Halon 1211 or equivalent as the extinguishing agent; and (5) one hand fire extinguisher in each galley that is located above or below the passenger compartment. In addition, one hand fire extinguisher would be required for certain all-cargo airplanes. These safety protections against possible inflight fires are currently required for operation of airplanes used in air carrier or commercial service. (cont)

Abstract: This action would have proposed to simplify the flight rules associated with flights conducted under visual flight rules by requiring all visual flight rules operations above a common altitude (1,200 feet above ground level) to be conducted with the same distance from clouds and visibility minimums. This rulemaking was considered significant because of substantial public interest.

Abstract: This notice would have proposed to establish duty period scheduling limitations and rest requirements for flight attendants engaged in air transportation and air commerce. This rulemaking was considered significant because of substantial congressional and public interest.

The Administrator of the FAA testified before Congress in February of 1991 that after further review and study, the FAA had determined that its objectives could be met through the issuance of an advisory circular rather than through the rulemaking process. Therefore, this rulemaking is being removed from the Agenda.

Abstract: This final rule provided relief to civilian and military personnel who have been or are serving in an assignment in support of Operation Desert Shield/Storm during the time period from August 2, 1990, to December 31, 1992. This final rule permits Flight Standards District Offices to accept expired flight instructor certificates, inspection authorizations, and/or airman written test reports for meeting certain eligibility requirements under the current rules. This action was necessary because the FAA has determined that these personnel may be unable to meet the regulatory time limits of their flight instructor certificate, inspection authorization, and/or airman written test report as a result of their assignment. This action was considered significant because of substantial public interest.

Abstract: This action amended the Federal Aviation Regulations pertaining to the allocation and definition of commuter operator slots (i.e., allocated instrument flight rules takeoff and landing reservations) at O'Hare International Airport. Through this action, the FAA will permit a limited number of commuter slots at O'Hare International Airport to be used by aircraft having a maximum seating capacity of up to 110 passenger seats. The number of commuter slots available for operation of such aircraft is limited to 25 percent of each operator's commuter slots at O'Hare International Airport. The number of such operations in any half hour is also limited. This change remains in effect for a 2-year period to allow the FAA time to evaluate the effect of the change on the operation of the airport and air traffic facilities. This rulemaking was considered significant because of substantial congressional and industry interest.

Abstract: This final rule amended Special Federal Aviation Regulation No. 61 (55 FR 47298; November 9, 1990), which restricted the operation of certain cargo flights from the United States to the Republic of Iraq or the State of Kuwait. This final rule removed the restrictions on operations to Kuwait. This final rule was considered significant because of substantial public interest and national considerations.

CFR Citation: 14 CFR 121

Legal Deadline: None

Abstract: This final rule announced an extension of the compliance date under the aviation industry drug testing rule for the submission of antidrug programs by operators who are not required to hold an air carrier operating certificate or an air taxi/commercial operating certificate. Under this final rule, these operators were given an additional 180 days to submit an antidrug program to the FAA for approval. This additional time was needed to provide the FAA an opportunity to take final action on a notice of proposed rulemaking published in the Federal Register (RIN 2120-AD65) on February 15, 1991 (56 FR 6542) that would change the scope of the antidrug rule to remove these operators from coverage under the rule. This rulemaking was considered significant because of substantial public interest.

Abstract: Part 137 of the Federal Aviation Regulations prescribes the rules governing agricultural aircraft operations in the United States and the issuance of commercial and private agricultural aircraft operator certificates for those operations.

In accordance with the Regulatory Flexibility Act of 1980, the FAA has completed an initial review of Part 137 and has determined that there are no sections in Part 137 which have a significant economic impact on a substantial number of small entities. Therefore, a regulatory flexibility analysis of Part 137 is not required.

Abstract: This action revised a previous amendment to Part 157 of the Federal Aviation Regulations: (1) by deleting a requirement for operators to provide the FAA with notice prior to establishing an airport located within a specified distance from another airport, or prior to establishing a heliport located in a residential, business, or industrial area; (2) by excluding from the notice requirements of Part 157 those proponents who intend to use, on an intermittent basis for less than one year, a site that is not an established airport; and (3) by clarifying that telephone notice for situations involving an emergency public service or an unreasonable hardship arising from a delay due to the 90-day advance notice requirement should be directed to the appropriate Airports District/Field Office or Regional Office. This action will eliminate any potential reading of an agency regulation which may suggest that notice is required in situations where such a notice is not needed or intended.

Abstract: This final rule established a new termination date for Special Federal Aviation Regulation (SFAR) No. 38-2 (50 FR 23941; June 7, 1985), which contains the certification and operating requirements for persons conducting commercial passenger or cargo operations. The new termination date

for SFAR No. 38-2 is June 1, 1992. This extension will ensure that the FAA has adequate time to consolidate the rules regarding certification and operating requirements and to incorporate SFAR 38-2 into the Federal Aviation Regulations. However, if a final rule, which consolidates these rules, is issued before June 1, 1992, the FAA intends to publish a notice rescinding SFAR 38-2 concurrently with the publication of the final rule in the Federal Register.

Abstract: This rulemaking responds to a petition filed by the North American Transportation Consultants (NATC) on behalf of explosive carriers seeking an amendment to the FHWA dromedary box regulations contained in 23 CFR 658. The NATC is requesting that truck tractors equipped with dromedary boxes designed for the transportation of class A or B explosives, when empty or carrying such explosives, be subject to Federal rather than State length limits when in combination with semitrailers operating on the National Network. Explosive carriers often transport certain portions of their cargo in a dromedary box in compliance with Federal hazardous materials regulations. Under the existing regulation, truck tractors equipped with dromedary boxes, decks, or plates may operate on the National Network with semitrailer lengths authorized under the Surface Transportation Assistance Act of 1982 (STAA) only if the dromedary equipment was installed on the trailer by December 1, 1982.

Abstract: This action was initiated to improve identification systems for truck and bus drivers as identified by the Congress in the Truck and Bus Regulatory Reform Act of 1988. Alternatives that were considered included retinal eye scans and advanced fingerprint technologies. After (1) further review (2) a careful analysis of public comments submitted to the ANPRM and (3) a review of demonstration project results, the FHWA has determined that current technology has not progressed to the point where an identification system could be established nationwide in a cost-effective manner and still provide the benefits for which a system was intended. Therefore, the FHWA has published an informational notice to summarize the results of the pilot study and the comments to the ANPRM to demonstrate how the technologies studied fall short of the demands in a commercial licensing environment. When information is available that the technologies would be beneficial to the CDL program and after completing additional studies on the accuracy of the current systems, the FHWA will propose standards for the biometric identifier. The marking requirement was promulgated in part to identify the motor-carrier population subject to the regulations and to assist in maintaining a current, up-to-date census file of all those motor carriers. This action would consider the possible use of a postcard-type form for annual census purposes in lieu of Forms MCS-137 and MCS-150, and is considered significant because of substantial public and industry interest.

2437. ● + FEDERAL MOTOR CARRIER SAFETY REGULATIONS; GENERAL TRANSPORTATION OF HAZARDOUS MATERIALS

Significance: Agency Priority

Legal Authority: 49 USC app 2503; 49 USC app 2505; 49 USC 3102; 49 USC 3104

CFR Citation: 49 CFR 390.3; 49 CFR 397

Legal Deadline: Final, Statutory, November 15, 1991.

Abstract: This rulemaking will implement the statutory requirements of sections 8 and 15 of the Hazardous Materials Transportation Uniform Safety Act (HMTUSA) of 1990. Section 8 addresses the establishment of motor carrier safety permit regulations for motor carriers transporting Class A or B explosives, liquefied natural gases, hazardous materials designated as extremely toxic by inhalation, or highway route controlled quantity radioactive materials. Section 15 of the HMTUSA requires inspection of vehicles transporting those radioactive materials before each trip. The proposed rule will incorporate those provisions into the safety permit regulations. This action is considered significant because of substantial public interest and safety implications.

2438. + HIGHWAY ROUTING STANDARDS FOR CERTAIN TYPES AND QUANTITIES OF HAZARDOUS MATERIALS

Significance: Agency Priority

Legal Authority: 49 USC 1804; 49 USC 1805; PL 101-615

CFR Citation: 49 CFR 173.177; 49 CFR 397

Legal Deadline: Final, Statutory, May 16, 1992.

Abstract: Currently, except for certain radioactive materials, DOT has not promulgated uniform, national standards for the highway routing of hazardous materials. The proposal would establish such standards and provide guidance to States and localities to minimize the promulgation of State and local routing requirements that are inconsistent with the Hazardous Materials Transportation Act. This rulemaking is significant because of the safety implications and possible federalism implications. The Hazardous Materials Uniform Safety Act of 1990 amended the HMTA to require the Secretary to issue Federal standards for highway routing.

Abstract: The FHWA is proposing to amend the recordkeeping and reporting requirements of its controlled substances testing regulation. This notice is intended to implement a DOT-wide plan to measure the effectiveness of drug testing programs of the various DOT operating administrations. The NPRM would require motor carriers to keep certain information and to report that information to the FHWA upon request. Abstract: This proposed rulemaking would revise the FHWA regulation on construction contract equal opportunity compliance procedures in order to clarify changes in policy and overall program implementation. Additionally, the proposal has been written with the consideration that the FHWA no longer has equal employment opportunity (EEO) contract compliance responsibilities under Executive Order (E.O.) 11246, but clearly has the responsibility to ensure that federally assisted highway contractors are providing equal opportunity under 23 U.S.C. 140. The proposed regulation should provide greater uniformity in the equal opportunity contract compliance program and should provide greater flexibility in overall program administration.

Legal Deadline: Final, Statutory, October 31, 1989.

Abstract: The FHWA is requesting comments on several issues relating to the appropriate use of emergency warning devices for commercial motor vehicles in response to Section 9106 of the Truck and Bus Safety and Regulatory Reform Act of 1988 (PL 100-690, 102 Stat. 4181). Issues include the use of fuses as an alternative or supplement to bidirectional emergency reflective triangles, as well as all aspects of emergency warning devices, including the type allowed and exemptions and/or condition for use. On 11/9/89, a notice of termination of rulemaking was published at 54 FR 47092 regarding the use of fuses as an alternative or supplement to bidirectional reflective triangles. Based on available information and public comments, it was determined that no enhancement of motor carrier or highway safety would be served by revising current regulations. The remaining issues will be subsequently addressed.

Abstract: The FHWA requested public comment on how, under Section 411(h) and 416(b) of the Surface Transportation Act of 1982 (STAA) (PL 97-424, 96 Stat. 2097), the Secretary may determine which safety or efficiency-enhancing devices are to be excluded when measuring the length and width of vehicles for compliance with federally mandated dimensions. The present system of employing rulemaking proceedings is too time-consuming and cumbersome to meet the needs of industry and is needlessly burdensome for FHWA. Therefore, a new approach will be proposed.

Abstract: Due to amendments to the Federal Motor Carrier Safety Regulations (FMCSRs) which have occurred in the past few years, certain information and terminology currently found in the written examinations for drivers is no longer correct. Consequently, the FHWA is amending the written examination, which is given to driver applicants by motor carriers subject to the jurisdiction of the FHWA, to correct the examination's information and terminology. While the revisions are nonsubstantive in nature, they will improve the usefulness of the written examination.

The proposed revisions would require private motor carriers of passengers and drivers of private motor vehicles of passengers to operate under the Federal Motor Carrier Safety Regulations (FMCSR). However, the paperwork burden of these requirements will be minimized and several parts of the FMCSR will not apply to either private motor carriers of

passengers or to drivers of such vehicles. This rulemaking is significant in that it is controversial, involving bringing new carriers under the regulatory scheme.

Abstract: This action will amend the Federal Motor Carrier Safety Regulations to implement provisions of the Motor Carrier Safety Act of 1990 (section 15 of PL 101-500). This enactment prohibits a motor carrier that receives an "unsatisfactory" safety rating from operating commercial motor vehicles to transport hazardous materials in quantities for which vehicle placarding is required or to transport more than 15 passengers, including the driver. The prohibition is effective 45 days after receipt of an unsatisfactory rating and remains in effect until a satisfactory rating is secured. Abstract: Sections 207-209 of the Motor Carrier Safety Act of 1984 establish a process whereby any State law or regulation pertaining to commercial motor vehicle safety in interstate commerce will be reviewed and analyzed by the Commercial Motor Vehicle Safety Regulatory Review Panel (Safety Panel). The Safety Panel is to determine if such law or regulation has the same effect as, is less stringent than, or is additional to or more stringent than the Federal Motor Carrier Safety Regulations. The proposed regulations would provide guidelines for a continuous regulatory review of State laws and regulations; would establish deadlines for a State to achieve compatibility with the Federal Motor Carrier Safety Regulations; and would establish procedures for the Federal Highway Administrator to determine whether or not a State law or regulation may be in effect and enforced with respect to interstate commercial motor vehicle safety.

Abstract: The Federal Highway Administration (FHWA) requested comments on a proposed amendment to the design standards which apply to interstate highway construction and reconstruction projects eligible to receive funding under the Federal-aid highway program. A revised publication approved by the American Association of State Highway and Transportation Officials (AASHTO) entitled "A Policy on Design Standards--Interstate System, AASHTO 1988" would be substituted for the previous version of these standards last revised June 20, 1967. If the Federal Highway Administration (FHWA) adopts the 1988 document, the new AASHTO publication would constitute the FHWA's policy on geometric design for all federally assisted construction and reconstruction projects on the interstate highway system.

Abstract: The FHWA is proposing to amend Part 395, Hours of Service of Drivers, of the Federal Motor Carrier Safety Regulations (FMCSR's) to include an exemption for tow-truck operators responding to an emergency situation at the request of a law enforcement or emergency response official. This action is being taken in response to a petition submitted by the Towing and Recovery Association of America, Inc., (TRAA) which requested relief from the hours of service requirements of Part 395 for tow-truck operators responding to the emergency situation. This amendment would provide needed flexibility to tow-truck operators responding to highway emergencies. This rule would also arrange the definitions in Section 395.2 alphabetically; add the definition "on call"; and consolidate the exceptions and exemptions in Section 395.6 of the FMCSR's.

Abstract: This rulemaking action will amend Section 391.43 of the Federal Motor Carrier Safety Regulations (FMCSR's) to permit certain licensed health care professionals to perform physical examinations of commercial motor vehicle drivers. The FHWA is addressing this issue in response to the numerous requests received from motor carriers, medical facilities, physicians, physician assistants (PA's), and nurse practitioners (NP's) to allow PA's and NP's to perform physical examinations under the supervision of licensed doctors of medicine or osteopathy. This action would permit drivers to have their physical examinations performed at more convenient times and locations and perhaps at a lower cost. This action would require health care professionals, who perform the physical examination, to become more knowledgeable of the FMCSR's requirements. The certification and determination that a driver is physically qualified in accordance with the requirements of 49 CFR 391 would remain with the licensed doctor of medicine or osteopathy.

CFR Citation: 49 CFR 396

Legal Deadline: None

Abstract: This document amends 49 CFR Part 396, Inspection, Repair and Maintenance, of the Federal Motor Carrier Safety Regulations (FMCSR's). The Federal Highway Administration (FHWA) delayed the compliance date to July 1, 1990, when motor carriers are required to implement the periodic inspection requirements contained in the final rule, Inspection, Repair and Maintenance, published on December 7, 1988, (53 FR 49402). On December 12, 1988, the FHWA clarified that provisions of the final rule were to be complied with by December 7, 1989 (53 FR 49968) except as provided for in Part 396. This document also included recent interpretations, made minor technical amendments to clarify the rule and eliminated certain items from the inspection report. These interpretations were made in response to many requests the FHWA has received to clarify the intent of the final rule. The elimination of some of the items that were to be included in the inspection report was made to simplify the recordkeeping requirements. The final rule (delay in compliance date) became effective (cont)

2460. NOTIFICATION AND REPORTING OF ACCIDENTS; PROPERTY DAMAGE

Significance: Nonsignificant

Legal Authority: 49 USC app 2505; 49 USC 3102

CFR Citation: 49 CFR 394

Legal Deadline: None

Abstract: The FHWA has proposed to amend the definition of "reportable accident" for motor carriers operating in interstate commerce by changing the criterion for reporting accidents resulting in only property damage under Part 394 of the Federal Motor Safety Regulations (FMCSRs). The current dollar value assessment would be replaced with a towaway criterion. "Towaway" is defined as "one or more vehicles incurring disabling damage as a result of the accident and transported away from the scene by a tow-truck or another vehicle." Integral to this definition is the term disabling damage. This amendment would not affect the requirement to report accidents involving injury or death. This action is being taken in an effort to standardize and simplify State and motor-carrier industry accident-reporting procedures by removing the uncertainty of estimating a dollar value amount. The FHWA has also solicited comments on two other potential changes: (1) revising the Federal definition of a reporting accident to be consistent with the American National Standard Institute (ANSI) D-16 definition (cont)

2461. PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION; FRONT WHEEL BRAKES ON MEXICAN COMMERCIAL MOTOR VEHICLES

Significance: Nonsignificant

Legal Authority: 49 USC app 2505; 49 USC 3102

CFR Citation: 49 CFR 393

Legal Deadline: None

Abstract: By an Interim Final Rule published on 11/24/89, the FHWA amended 49 CFR Part 393, Parts and Accessories Necessary for Safe Operation, of the Federal Motor Carrier Safety Regulations (FMCSR's). The amendment allows Mexican motor carriers operating commercial motor vehicles in border commercial zones time to comply with the requirement that every commercial motor vehicle be equipped with brakes acting on all wheels. This action will facilitate the flow of trade and traffic between the two countries without interruption. The FHWA also removed the exception (Paragraph (b)) from 393.1 which deferred application of Part 393 to certain Mexican commercial motor vehicles until November 18, 1989. In this Interim Final Rule the FHWA requested comments on all issues addressed, and expects to proceed to final action.

2462. COMMERCIAL DRIVER INSTRUCTION PERMITS

Significance: Nonsignificant

Legal Authority: PL 99-570; 49 USC 3102; 49 USC app 2505

CFR Citation: 49 CFR 383

Legal Deadline: None

Abstract: To reconcile the training needs of the motor carrier industry with the requirements of the commercial driver's license (CDL) program and the Commercial Motor Vehicle Safety Act of 1989, the FHWA is proposing additional minimum Federal standards for State-issued learner's permits that allow drivers to be trained in the operation of commercial motor vehicles (CMVs). Among the alternatives under consideration: Applicants for Commercial Driver Instruction Permits (CDIPs) might need to possess drivers' licenses and undergo record checks analogous to those now required for CDLs; CDIP transactions might be entered in the Commercial Driver's License Information System (CDLIS); and CDIP holders might be explicitly subject to the same disqualifications as CDL holders. Since driver training is nationwide in scope, the FHWA is proposing options that would allow a State to issue a CDIP to a driver trainee, or a 90-day CDL to a trained driver, without regard to his/her State of domicile.

Abstract: This rulemaking proposes to designate as specialized equipment van-type, drop-frame beverage semitrailers whose length, when equipped with an upper coupler plate that extends in front of the semitrailer, exceeds 28 feet, as illustrated in the appendix to the preamble. The resulting configuration would be subject to certain limitations in that the kingpin may not be mounted more than 28 feet from the rear of the semitrailer, exclusive of rear-mounted devices not measured in determining semitrailer length, and the upper coupler may not extend beyond the semitrailer's swing radius (measured from the center line of the kingpin to the front corner of the semitrailer). The rule would prevent States from imposing an overall length limit on such vehicles operating in semitrailer or double-trailer combinations and would guarantee tractor-semitrailer combinations of such vehicles the same access to points of loading and unloading as "pup" semitrailers in 23 CFR 658.19(a).

Abstract: This rulemaking proposes to add an optional method of determining eligibility of reimbursable self-insurance costs and raise the reimbursable limits for railroad protective insurance. This proposal is being made to ease the administrative burden of determining appropriate self-insurance rates. The proposal will allow an alternative of a pre-established fixed rate to cover both worker compensation insurance and public liability and property damage insurance.
